Offg. Secy. to the Govt. of Bengal.

The 5th June 1916.

No. $\frac{3855}{14-66}$ *R.*—The following revised prospectus and rules of the Agricultural College at Sabour are published for general information :—

* * * * * * *

BIHAR AND ORISSA AGRICULTURAL COLLEGE.

SABOUR.

Prospectus and Rules revised up to June 1st, 1916.

1. The Agricultural College, Sabour, opened in November 1910.

2. Responsibility for discipline and management is vested in the Principal under the control of the Director of Agriculture, Bihar and Orissa.

3. The College is well equipped with laboratories for the teaching of Sciences useful to Agriculture ; there is also a Botanic Garden and students will apply their knowledge to practical agriculture on a farm of over 200 acres surrounding the College.

4. The course of study will be for two years, and will consist in the main of practical agriculture covering the main crops of the province with a series of lectures on (*a*) Cultivation and Preparation of Crops for the market, (*b*) Live-stock and Dairying, (*c*) Rural Economy, (*d*) Simple Mensuration and Surveying. In addition to this will be given lectures on Elementary Botany, Chemistry, Entomology, Veterinary Science, Physics and Mathematics sufficient to enable the students to grasp the main facts of agricultural practice. At the end of the course an examination will be held and a certificate of efficiency will be awarded to successful competitors. The College year will begin in June and end in March.

5. The training will fit students for employment in the Agricultural Department and on private estates. Students showing special aptitude for Science will be encouraged to continue their studies at Pusa after leaving College. The certificate will not be regarded as a qualification for Government employment outside the Agricultural Department.

6. Each student will be required to pay in equal quarterly instalments in advance a fee of Rs. 50 per annum on account of tuition ; but this arrangement is provisional and liable to alteration. Each student will be required to deposit Rs. 10 caution money as a guarantee against careless or wilful breakage or loss of apparatus in the laboratories or damage to property. The fees for residence in the hostel, in which all students must reside, are detailed in the "Rules for the management of the hostel", appended to this Prospectus.

6-A. All College dues must be paid before the 15th of the month in which they become due. A fine of Re. 1 will be exacted if the payment is received after this date, which will be increased at the rate of Re. 1 for every three days' delay.

6-B. Dues that have become payable during the long vacation must be paid before the 15th of the month in which the College reopens, failing which the fine for delay imposed by rule 6-A will be charged.

7. Candidates for admission to the College must not be over 21 years of age, and must ordinarily have passed the Matriculation Examination of an Indian University or some examination of equal standing ; but a student who has passed such an examination in English and Mathematics may be

admitted on the Principal of the College satisfying himself that his general education is such as to enable him to benefit fully by the instruction provided. Candidates belonging to Bengal and Assam are admitted in consultation with the Directors of Agriculture of those Provinces:

Provided that the Principal with the approval of the Director of Agriculture may admit candidates whose age exceeds 21 years on production of satisfactory proof that such candidates desire to take the certificate with a view to farming their own lands or to the management of private estates.

8. Three scholarships will be granted by the Government of Bihar and Orissa for natives of this Province. The scholarships will be of the value of Rs. 20 each per mensem, and preference will be shown to members of the cultivating classes. Scholars will be required, if successful in the final examination, to accept service under Government on such terms as may be offered them, and also, if required, to bind themselves to serve Government for not less than five years.

9. Applications for admission should be in the form attached to this Prospectus; they should reach the Principal every year by May 15th and should be accompanied by the following certificates:—

(*a*) of age;

(*b*) of good moral character;

(*c*) of constitutional fitness (signed by a Civil Surgeon);

(*d*) of having passed the Entrance or equivalent examination.

Candidates who have passed the I.Sc. Examination, however, will be preferred.

Students who have sat for an examination, the result of which has not been published, may apply provisionally, and if otherwise suitable, will be admitted in the event of their having passed.

10. On arrival at the College each student must satisfy the Principal as to his physical fitness for agricultural work before he can be finally admitted.

11. Students must provide themselves with such text-books as may be prescribed from time to time.

12. The College sessions will extend from June 1st to March 31st, with an interval of 24 days for the Durga Puja holidays, 10 days for X'mas, and the usual gazetted holidays. The first-year class will not come into residence until June 15th in each year.

13. There will be in March an annual examination on the previous year's work, which each student must pass before taking the next year of the course. Students may be removed by the Principal for unsatisfactory work as shown by examinations or otherwise.

14. For admission to the certificate examination a student must have resided at the College for such time as may be prescribed and have attended at least three-fourths of the lectures in each subject and have carried out the prescribed practical work.

15. The Principal will furnish a report at the end of each session to each person or body of persons by whom the students are supported at the College as to the regularity of their attendance and their progress and conduct at the College.

16. Damage to property in the College and writing on or defacing the doors and walls are strictly prohibited. The Principal will periodically inspect all the buildings and enquire into any damage that may have been done.

17. Strict discipline will be maintained within the College. Infringement of the rules and regulations by students will be punished by fine, rustication, expulsion or such other punishment as may be considered advisable by the Principal after due enquiry. A report on every case of expulsion will be furnished to the Director.

18. Each student, when his name is enrolled on the College books, will receive a copy of the rules and regulations, and will be required to acknowledge by signature his acceptance of such rules and regulations as are in force when he enters, and also such as may be authoritatively introduced from time to time.

Rules for the Management of the Bihar and Orissa Agricultural College Hostel.

1. All students on the roll of the College will be required to live in the hostel and, during residence, will be subject to the following rules, and to such other rules as may from time to time be issued by the Principal.

2. *Fees.*—Each student on joining the hostel will be required to deposit "caution money" to the amount of Rs. 5, which will ultimately be returned to the student if he has not rendered himself liable to forfeiture of the whole or any part of it. He will also pay Rs. 2 per month on account of rent and the pay of the menial servants. This fee is liable to be varied as may be necessary to cover wear and tear of furniture, increase of wages, etc.

3. All payments must be made to the Accountant before the 15th of the month for which the money is due. A fine of Re. 1 for every three days' delay will be imposed. If the payment be not made, the defaulter's name will be removed from the books.

3*a*. A student who takes his name off the College books after the commencement but before the close of the session will be liable to pay the tuition fees for the quarter and the house-rent and club fees for the month in which he leaves, together with the actual messing charges. Students entering the College are similarly liable to pay house-rent and club subscription for the whole month in which they join, unless they join after the 15th of the month when they are required to pay half rates.

4. *Furniture*.—Each student during residence will be supplied with a bed, a hat-and-coat rack, a stool and table accommodation. Each student must bring his own clothing and bedding, but no extra furniture can be admitted without the permission of the Hostel Superintendent.

5. The unauthorized removal of an article of furniture from its proper place will be punished by a fine, and a student wilfully damaging any article will have to replace it or pay for its repair.

6. *Lighting*.—The lighting is not provided by the College authorities, and each student is expected to make his own arrangements, subject to the approval of the Superintendent of the hostel. No lamps are to be used that are likely to be a source of danger to the College property or to cause annoyance to the other boarders.

7. All lights will be extinguished not later than 10-30 P.M., unless special permission from the Superintendent has been obtained.

8. *Messing*.—A rate of Rs. 8 per mensem for diet in Indian style, and Rs. 20 per mensem for diet in European style, excluding tiffin, will be charged for messing, but this rate will be liable to alteration according to the price of food-grains.

8*a*. When students are absent on leave equivalent deductions are ordinarily made from the messing charges, but no such deductions of messing charges are granted when the leave taken is less than seven days or when a student overstays his leave without obtaining proper sanction in advance.

9. There are four dining-rooms and four kitchens in the hostel The necessary servants will be provided.

10. Meals must be taken in the dining-room between such hours as may be prescribed from time to time.

11. Each student will bring his own cup and plate, but the cooking utensils will be provided by the College.

12. *Leave*.—All students will remain within the farm boundaries during the College sessions, except when leave has been obtained from the Principal.

13. Students wishing to leave the Agricultural Station for any purpose will fill in the *exeat* register and leave it with the Superintendent of the hostel after obtaining his signature and the Principal's countersignature

14. *Conduct*.—A certain number of students will be appointed monitors for each session. All breaches of discipline or misbehaviour will be reported by the monitors to the Superintendent of the hostel and, in serious cases, by the latter to the Principal.

15. A conduct register of each student will be kept by the Superintendent, who will have no power to cancel or alter any entry once made. The students will have their names placed in the conduct register and will be fined or otherwise punished for—

(*a*) disobedience of orders or infringement of rules;

(*b*) absence without leave;

(*c*) neglect of study;

(*d*) insubordination or disrespect to the authorities;

(*e*) assaulting or abusing a servant of the hostel;

(*f*) want of cleanliness, or tidiness, in their rooms;

(*g*) misconduct not provided for by the rules.

16. The roll will be called in the morning and at night. Absence from the roll-call without a satisfactory explanation will render students liable to punishment and, after warning, to expulsion.

17. The gate will be closed at 8-30 P.M., when visitors shall leave the premises. The roll will be called immediately afterwards, and every entry and departure after that hour will be recorded in a book by the Durwan, who will report it to the Superintendent. The gate will be closed for the night at 10 P.M., after which no student may leave the hostel, and it will not be unlocked until next morning after roll-call, except under the special orders of the Principal.

18. *Visitors*.—The hostel is intended solely for the use of the students. Relatives and friends of the students only will be allowed to visit the hostel with the permission of the Superintendent, and after writing their names in the Visitors' Book.

18*a*. In special cases relatives or friends who have come from a distance purposely to see any students may be allowed to stay in the hostel for a limited time. In such cases the permission of the Principal must have been obtained one day in advance. A charge of annas 8 per day for rent and messing will be made.

19. *Sickness.*—Any student who, on account of sickness, is unable to attend his work will at once report himself to the Superintendent, who will at once notify the Resident Surgeon. The Resident Surgeon will use his discretion as to isolation. All such cases are to be at once reported to the Principal.

20. A register will be kept in the hostel for the Visiting Surgeon. It should be signed by him on the occasion of each visit. The Superintendent will on such occasions accompany the doctor on his tour of inspection and bring to the notice of the Principal any remarks made by him on the state of the hostel or the health of the students.

21. No student will be allowed to exercise any caste usage likely to interfere with the arrangements for the cleanliness of the room or of the premises.

22. No religious ceremony likely to injure the feelings of other boarders may be performed in the hostel.

23. No student will indulge in any amusement in the hostel which is likely to be a cause of annoyance to the other boarders.

24. *Clubs.*—There will be a small compulsory subscription towards the Athletic Club and the Hostel Reading Room.

25. *Menial servants.*—All the servants will have their duties specified. Any complaints of neglect of duty or of insubordination or misconduct will, in the first instance, be made to the Superintendent. The Principal will be the final authority in punishing a servant. Under no circumstances shall a servant be assaulted or abused by a student.

26. The Principal has power to make bye-laws, provided these are not inconsistent with the above rules.

27. These rules will be subject to modification as may be found necessary.

C. P. WALSH,
Offg. Secy. to the Govt. of Bengal.

No. 4372-W.I., dated Simla, the 12th June 1916.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

THE Government of India have had under consideration the question of the application to lascar seamen left behind by reason of illness in ports of the United Kingdom of the provisions stated in sections 34 and 35 of the Merchant Shipping Act, 1906 (6 Edw. 7 C. 48), by which the owner of a ship is liable for the medical expenses and maintenance of members of his lascar crew left behind sick at a foreign port. As there should be no differentiation of treatment between the cases of seamen left behind by reason of illness, whether in the United Kingdom or other ports, the Governor-General in Council is pleased to direct that the following stipulation shall be added before the last additional stipulation in the Form of Agreement for lascars prescribed in the Resolution in the Department of Commerce and Industry No. 4817-4822-5, dated the 4th July 1912 :—

"Additional stipulation which must be entered into and signed by the owner of the vessel or the master in his behalf :—

I hereby further agree that in the event of any of the said lascars being discharged or left behind at any port in the United Kingdom by reason of illness or incapacity (except venereal disease, or illness or incapacity due to his own wilful act or default or to his own misbehaviour), the expense of providing the necessary surgical and medical advice and attendance, and medicine, and of his maintenance until he is cured, or dies, or is returned to a port in British India, and of his conveyance to the port if so returned, and in the case of death the expenses (if any) of his burial, shall be defrayed by me, without any deduction on that account from his wages."

ORDER.—Ordered that a copy of the foregoing resolution be forwarded to Local Maritime Governments in continuation of the Resolution in this Department No. 4117-4822-5, dated the 4th July 1912, for information and guidance, and also to the Director General of Commercial Intelligence for information.

Ordered also that the Resolution be published in the Supplement to the *Gazette of India* for general information.

The 4th July 1916.

Orders and Notifications by the Government of India.

The following notification, issued by the Government of India in the Legislative Department, published in the *Gazette of India* dated the 1st July 1916, is republished for general information.

J. H. KERR,

Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

Simla, the 27th June 1916.

AN

ORDINANCE

TO

Prohibit or control trading by hostile foreigners and hostile firms and for other purposes.

WHEREAS an emergency has arisen which makes it necessary to take powers further to prohibit or control trading by hostile foreigners and hostile firms and for other purposes:

Now, therefore, in exercise of the power conferred by section 72 of the Government of India Act, 1915, the Governor General is pleased to make and promulgate the following Ordinance:—

5 & 6 Geo., V, Ch 61

ORDINANCE No. V OF 1916.

1. This Ordinance may be called the Enemy Trading Ordinance, 1916.

Short title

2. In this Ordinance—

Definitions

"Company" means any company, firm or association, or body of individuals, whether incorporated or not;

"Hostile foreigner" means a subject of a State for the time being at war with His Majesty, and includes any company constituted according to the laws of such State, and the ruler or Government of any such State; and

"Hostile firm" means any of the following, namely:—

(*a*) any hostile foreigner who has, or at any date subsequent to the 3rd day of August, 1914, had, an office, agency or place of business in British India;

(*b*) any company of which any member or officer is a hostile foreigner, or of which a hostile foreigner was a member or officer on the 3rd day of August, 1914, and which has or has had since that date an office, agency or place of business in British India;

(*c*) any person or company who or which has, at any time since the 3rd day of August, 1914, carried on business in British India, and whose business is, or was, in the opinion of the Governor General in Council, either by reason of its nature

or of the persons who carry or carried it on, or for any other cause whatsoever, carried on either under the control whether direct or indirect of any hostile foreigner, or carried on wholly or mainly for the benefit of hostile foreigners generally, or any class of hostile foreigners or any individual hostile foreigner.

Power to appoint Inspectors.

3. (*1*) The Governor General in Council may, by general or special order, appoint Inspectors for the purpose of determining whether any business is or was carried on by a hostile firm within the meaning of this Ordinance.

(*2*) The Inspector may summon before him any person whom he believes to be capable of giving information concerning the trade, dealings, affairs or property of such business, and of the antecedents and nationality of those by whom it is or was carried on or controlled.

(*3*) The Inspector may examine such person on oath concerning the same, and may reduce his answers to writing, and require him to sign them.

(*4*) The Inspector may require such person to produce any documents in his custody or power in any way relating to such business or to the persons by whom it is or was carried on or controlled.

(*5*) If any person so summoned refuses to come before the Inspector at the time appointed, the Inspector may cause him to be apprehended and brought before him for examination.

(*6*) If any person refuses to answer any question or to produce any document, which under this section the Inspector is empowered to ask or require production of, such person shall be punishable with imprisonment which may extend to six months, or with fine which may extend to one thousand rupees, or with both.

Power to prohibit or restrict or wind up hostile firms

4. (*1*) The Governor General in Council may make an order either—

(*a*) prohibiting any hostile firm from carrying on business except for the purposes and subject to the conditions, if any, specified in the order; or

(*b*) requiring the business of such firm to be wound up; and may in any case, where he has made an order prohibiting or limiting the carrying on of the business, at any time, if he thinks it expedient, substitute for that order an order requiring the business to be wound up.

(*2*) Every order made under sub-section (*1*) shall be published by notification in the Gazette of India

(*3*) If any person contravenes the provisions of any order made under this section, he shall be punishable with imprisonment which may extend to one year, and shall also be liable to fine.

(*4*) An order made under this section shall continue in force, notwithstanding the termination of the present war, until determined by order of the Governor General in Council.

Winding up order

5. (*1*) Where the Governor General in Council makes an order under this Ordinance requiring a business to be wound up the order shall, on notification in the Gazette of India, have effect as if it were a winding up order made by a Court under the Indian Companies Act, 1913, VII of 1913 and the provisions of that Act relating to winding up by the Court and the rules made thereunder subject to such exceptions, restrictions, extensions, modifications and adaptations as the Governor General in Council may, by general or special order, prescribe, or such other rules as may be prescribed by him, shall apply to the winding up of the business:

Provided that, for the purposes of any winding up order under this Ordinance, all powers exerciseable by the Court under the said Act shall be exerciseable by the Governor General in Council or by such other authority as he may appoint either generally or specially in that behalf:

Provided also that the assets of the business and any money resulting from the realization of any part thereof shall be dealt with in accordance with such rules as the Governor General in Council may make in that behalf.

(*2*) Where an order has been made under this Ordinance directing the winding up of the business of a hostile firm, the hostile firm shall not, nor shall any other person, commence or initiate, whilst that order remains in force, any other proceedings of a like nature or calculated in any way to interfere with the carrying out of such order.

Contracts or transfers against the public interest

6. Where it appears to the Governor General in Council that a contract entered into before or during the war, or a transfer of property, moveable or immoveable, made during the war, with or by a hostile foreigner or a hostile firm is injurious to the public interest, or was made with the object of evading any provision of the law, the Governor General in Council may by order cancel or determine such contract, either unconditionally or upon such conditions as he thinks fit, or declare such transfer to be void either in whole or in part, or may impose such conditions on the transferee as he thinks fit.

Power of the Governor General in Council to vest property in Custodian under the Enemy Trading Act, 1915

7. (*1*) The Governor General in Council in any case where it appears to him to be expedient to do so may by order vest in any Custodian appointed under the Enemy Trading Act, 1915, any property, moveble or immoveable, belonging to or managed or held whether in trust or otherwise, for, or on behalf of, a hostile foreigner, a hostile firm, or any person or company residing in, or carrying on business in the dominions of, a State at war with His Majesty, or the right to transfer that property, and may by any such order or any subsequent order confer on the Custodian such powers of selling, managing and otherwise dealing with the property as to the Governor General in Council may seem proper.

of 1915

(*2*) A vesting order under this section shall, notwithstanding the provisions of any other law to the contrary, be sufficient to vest in the Custodian any property or the right to transfer any property as provided by the order without the necessity of any further document.

(*3*) Where, in the exercise of the powers conferred on him by the Governor General in Council, the Custodian proposes to sell any shares or stock forming part of the capital of any company or any securities issued by the company in respect of which a vesting order under this Ordinance has been made, the company may, with the consent of the Governor General in Council, purchase the shares, stock or securities, notwithstanding anything to the contrary in any law or in any regulation of the company, and any shares, stock or securities so purchased may, from time to time, be re-issued by the company.

(*4*) The transfer by the Custodian of any property shall be conclusive evidence in favour of the transferee and of the Custodian that the requirements of this section have been complied with.

(*5*) All property vested in the Custodian under this section and the proceeds of the sale of, or money arising from, any such property, shall be dealt with by him in accordance with such directions as he may receive from the Governor General in Council; and no such property or money shall be liable to be attached or otherwise taken in execution.

Validity of vesting orders

8. Where a vesting order has been made under this Ordinance as respects any property belonging to, or held or managed for, or on behalf of, a person who appeared to the Governor General in Council to be a person to whom the provisions of section 7 were applicable, the order shall not, nor shall any proceedings thereunder or in consequence thereof, be invalidated or affected by reason only of such person having, prior to the date of the order, died or ceased to be a person to whom the said provisions were applicable, or subsequently dying or ceasing to be such a person or by reason of its being subsequently ascertained that he was not such a person, as the case may be.

Registration of transfer without production of certificates, etc

9. Where the Custodian executes a transfer of any shares, stock or securities which he is empowered to transfer by a vesting order made under this Ordinance, the company in whose books the shares, stock or securities are registered shall, upon the receipt of the transfer so executed by the Custodian, and upon being required by him so to do, register the shares, stock or securities in the name of the Custodian or other transferee, notwithstanding any regulation or stipulation of the company, and notwithstanding that the Custodian is not in possession of the certificate, scrip or other document of title relating to the shares, stock or securities transferred; but such registration shall be without prejudice to any lien or charge in favour of the company or to any other lien or charge of which the Custodian has express notice.

Power to make rules

10. (*1*) The Governor General in Council may make rules for all or any of the following purposes, namely :—

(*a*) providing for the distribution or disposal of any assets, or any money resulting from the realization of any part thereof, of any business in respect of which a winding up order has been made under this Ordinance;

(*b*) prescribing that hostile foreigners and hostile firms or any class of hostile foreigners or hostile firms shall, when required by the Custodian, furnish to him such particulars as he may require of all or any moveable or immoveable property in their possession, or under their control, whether direct or indirect;

(*c*) requiring persons in British India to furnish to the Custodian such particulars as he may require of all or any class of debts or other property due by them to any person to whom the provisions of section 7 are or may be applicable;

(*d*) prescribing the remuneration payable to the Custodian in respect of his duties under this Ordinance, the fund from which it shall be paid, and the method of collecting the same; and

(*e*) generally for carrying out the purposes of this Ordinance.

(*2*) In making any rule under this section, the Governor General in Council may direct that a breach of it shall be punishable with imprisonment which may extend to a term not exceeding six months, or with fine which may extend to one thousand rupees, or with both.

Certain licenses under the Hostile Foreigners (Trading) Order to be deemed to be orders issued under section 4(*1*)(*a*)

11. Every license for the time being in force granted under the Hostile Foreigners (Trading) Order permitting the licensee to trade or carry on business subject to conditions or restrictions shall be deemed to be an order made under section 4 (*1*) (*a*) of this Ordinance, and this Ordinance shall have effect accordingly.

Power to deal with non-trading companies

12. (*1*) The Governor General in Council may, by notification in the Gazette of India, declare that the powers conferred by section 7 in regard to the property, moveable or immoveable, of the persons referred to therein shall extend to the property, moveable or immoveable, in British India, of any company specified in such notification of which any member is a hostile foreigner or of which a hostile foreigner was a member or officer on the 3rd day of August, 1914, notwithstanding that such company is not a company trading in British India.

(*2*) On the publication of a notification under sub-section (*1*), the company shall be deemed to be a person referred to in section 7 of this Ordinance, and this Ordinance shall have effect accordingly

Validation of past action

13. Any act done after the 3rd day of August, 1914, by, or under the orders of, any officer of Government in respect of the property, moveable or immoveable, of any hostile foreigner or hostile firm which, if this Ordinance had been in force, could have been validly done in the exercise of the powers conferred thereby, or which could have been conferred thereunder, is hereby validated.

PUBLIC.

The 30th June 1916.

No. 534.—The following rules regarding the submission of petitions to the Government of India are published for general information in supersession of the rules published with the Home Department Notification No 147, dated the 19th January 1905, as amended by subsequent notifications.

RULES REGARDING THE SUBMISSION OF PETITIONS TO THE GOVERNMENT OF INDIA.

GENERAL EXPLANATIONS.

1. In these rules the words "local Government" include a local Administration and the Commander-in-Chief in India, and also, except as regards petitioners under rule 11 (8) whose salary was more than Rs. 30 a month, the head of a department directly under the Government of India, and Army Divisional and Independent Brigade Commanders.

2. These rules do not apply to non-pensionable subordinate, clerical and menial establishments employed in the construction and working of State Railways to whom Circular No. VI-Railway, Public Works Department, dated the 1st June 1888, applies.

3. These rules apply, so far as may be, to all memorials, letters and applications, etc., addressed to the Governor-General in Council.

4. These rules apply also to petitions by persons no longer in military employ who have served in the Army or the Royal Indian Marine, or have been attached to regiments or batteries or the staff or departments of the Army in any capacity.

SECTION I.

As to the submission of petitions to the Government of India by private persons or public bodies.

1. Every petition to the Government of India should be forwarded through the local Government having jurisdiction in respect of the subject-matter of the petition. In cases where no local Government is in a position to deal with the subject-matter of the petition, it should be forwarded through the local Government within whose jurisdiction the petitioner is or has last been residing or employed.

The Railway Board is regarded as the local Government in respect of memorials from persons subordinate to it.

2. A petition may be either in manuscript or in print, but must, with all accompanying documents, be properly authenticated by the signature of the petitioner, or, when the petitioners are numerous, by the signatures of one or more of them, and it must conclude with a specific prayer.

3. Every petition should be accompanied by a letter addressed to the local Government requesting its transmission to the Government of India, and, when any order of a local Government is appealed against, by a copy of such order, as well as of any orders passed in the case by subordinate authorities.

4. Communications on matters connected with any bills before the Imperial Legislative Council may be addressed either in the form of a petition to the Governor-General in Council or in a letter to the Secretary in the Legislative Department, and must in either case be sent to the Secretary in the Legislative Department. Ordinarily such communications will not be answered. Except in the case of the High Court at Fort William, such communications from courts, officials or public bodies should be sent through the local Government.

SECTION II.

*As to the submission of petitions by officers in civil employ.**

5. Every officer in civil employ wishing to petition the Government of India should do so separately.

---

* NOTE (1)—The term "civil employ" includes employment by a local authority

NOTE (2)—For the purposes of the rules in this section a petitioner is considered to be an "officer in civil employ" if he has been previously in civil employ and if his petition relates to any matter connected with his position while in such employ or the circumstances in which he left it.

6. Every petition from an officer in civil employ should be submitted through the head of the office or department to which the petitioner belongs or belonged, and should be forwarded by him through the usual official channel.

7. No officer in civil employ may submit a petition in respect of any matter connected with his official position unless he has some personal interest in the matter.

8. No notice will be taken of a petition relating to any matter connected with the official prospects or position of an officer in civil employ unless it is submitted by the officer himself.

SECTION III.

As to the transmission or withholding of petitions by local Governments.

9. Every petition to the Government of India should be forwarded by the local Government concerned with a concise statement of the material facts and (unless there are special reasons for not doing so) an expression of opinion.

If the petition is an appeal against an order of dismissal from Government service, the papers submitted by the local Government should show whether the charge against the petitioner was reduced to writing; whether his defence was taken and reduced to writing; and whether the decision was in writing. Where service or character books are maintained these also should be submitted.

10. When the petition is not in English, the local Government should transmit a translation with it.

11 Local Governments are vested with discretionary power to withhold petitions addressed to the Government of India in the following cases:—

(1) When a petition is illegible or unintelligible.

(2) When a petition contains language which, in the opinion of the local Government, is disloyal, disrespectful or improper.

(3) When a previous petition has been disposed of by the Secretary of State for India or the Governor General in Council, and the petition discloses no new facts or circumstances which afford grounds for a reconsideration of the case.

(4) When a petition is a mere application for relief, pecuniary or other, which is presented by a person manifestly possessing no claim or advancing a claim of an obviously unsubstantial character, or is so belated that its consideration is clearly impossible.

(5) When a petition is an application for employment from a person not in the service of Government; or is a request for exemption from the provisions of any law or rule prescribing the qualifications to be possessed by persons in the service of Government or by persons engaging in any profession or employment.

(6) When a petition is an appeal against the discharge of a person appointed in India on probation, if his discharge was ordered before the termination of his probation.

(7) When a petition is an appeal from a judicial decision with which the executive has no legal power of interference.

NOTE.—In the following cases, namely:—

(*a*) when a petition is an appeal from a judicial decision in a case in which the Government has reserved any discretion of interference, or

(*b*) when a petition is an appeal from a judicial decision in a suit to which the Government was a party, or

(*c*) when a petition is practically a prayer for mercy or pardon, or contains such a prayer,

the petition must be transmitted to the Government of India, unless it falls under clause (15) of this rule, or unless it is a petition of the kind referred to in clause (*c*) and the case is one of which the local Government is competent to dispose on its own responsibility under the orders contained in the Home Department letter No. 1126—1137, dated the 10th September 1915.

(8) When a petition is an appeal against the appellate order of a Local Government upholding a decision directing the dismissal, removal, reduction or other punishment of a Government servant or an employee of a local authority whose salary was less than Rs. 250 a month.

NOTE 1.—If the appellate order of the local Government modifies the order appealed against to the disadvantage of the appellant, such appellate order should, for the purposes of this rule, be regarded as an original order of the local Government and the appeal should be transmitted.

NOTE 2.—The local Government should, for the purposes of this rule, be considered to have upheld a decision if it modifies the order appealed against to the advantage of the appellant.

NOTE 3.—The words "appellate order" include any order passed on revision.

(9) When a petition is an appeal against the order of a local Government refusing to grant or to recommend a special pension or any pecuniary or other concession not claimable under an law or rule, or a compassionate pension, unless in the last case the petition is from an officer dismissed or removed from Government service, who under these rules has a right of appeal against the substantive order of dismissal or removal.

(10) When a petition is an appeal against a decision which by any law or rule having the force of law is declared to be final.

(11) When a petition is addressed by an officer still in the public service and has reference to his prospective claim for pension, except as provided in article 915 of the Civil Service Regulations.

(12) When a petition is an appeal against the non-exercise by the local Government of a discretion vested in it by law or rule.

(13) When a petition is an application in a case for which the law provides a different or specific remedy, or in regard to which the time limited by law for making the application has been exceeded.

(14) When a petition is an appeal against an order or decision of the local Government, and is made more than six months after the communication of such order or decision to the petitioner without satisfactory explanation of the delay.

(15) When a petition relates to a subject on which the local Government is competent to pass orders and no previous application for redress has been made to the local Government.

(16) When a petition makes a proposal regarding legislation which the local Government is not prepared to support.

12. If a petition is withheld, the petitioner should be informed of the fact and the reason for it.

13. A list of petitions withheld under rule 11, with the reasons for withholding them, shall be forwarded quarterly to the Government of India in the proper department.

No. 536.—The following rules for the submission, receipt and transmission of memorials and other papers of the same class to His Majesty the King, Emperor of India, or to the Right Honourable the Secretary of State for India are published for general information in supersession of the rules published with the Home Department Notification No. 148, dated the 19th January 1905, as amended by subsequent notifications.

RULES REGARDING THE SUBMISSION OF MEMORIALS AND OTHER PAPERS OF THE SAME CLASS TO HIS MAJESTY THE KING, EMPEROR OF INDIA, OR TO THE RIGHT HONOURABLE THE SECRETARY OF STATE FOR INDIA.

N.B.—These rules do not in any way affect or supersede orders issued on the same subject by the military authorities for the guidance of the army.

I.—No memorial will be received or attended to unless forwarded as hereinafter prescribed.

II.—Every memorial to His Majesty or to the Secretary of State for India should contain all material statements and arguments relied upon by

the memorialist and be complete in itself; and it should be accompanied by a letter requesting its transmission to the authority to which it is addressed.

III.—Every memorial to His Majesty or to the Secretary of State for India should be presented through the local Government having jurisdiction in respect of the subject-matter of the memorial. In cases where no local Government is in a position to deal with the subject-matter of the memorial, it should be presented through the local Government within whose jurisdiction the memorialist is or has last been residing or employed or, if there is no local Government answering to these descriptions, then through the Government of India.

The Railway Board is regarded as the local Government in respect of memorials from persons subordinate to it.

IV.—Every memorial to His Majesty or to the Secretary of State for India presented through the Government of Madras, Bombay or Bengal should be forwarded direct by the local Government, with a full statement of facts and an expression of opinion, except in the case of a memorial which—

(*a*) relates to—

(*i*) any rule or standing order of the Government of India; or

(*ii*) any Legislative Proceedings of the Governor-General in Council or an Act to which the Governor-General has assented; or

(*iii*) a case which has been previously under the consideration of the Government of India, whether on appeal or otherwise; or

(*b*) if granted, would cause expenditure for which the Imperial and not the local Government would be primarily responsible.

Every such memorial should be forwarded with a covering letter containing a full statement of facts and an expression of opinion to the Government of India in the proper department for transmission to the Secretary of State* for India.

V.—Every memorial to His Majesty or to the Secretary of State for India presented through a local Government, other than the Government of Madras, Bombay or Bengal, should be forwarded by the local Government, with a full statement of facts and an expression of opinion, to the Government of India in the proper department for transmission to the authority addressed.†

VI.—Every memorial to His Majesty or to the Secretary of State for India from a person who has been employed in the army should, if it relates to a military subject, be forwarded through the Army, Divisional or Independent Brigade Commander under whose jurisdiction the memorialist has served. The Army, Divisional or Independent Brigade Commander will forward it with a full statement of facts and an expression of his opinion to the Government of India in the Army Department for transmission to the authority addressed.‡

VII.—A memorial may be transmitted either in manuscript or in print, but must, with all accompanying documents, be properly authenticated by the signature of the memorialist on each sheet, and must conclude with a specific prayer.

---

* "In the case of memorials and petitions against, or regarding, Acts passed by the Legislative Council of the Governor General, the Legislative Department is to be considered to be the department having cognizance of the subject-matter of the memorial. Such memorials will be transmitted to His Majesty's Secretary of State through that department, and to it should be referred all memorials of the kind now described, which may reach any other department of the Government of India. The Legislative Department will, when necessary, consult the executive department concerned before disposing of, or transmitting, such memorials."—Home Department No. $\frac{22 \text{ Public}}{996-1001}$, dated the 24th May 1878.

Memorials involving questions relating to pensions, gratuities, allowances, and the like, should be forwarded through the Government of India.—Home Department Notification No. 5153, dated 10th September 1901

† Appeals by private persons from the orders of Lieutenant-Governors or Chief Commissioners lie, in the first instance, to the Governor General in Council. An appeal to the Secretary of State will lie only in the event of an appeal to the Governor General in Council having been rejected.

‡ Appeals by individuals from the orders of the Army Divisional or Independent Brigade Commanders lie, in the first instance, to the Governor General in Council and thereafter to the Secretary of State

VIII.—Memorials, together with their accompanying documents, should be in English.* If the accompanying documents must necessarily be forwarded in the vernacular, an English translation should be appended, which should be attested by the signature of the memorialist.

N. B.—It will be well for the transmitting office to examine such translations, and if they are found to be incorrect or faulty, to notice the fact in sending on the memorial.

IX.—It is not necessary that memorials should be forwarded in duplicate or triplicate. The originals will invariably be transmitted to England a copy being made and retained by the Government of India, if necessary, for record.

X.—As a general rule, the transmission to England of a memorial duly forwarded through the proper channel should not be delayed by the transmitting Government in India beyond a month after the receipt of the memorial.

XI.—The Governments in India are vested with discretionary power to withhold the transmission of memorials addressed to His Majesty or to the Secretary of State for India in the following cases:—

(1) When a memorial is illegible or unintelligible.

(2) When a memorial contains disrespectful or improper language.

(3) When a second memorial is presented after a decision has already been given by the authority to which it is addressed, and when no new facts or circumstances are adduced which afford grounds for a reconsideration of the case. A memorial addressed to His Majesty by a person whose appeal to the Secretary of State for India has already been rejected, shall be held to be a second memorial to the same authority, and shall not be transmitted.

(4) When a memorial is a mere application for relief, pecuniary or other, which is presented by a person manifestly possessing no claim or advancing a claim of an obviously unsubstantial character, or is so belated that its consideration is clearly impossible.

(5) When a memorial is an application for employment under one of the Governments in India from a person not in the service of the Government or is a request for exemption from the provisions of any law or rule prescribing the qualifications to be possessed by persons in the service of Government or by persons engaging in any profession or employment.

(6) When a memorial is an appeal against the discharge of a person appointed in India on probation, if his discharge was ordered before the termination of his probation.

(7) When a memorial is a mere appeal from a judicial decision.

NOTE.—If the memorial is practically an appeal for mercy or pardon, or contains such an appeal, it must be transmitted, unless it falls under Rule XII, or unless the case is one of which the local Government or the Government of India are competent to dispose on their own responsibility under the orders contained in the Home Department letter No. 1126-37, dated the 10th September 1915.

---

* "As it frequently happens that the disposal of vernacular petitions presented to the Government of India is delayed owing to their being unaccompanied by English translations, and as local Governments and Administrations have greater facilities for translating the vernacular in use under their different provinces than the Government of India have, I am directed to request that, in order to avoid inconvenience and delay, all vernacular petitions transmitted by a local Government and Administration to the Government of India may invariably be accompanied by an English translation

2. It should, however, be clearly understood that it is not the intention of the Governor General in Council that any petition presented for transmission to the Government of India or the Secretary of State should be refused by reason of its being in the vernacular or because it is unaccompanied by a translation. The great majority of the population do not know English, and cannot obtain the services of an English petition-writer; and it is most undesirable that in a country like India the free right of petition should be curtailed. But as the languages of India are many and diverse it is desirable that any vernacular petition or memorial forwarded to supreme authority by or through a local Government should be accompanied by an English translation."—Home Department No. 54—2086-95 (Public), dated the 21st November 1878.

(8)* When a memorial is an appeal against the appellate order of a local Government upholding a decision directing the dismissal, removal, reduction or other punishment of a Government servant or an employee of a local authority whose salary was less than Rs. 250 a month; or when it is an appeal against the order of the Government of India upholding on appeal a decision directing the dismissal, removal, reduction or other punishment of a Government servant or an employee of a local authority whose salary was less than Rs. 500 a month.

NOTE 1.—If the appellate order of the local Government or the Government of India modifies the order appealed against to the disadvantage of the appellant such appellate order should, for the purposes of this rule, be regarded as an original order of the Local Government or the Government of India and the appeal should be transmitted.

NOTE 2.—The local Government or the Government of India should, for the purposes of this rule, be considered to have upheld a decision if it modifies the order appealed against to the advantage of the appellant.

NOTE 3.—The words "appellate order" include any order passed on revision.

NOTE 4.—For the purposes of the latter part of this rule, an order of the Government of India upholding a decision of the Railway Board should be regarded as an original order of the Government of India, and the appeal should be transmitted.

(9) When a memorial is an appeal against a decision, which by any law or rule having the force of law, is declared to be final.

(10) When a memorial is addressed by an officer still in the public service and has reference to his prospective claim to pension.

(11) When a memorial is a mere appeal against the non-exercise by one of the Governments in India of a discretion vested in such Government by law or rule.

(12) When a memorial is an appeal against the action of a private individual or of a body of private individuals regarding the private relations of the memorialist and such individual or body.

(13) When a memorial is an appeal against the order of a local Government or of the Government of India refusing to grant or to recommend a special pension or any pecuniary or other concession not claimable under any law or rule, or a compassionate pension, unless in the last case the memorial is from an officer dismissed or removed from Government service, who under these rules has a right of appeal against the substantive order of dismissal or removal.

(14) When a memorial makes a proposal regarding legislation which a local Government or the Government of India are not prepared to support.

(15) When a memorial is an appeal preferred more than six months after the date on which the memorialist was informed of the orders against which he appeals provided that a local Government or the Government of India may, at their discretion, extend the period to twelve months, if the delay will facilitate a settlement of the dispute or other good cause is shown

---

* "The Governor General in Council considers that the discretionary power of withholding petitions under Clause 8, Rule XIII of the rules for the submission, receipt, and transmission of memorials and other papers of the same class addressed to His Majesty the King, Emperor of India, or to the Right Honourable the Secretary of State for India, by private persons or by officers of all civil Departments should be used with caution, and only after full consideration of the facts in each case Having regard to the constitution and character of the Indian subordinate services, dismissal of Government officials often involves serious distress, if not actual ruin, to them, and it is right that, under such circumstances, every opportunity should be allowed to them of making themselves heard. Further, when, as sometimes happens, their representations reach the Secretary of State through non-official channels, it is convenient that he should be in a position at once to deal with them instead of being obliged, as may now be the case, to refer for information to this country. Such petitions, therefore, should not be withheld when there is any reasonable prospect of difference of opinion as to the order passed on them by the Government of India, or when they contain anything to which the attention of the Secretary of State is likely to be especially directed."—Home Department Resolution No. 1438 (Public), dated the 24th September 1880

Now numbered Clause 8, Rule XI.

Provided that, subject to what is said in clauses (1), (2), (3) and (15), no appeal to the Secretary of State by an officer appointed by him, irrespective of the rate of pay drawn, shall be withheld when the appeal involves a question of the interpretation of the terms of the officer's engagement.

XII.—The Government of India may withhold the transmission of a memorial to His Majesty or to the Secretary of State for India unless the memorialist has previously memorialised the Government of India and the local Government concerned on the same subject; and the Government of Madras Bombay or Bengal may withhold the transmission of a memorial which under rule IV they are authorized to forward direct, unless the memorialist has previously memorialised the local Government concerned on the same subject: provided that, when the memorial is one for pardon which no authority in India has power to grant, it should be addressed to His Majesty and forwarded to the Secretary of State for India.

XIII.—When a memorial is withheld, the memorialist should be informed of the fact and of the reason for it.

XIV.—A list of memorials withheld under the discretionary power conferred by rules XI and XII, with the reasons for withholding them, will be forwarded quarterly to the Government of India in the case of memorials withheld by local Governments, and by the Government of India in the department concerned to the Secretary of State for India.

NOTIFICATIONS.

Simla, the 28th June 1916.

No. 5134-W.-II.—In pursuance of section 2 of the Defence of India (Criminal Law Amendment) Act, 1915 (III of 1915), as subsequently amended, the Governor-General in Council is pleased to make the following rules:—

1. These rules may be called the Defence of India (Wool) Rules, 1916.

Short title.

2. In these rules "Collector" includes any officer appointed by the Local Government by notification in the local official gazette to discharge in any local area the functions of a Collector under these rules.

Definition

3. No person shall despatch or cause to be despatched by railway any wool from any railway station in British India on the following railways or portions thereof, *viz.*:—

Prohibition of despatch of wool by rail from certain areas except under license.

the Great Indian Peninsular Railway south of Poona,

the Bengal-Nagpur Railway south of Berhampore,

the Bezwada Extension of the Nizam's Guaranteed State Railway,

the Madras and Southern Mahratta Railway,

the South Indian Railway,

the Barsi Light Railway,

the Dhond-Baramati Railway,

and all railways worked by the Madras and Southern Mahratta Railway or the South Indian Railway,

except in accordance with the terms of a license issued by the Collector of the district in which the station is situated.

4. Any person who commits or attempts to commit, or abets or attempts to abet, the commission of any act prohibited by these rules shall be punishable with imprisonment of either description which may extend to six months, or with fine which may extend to one thousand rupees, or with both.

Penalty for breach of rule 3.

EXPLOSIVES.

The 1st July 1916.

No. 5005-23.—In accordance with the provisions of section 18 of the Indian Explosives Act, 1884 (IV of 1884), and of the Notification of the Government of India in the Home Department, No. 1964, dated the 2nd September 1887, the Governor-General in Council is pleased to publish, for general information, the following amendments which His Excellency in Council, in exercise of the powers conferred by section 5 of the said Act, proposes to make in the Indian Explosives Rules, 1914, published with the Notification in this Department No 4013-33, dated the 6th June 1914.

The draft will be taken into consideration by the Governor-General in Council on the expiration of two months from the date of publication of this Notification in the *Gazette of India*.

Draft amendments.

I. To the entry against rule 97 in the list of contents prefixed to the said rules the words "and Chinese crackers" shall be added.

II. For rule 97 of the said rules the following shall be substituted, namely:—

"97. Nothing in rules 80 to 89 shall apply to ammunition (Division 1) and in the case of the transport by rail of Chinese crackers (Division 2 of class 7—F reworks) the provisions of rule 89 may be relaxed during the period from July to March inclusive under an order of the District Traffic Officer when the number or size of consignments offering is such that, in his judgment, serious delay would be caused by the observance of the rule: provided that in both instances all due precautions shall be taken to prevent explosion."

Saving as to the conveyance of ammunition and Chinese crackers

III. For clause (*d*) of rule 134 of the said rules the following shall be substituted, namely:—

(*d*) sporting gun-powder packed in double packages as provided in Schedule IV, so long as the gun-powder is contained in tin canisters containing not more than 5 lbs. each and packed in a stout wooden case with an outer covering of tin or zinc completely spark-proof, or in metal-lined cases of a pattern approved by the Chief Inspector of Explosives. But no outer case shall contain more than 25 lbs. of gun-powder, and the total consignment by one train shall not exceed 80 lbs.

IV. In column I of form H, in form 1 and in the first column of the table of distances appended to the said rules, below the entry "Government building" the words "wireless station" shall be inserted.

CUSTOMS.

The 1st July 1916.

No. 5215-78-W.-II.—The following Royal Proclamation is published for general information:—

BY THE KING.

A PROCLAMATION

RELATING TO THE IMPORTATION OF CERTAIN ARTICLES INTO THE UNITED KINGDOM.

GEORGE R. I.

WHEREAS by Section forty-three of the Customs Consolidation Act, 1876, it is provided that the importation of arms, ammunition, gunpowder, or any other goods may be prohibited by Proclamation:

And whereas by various Proclamations entitled Prohibition of Import Proclamations the importation of certain goods has been prohibited accordingly:

And whereas it is expedient that the importation into the United Kingdom of certain other goods should be prohibited, and the existing prohibition imposed on the importation of certain goods removed:

NOW, THEREFORE, We, by and with the advice of Our Privy Council, in pursuance of the said Act and of all other powers enabling Us in that behalf, do hereby proclaim, direct and ordain as follows:

(1) As from and after the Eighth day of June 1916, subject as hereinafter provided, the importation into the United Kingdom of the following goods is hereby prohibited, viz.:—

NOTICE.

THE Senate will proceed in the month of August 1917, to the election of a Tagore Professor of Law for a term of one year, to commence on the 1st of August 1918.

The salary of the Professorship is Rs. 9,000 per annum, and the Professor will be expected to deliver a course of not less than twelve lectures on one of the following subjects :—

(*i*) The History of Hindu Law in the Vedic Age and in Post-Vedic times down to the Institutes of Manu.

(*ii*) The Law of Pre-emption in British India.

(*iii*) Comparative Administrative Law, with special reference to the organization and legal position of the administrative authorities in British India.

The salary of the Professor will be paid in twelve equal monthly instalments, the first instalment to be paid on the first day of the month following that in which the first lecture is delivered.

Candidates for the Professorship are requested to forward their applications to the Registrar on or before the 1st May 1917, stating on which of the above-named three subjects they are prepared to lecture. Each candidate will forward with his application one hundred copies of a brief Synopsis of his proposed lectures; and, if he so pleases, the same number of copies of his Introductory Lecture.

The Professor will, not later than the month of August following his election, forward to the Registrar a complete copy (manuscript or typewritten) of the lectures which he proposes to deliver. The copy will be forthwith referred to a Committee of the Faculty of Law, consisting of not more than three members to be chosen by the Faculty, who will examine the same, and, before the expiry of two months from the date of the submission of the copy by the Professor to the Registrar, report to the Faculty whether the work is complete and ready for the Press. If, upon such report, the Faculty are satisfied that the work is complete, the Professor will commence to deliver his lectures within three months from the date of the resolution of the Faculty and shall complete the delivery thereof in another three months. The copy of the lectures delivered will remain in the custody of the Registrar and shall be sent to Press as soon as practicable after delivey thereof.

If the Professor fails to submit the copy of the lectures, or if the copy submitted be found, on examination, to be incomplete and not ready for the Press, the matter will be referred to the Faculty of Law, upon whose recommendation the Senate may either extend the time or cancel the appointment.

Chittagong, the 19th June 1916. A. H. CLAYTON, Collector.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Assam-Bengal Railway, in the district of Tippera, will be put up to sale at 1 o'clock on 20th July of the year 1916, corresponding with the 4th Sraban 1323 Fush, at Kamalasagar Railway station.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Commissioner confirming the sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES viz.

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

North Channel entrance, Tsungming Crossing—Direction of Channel changed; Buoys moved.

No. 197 (first publication).—The Coast Inspector, Shanghai, has given Notice No. 621 of 1916 that the direction of the channel on the Tsungming Crossing, North Channel Entrance to Yangtze River, has changed and that the following Buoys have been moved to mark the new channel.

The East Entrance Buoy is now moored in 51 feet of water in the fairway leading to the eastern entrance to the Crossing. From the Buoy, Dumb Beacon bears N. 36½° W., distant 1·43 miles. Its characteristics remain unchanged.

The Crossing Buoy is now moored in 21 feet of water on the northern side of the channel. From the buoy, Dumb Beacon bears N. 56½° E., distant 2·85 miles. Its characteristics remain unchanged.

The West Spit Buoy remains unchanged.

The least depth of water on the Crossing as now buoyed is 14 feet.

All bearings given are magnetic, and depths are those of low water of extraordinary spring tides.

AUSTRALIA.

Wide Bay Bar—North Bank extended.

No. 198 (first publication).—The Portmaster, Brisbane, has given Notice (No. 4 of 1916) that owing to the recent heavy weather experienced, the North Bank has extended south into the line of the Outer Bar Beacons.

When entering it is now necessary to open the Outer Bar Beacons once their own width to the Southward when nearing the North Bank and keep them so until well past the North Spit, then bring them into line to pass the South Spit. By following these directions 16 feet O.L.W.S. will be obtained.

Charts affected.—Nos. 1030 and 1068; Australia Directory, Vol. II.

AUSTRALIA.

Outer Freeman Channel, Moreton bay—Navigation in.

No. 199 (first publication).—The Portmaster, Brisbane, has given Notice (No. 5 of 1916) that the Outer Freeman Channel is now marked by buoys for the use of vessels during the hours of daylight. The available depth is 22 feet L.W.S.

A plan of the Channel may be seen at the Port Office.

Directions for Use.—Vessels from the South intending to enter by the Outer Freeman Channel will, after passing one mile off Cape Moreton Lighthouse, steer N. 73 degrees W. as usual until North Point is abeam; then haul round to W. ¼ S. and continue this course until the Yellow Patch lightkeeper's cottage is in line with Cape Moreton Lighthouse; keep them in line (steering N. 74 degrees W.) until Comboyuro Lighthouse bears South, when the entrance buoy (black with top mark) will be abeam on the port hand distant 9 cables; steer for and pass it, leaving it close on the port hand; then steer S. ¾ W. through the Channel making due allowance for the strong set of tide, passing two black buoys on the port hand and two red buoys and the junction buoy on the starboard hand, and then proceed past Comboyuro Point as directed for North Channel.

Charts affected.—Nos. 1670A, 1029 and 1063; Australia Directory, Vol. II.

Adelaide—Wireless Time-signals established

No. 187 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 461 of 1916), are republished :—

Position.—Adelaide Observatory, lat. 34° 55½′ S., long. 138° 35¼′ E.

Details.—Wireless time-signals, in accordance with the system adopted by the International Time Convention, have been established at Adelaide.

The signals are made at 00h. 00m. and 12h. 00m. Standard Time, corresponding to 14h. 30m. and 2h. 30m. G.M.T., respectively, as follows :—

Preparative signals.—A series of the letter "X" of the Morse code from 23h. 57m. 00s. and 11h. 57m. 00s., followed by three *dashes* ending at 23h. 58m. 00s. and 11h 58m. 00s.

First series of time-signals.—From 23h. 58m. 08s. and 11h. 58m. 08s., the letter "N" of the Morse code, repeated every 10 seconds, the *dot* being made at each even 10 seconds; followed by three *dashes* ending at 23h. 59m. 00s. and 11h. 59m. 00s.

Second series of time-signals.—From 23h. 59m. 06s. and 11h. 59m. 06s., the letter "G" of the Morse code repeated every 10 seconds, the *dot* being made at each even 10 seconds; followed by three *dashes* ending at 00h. 00m. 00s. and 12h. 00m. 00s.

The *dashes* are of about one second and the *dots* of about a quarter of a second duration, each sign being separated from the one which immediately follows in the same group by an interval of about one second duration.

The attached diagram represents graphically the foregoing system.

Remarks.—It is estimated that the night signals have a range of about 2,000 miles.

RESOLUTION ON THE ANNUAL REPORT ON EMIGRATION FROM THE PORT OF CALCUTTA TO BRITISH AND FOREIGN COLONIES DURING THE YEAR 1915.

DARJEELING THE 26TH JUNE 1916.

RESOLUTION—No. 334T.—EMI.

READ—

The Annual Report on Emigration from the Port of Calcutta to British and Foreign Colonies during the year 1915.

THOUGH emigration was resumed in the year under review, the effect of the European War was again marked and shortage of tonnage prevented more

than half of the colonial demand being satisfied. Apart from this the chief feature of the year was the discontinuance of recruitment for Surinam and the delegation to the Protector of Emigrants of the power vested in the Local Government to grant licenses to Masters of emigrant vessels.

2. As in previous years three agencies represented the British colonies, but this year the Dutch Agency for Surinam ceased to work. The demand for labour increased from 5,132½ in 1914 to 5,846 in the year under review, but owing to the lack of steamers the supply fell from 2,508 to 2,314, of which Fiji secured more than half.

3. The number of licenses issued to recruiters in 1915 was 556, or 87 less than in the year 1914, two-thirds of the decrease being due to the suspension of the Surinam Agency's operations. Sixteen recruiters' licenses, including two granted in 1914, were cancelled during the year, misconduct being the cause in 12 cases against 32 in the previous year.

4. As in 1914, recruiting operations were conducted in Bengal, Bihar and Orissa, Ajmere, the Central Provinces and the United Provinces, but no emigrants were recruited in the Punjab. The total number of emigrants registered was 5,975, or 830 more than in 1914. The majority (91·40 per cent.) came as usual from the United Provinces, the Basti, Gonda, Gorakhpur and Fyzabad districts supplying the largest numbers.

5. Of the 5,968 emigrants admitted in the sub-depôts and in the central depôt at Benares, 1,858 were rejected on medical examination as unfit to emigrate, and of the rest, 3,151 arrived at the Calcutta depôts. This number was subsequently reduced by rejections, releases and other causes to 2,952, of whom 2,438 were shipped during the year and 514 were left for subsequent despatch.

6. The sanitary arrangements in the depôts were good. The total number of emigrants admitted to hospital was 336, of whom five died as against 230 admissions and 18 deaths in 1914, the mortality among the depôt population shewing a satisfactory decrease of ·31 per cent. over the figure for the previous year.

7. During the year, 1,155 emigrants left the colonies, of whom 112 brought savings amounting in the aggregate to Rs. 2,12.157, the average for each emigrant being Rs. 183 as compared with Rs. 151 in 1914. On the other hand, 1,043 emigrants, including 783 adults, came back without any savings. Remittances from emigrants resident in the colonies showed a general decrease in the case of all the colonies except Mauritius, from which a sum of Rs. 1,55,527, or Rs. 16,315 more than in 1914, was remitted to this country during the year. Natal, however, again remitted the largest sum, despite a fall of Rs. 37,710 as compared with the preceding year, but the amount sent again probably includes remittances from traders as well as labourers.

8. One hundred and eighty-nine estates of deceased emigrants, valued at Rs. 13,692, were administered by Government during the year. Of these the heirs of 76 were traced, 65 lapsed to the Indian and Colonial Governments, and the remainder were under enquiry at the end of the year. The Emigration accounts closed with a deficit of Rs. 20,116 due to the falling off of receipts from embarkation fees in consequence of the decrease in the number of emigrants shipped.

9. Dr. Banks held the post of Protector of Emigrants throughout the year, and the thanks of the Governor in Council are due to him for the efficient manner in which he carried out his duties.

By order of the Governor in Council,

J. DONALD,
Secretary to the Govt. of Bengal.

RESOLUTION ON THE TENTH ANNUAL REPORT OF THE BENGAL SMOKE NUISANCES COMMISSION FOR 1915-16.

No. 1766Marine.

GOVERNMENT OF BENGAL,

MARINE DEPARTMENT.

Calcutta, the 4th July 1916.

RESOLUTION.

READ—

The Annual Report of the Bengal Smoke Nuisances Commission for the year 1915-16.

TWELVE ordinary meetings and one special meeting were held by the Commission during the year 1915-16.

2. The Inspectors made 11,891 observations of smoke emission against 9,101 during the previous year and visited 5,236 factories, examining power plant, instructing firemen and testing fuel appliances.

3. The average emission of smoke of the greatest density was observed to have been reduced from 1·66 minutes in the hour during the preceding year to 1·4 minutes in the year under report. This figure again constitutes a record.

4. The Commission have done much towards the abatement of the smoke nuisance in and around Calcutta. Difficulties have, however, been experienced in dealing with various forms of the nuisance under the Act of 1905, and proposals for the amendment of the Act were under consideration during the year. There was some controversy over one amendment, the object of which is the prevention of the nuisance caused by the emission of dense smoke by ocean-going steamers in the port of Calcutta. The Governor in Council acknowledges with pleasure the co-operation of the Bengal Chamber of Commerce and of their representative on the Bengal Legislative Council, the Hon'ble Mr. E. H. Bray, whereby an agreement, acceptable to the mercantile community and to Government, has been arrived at. The Bill to amend the Act of 1905, embodying the proposed amendments, received the assent of the Governor-General in Council during the year, and the amended Act came into force from the 5th April last. His Excellency trusts that, with the co-operation of owners and agents of vessels and the judicious working of the new rule, the present excessive emission of smoke, which is detrimental to health will be reduced to reasonable limits.

The other amendments of the Act, which experience has shown to be necessary, and the amended rules issued under the Act, will, it is hoped, enable the Commission to check more effectively than at present the nuisance caused by the emission of offensive smoke.

5. Forty-two complaints were received by the Commission against 28 in the previous year, and satisfactory relief was promptly given where possible. The greater number of complaints shows the increasing interest and confidence of the public in the Commission.

6. Ten certificates of competency as stokers were granted after the requisite examination, against 29 in 1914-15. The reduction in the number of candidates is attributed to unsettled circumstances consequent on the war.

7. Two hundred and thirty-one electric motors were installed, against 182 during the previous year. A more extensive use of electricity and gas for power and heating purposes was noticed, and is encouraging as likely to reduce to some extent the emission of smoke.

8. The thanks of the Governor in Council are due to the public for their continued co-operation in the work of the Commission and to the President and Members of the Commission for their efficient administration of the Act and the rules issued thereunder.

The thanks of Government are also due to Mr. G. Robertson, whose expert advice has been of great assistance to the Commission and the Government, and who has held the post of Secretary to the Commission since the commencement of its work in 1906 until his recent departure on leave preparatory to retirement.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Government of India, Department of Commerce and Industry, the President of the Smoke Nuisances Commission, the Commissioners of the Presidency and Burdwan Divisions, the Commissioner of Police, Calcutta, the Chairman, Calcutta Corporation, the Vice-Chairman, Port Commissioners, Calcutta, the Secretary, Bengal Chamber of Commerce, the Master, Calcutta Trades Association, the Honorary Secretary to the Bengal National Chamber of Commerce, the Chairman of the City Improvement Trust, Calcutta, and the Municipal Department of this Government.

Ordered, also, that the Resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

C. P. WALSH,
Offg. Secretary to the Govt. of Bengal.

REPORT ON FAMINE AND SCARCITY IN THE DISTRICTS OF BANKURA AND TIPPERA FOR THE WEEK ENDING THE 24TH JUNE, 1916.

IN the Bankura district the state of affairs in affected areas is generally unchanged. The rainfall is general. The cultivation for winter and autumn crops is progressing. The condition of people on relief-works is generally good. The relief measures are adequate. Loans are being freely advanced. Private charitable funds are giving relief. Prices are stationary. The price of rice is 8 seers per rupee. The number of persons on relief-works was 12,785, and in receipt of gratuitous relief 24,090—total 36,875. The increase in the number of persons on relief-works was due to return to normal condition from the drop in the preceding week, which drop was due to heavy rain making relief-works impossible in places and increasing demand for agricultural labour. Three thousand eight hundred and ninety-two persons were relieved on private works.

In the Tippera district the rain fell in the Brahmanbaria subdivision during the week, but the weather was very dry. Harvesting of *aus* paddy sown in March is proceeding, but outturn is not good. Public health is good. The price of rice is 7 seers per rupee. The number of persons on relief-works was 3,071, and in receipt of gratuitous relief 6,480—total 9,551. The increase in the number of persons gratuitously relieved was due to increase of distress which will be relieved on the reaping of autumn rice crop in July.

L. BIRLEY,
Offg. Secy. to the Govt. of Bengal.

DARJEELING,
The 29th June 1916.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 3rd July 1916.

Summary.—During the week under report heavy rain fell throughout nearly all the Eastern Bengal districts; in the rest of the province, however, the rainfall was only moderate. Ploughing of fields for winter rice and transplantation of paddy seedlings are proceeding. Weeding of jute fields is still in progress in some districts of Western Bengal. Harvesting of autumn paddy and jute has commenced in several places in Eastern Bengal. Cattle-disease is reported from eleven districts. The average price of common rice for the province has risen by about 0·8 per cent., as compared with that of the previous week.

No. 5258L.A.—The 4th July 1916.—The following agreement, made under section 41 of the Land Acquisition Act, I of 1894, is published for general information.

L. BIRLEY,
Offg. Secy. to the Govt. of Bengal.

Agreement executed by the Gaibandha Central Banking Union Limited desiring to acquire land under section 41 of the Land Acquisition Act.

AGREEMENT made this 5th day of June 1916 between the Gaibandha Central Banking Union Limited a Co-operative Society incorporated under the Co-operative Societies Act, 1912 (II of 1912) and having its registered office at Gaibandha in the subdivision of Gaibandha in the district of

Rangpur (hereinafter called the Company) of the one part and the Secretary of State for India in Council (hereinafter called the Secretary of State) of the other part.

Whereas for the purpose of the construction of an office building and the necessary quarters for officers and out-houses the Company has applied to the Government of Bengal for the acquisition under the provisions of the Land Acquisition Act 1894 of the piece or parcel of land containing 13 cottahs and 14 chittaks or thereabout situate in the village of Gobindapur more popularly known as Gaibandha in the subdivision of Gaibandha in the district of Rangpur and more particularly described in the schedule and delineated in the plan* hereunto annexed.

And whereas the said Government of Bengal being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public has consented to acquire on behalf of the Company the piece or parcel of land hereinbefore described.

And whereas the said Government of Bengal has required the Company under the provisions of section 41 of the abovementioned Act to enter into the agreement with the Secretary of State hereinafter contained. Now this indenture witnesseth that it is hereby agreed and declared as follows:—

1. On demand the Company shall and will pay to the said Government of Bengal all and every compensation in respect of the land which will be acquired for the Company tendered paid or awarded or to be tendered paid or awarded by the Collector under the Land Acquisition Act, 1894, or by the Court to which a reference under Part III of the said Act may be made or by the Court or Courts to which an appeal from the award of the said Court may be preferred and all costs charges and expenses of the proceedings in the aforesaid Courts or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

2. On demand made by the said Collector the obligations of the Company under the last preceding clause not being thereby limited the Company shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Collector may in anticipation estimate to be necessary for the purposes mentioned in the last preceding clause.

3. On payment by the Company of all demands under the foregoing first clause or in the discretion of the said Government of Bengal (on deposit by the Company of all estimated amounts as provided in the second clause) but not before possession shall have been taken under the provisions of the abovementioned Act the Secretary of State shall make over possession of the said land to the Company and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the Company.

4. The said land shall be held by the Company for the purposes of such office building, necessary quarters for officers and out-houses as are hereinbefore mentioned and without the sanction in writing of the said Government of Bengal first had and obtained for no other purpose whatsoever.

5. The said office building, necessary quarters for officers and out-houses shall be completed (and fully equipped in all respects ready for use) within 2 (two) years from the date on which possession of the said land shall have been given to the Company.

6. Should the said office building, necessary quarters for officers and out-houses not be completed (and fully equipped in all respects ready for use) within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal or should the said land at any time thereafter cease for a period of twelve consecutive months to be held and used or cease to be required for the purpose or purposes provided for in the foregoing fourth clause then and in any such case the said Government may summarily re-enter upon and take possession of the said land and thereupon the interest of the Company in the said land shall absolutely cease and determine.

7. On taking such possession the said Government may sell or otherwise deal with the said land as it may think proper. Should the said Government sell the said land the said Government after deducting the expenses incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the Company. Should the said Government on taking possession decide not to sell the land it shall repay to the

Company all sums received from the Company in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of 15 per cent.) but will not repay any sums paid and received on account of costs charges and expenses.

8. The office shall be open to the reasonable use of all the *bonâ fide* members of the Company during the office hours of the Company and at all hours to those who have business to transact with the Company as regards admission of members into the Company applications for loans deposit and withdrawal of money and also to those making enquiries relating thereto :

Provided that the Company may make rules fixing and regulating its hours of business a copy of which shall be affixed to a conspicuous place on the premises but any rules framed by the Company in restriction of the general right of admission shall be inoperative against the public unless assented to in writing by the Secretary of State or his accredited agents the Government of Bengal :

Provided also that nothing herein contained shall be construed to confer on the public the right to make use of the premises for individual profit or gain except with the permission of the Company first had and obtained.

9. Should any dispute or difference arise touching or concerning the subject matter of this agreement or any covenant clause or thing herein contained the same shall be referred to the said Government of Bengal and the opinion and decision of the said Government upon such dispute or difference shall be final and conclusive and binding on the parties hereto.

In witness whereof (the said Company) has caused its seal to be affixed and the Secretary of State for India in Council hath hereunto set his hand and seal the day and year first above written.

The seal of the abovenamed Company has hereto been affixed in the presence of—

No. 2328Com.—The 6th July 1916.—Whereas certain land was acquired by the Government of Bengal, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for extension of the Charanpur No. 3 assisted siding, which takes off the Sitarampore-Baraboni loop at mile 132, furlong 4, feet 170, such land being edged with pink on the plan L.A.M.A. No. 286, and whereas coal mines are situate under the said land, and whereas Messrs. Apcar and Company have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as the Poniati seam, and whereas the mines have been inspected by the officer appointed by the Government of Bengal for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Government of Bengal that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Messrs. Apcar and Company have agreed not to work and get minerals underlying the land acquired for their siding or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof nor to claim any compensation for any restricted working:

Burdwan.

Now, therefore, the Governor in Council is pleased to declare, under section 5, sub-section (2), clause (*b*) of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said Messrs. Apcar and Company in the manner and subject to the restrictions below specified, viz.:—

Galleries not exceeding 12 feet in height by 12 feet in width may be driven as shown on the red lines on the plan. Existing galleries which are not 12 feet high by 12 feet wide may be enlarged to those dimensions.

Manholes not exceeding 6 feet in height and 3 feet in width and 4 feet in depth may be made where required by any rule made under the Indian Mines Act, 1901.

Any inrush of water, quicksand, or soft material shall be reported to the Chief Inspector of Mines without delay.

These restrictions apply to the Poniati seam only and to the area edged with pink upon the plan, and Messrs. Apcar and Company shall give notice, under section 4 of the Land Acquisition (Mines) Act. 1885, of their intention to work any other seam under this area or to work coal under any other area of acquired land, and that in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L. A. M. A. No. 286 signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

NOTIFICATION.

GEOLOGY AND MINERALS.

Simla, the 1st July 1916.

No. 5072-113.—In exercise of the powers conferred by section 20 of the Indian Mines Act, 1901 (VIII of 1901), the Governor-General in Council is pleased to make the following amendments in the rules issued with Notification No. 11793-103 (Geology and Minerals), dated the 30th December 1908, namely :—

(1) *For* Rule 1 *substitute* the following, namely :—

Annual returns

Forms I, II, III, IV, V and VI, respectively, for Coal, Mica and Mines other than Coal or Mica, in the Schedule hereto annexed, shall be (1) filled up in duplicate by the agent, or if there is no agent, by the owner or manager of a Coal, Mica or other Mine, as the case may be, and one copy of each shall be forwarded to the Chief Inspector of Mines and the other to the District Magistrate not later than the 21st January(2) in each year.

(2) In rule 8 *for* the words "Form V" *substitute* the words "Form VII."

(3) *For* the Schedule appended to the rules the following shall be *substituted*, namely :—

(1) Under section 22 (2)(*b*) of the Indian Mines Act, failure to forward correct returns to the Chief Inspector of Mines not later than the 21st January in each year will render the agent, owner or manager liable, on conviction, to a penalty which may extend to Rs. 500.

(2) It will greatly facilitate the preparation of the statistics if the returns are despatched as soon as possible after the close of the year.

OPERATIONS IN THE VICINITY OF ADEN.

Aden Shaikh Sa'id

2. On the outbreak of war with Turkey, on 31st October 1914, reports indicated that the Turks were in some strength in the Shaikh Sa'id peninsula and that they were preparing to despatch troops to act against the Aden Protectorate. Consequently on November 3rd orders were issued to Brigadier General H. V. Cox, C.B., C.S.I., Commanding 29th Indian Infantry Brigade, then on the voyage to Suez, to capture Shaikh Sa'id and destroy the Turkish works, armaments and wells at that place. Three battalions from the 29th Indian Infantry Brigade and the 23rd Sikh Pioneers were detailed for this operation, in which H. M. S. "Duke of Edinburgh" co-operated.

On November 10th the transport conveying the force arrived off the coast of the Shaikh Sa'id peninsula, but adverse weather conditions prevented a landing at the point first selected. While the transports were moving to an alternative landing place, H. M. S. "Duke of Edinburgh" engaged the Turkish defences with satisfactory results.

Covered by the fire of the naval guns, a landing was effected, all opposition encountered was overcome and the enemy were driven inland, abandoning their field guns. On November 11th, Turbah Fort and other Turkish works in the vicinity were destroyed by the troops and a naval demolition party, and the force, having effected its object, re-embarked.

In forwarding his report on these operations, General Cox brings to notice the valuable assistance received by him in the disembarkation and re-embarkation of his force from Captain H. Blackett, R.N., H.M.S. "Duke of Edinburgh," and all under his command.

For some time after the operations described above, the Turks did not show signs of advancing with a view to attacking Aden : but their presence on the northern boundary of the Protectorate rendered it desirable to strengthen somewhat the garrison of Aden.

Shaikh Sa'id was again occupied by the enemy, and on the night of June 14th-15th, 1915, he endeavoured to effect a landing on the north coast of the Island of Perim. This attack was successfully driven off by the detachment, 23rd Sikh Pioneers, which formed the garrison of the island, under the command of Captain A. G. C. Hutchinson.

3. During May 1915 the enemy was reported to be becoming more active and during the latter half of June, reports indicated a possible Turkish advance on Lahaj from Mawiyah On definite information being received that such an advance was about to be made, Major-General D. G. L. Shaw, Commanding Aden Brigade, ordered the Aden Moveable Column, under Lieutenant-Colonel H. F. A. Pearson, 23rd Sikh Pioneers, to move out to Shaikh 'Othman on the evening of the 3rd July.

Lahaj.

Early the following morning the advance was continued to Lahaj, to which place the Aden Troop had previously been despatched. The intense heat, sand and shortage of water rendered the march and the subsequent operations most trying, but nevertheless the advanced guard reached their objective, and engaged the Turks just beyond Lahaj on the evening of the 4th July.

But the desertion of the hired camels and the severe climatic conditions so delayed and distressed the main body as to necessitate a withdrawal from Lahaj to Khor Maksar on July 5th.

In recording this, Major-General Shaw pays a tribute to the devotion to duty of the men of the Royal Artillery, who effected the withdrawal of their guns under the most trying conditions.

4. On the withdrawal of the Aden Moveable Column to the Khor Maksar line the Turks occupied Shaikh 'Othman, and it was decided to increase temporarily the Aden garrison.

Shaikh 'Othman

On July 20th, the 28th (Frontier Force) Brigade, with a battery Royal Horse Artillery and a detachment of Sappers and Miners, afterwards reinforced by another battery and the Aden Troop, the whole under the command of Lieutenant-Colonel A. M. S Elsmie, 56th Punjabi Rifles (Frontier Force), moved out of Aden to attack the enemy next morning. The Turks, completely surprised, were expelled from Shaikh 'Othman. Their casualties were some 50-60, in addition to several hundred prisoners, mostly Arabs.

On August 24th, a small column under the command of Major W. J. Ottley, 23rd Sikh Pioneers, engaged the garrison of the Turkish post of Fiyush and forced the enemy to retire on Lahaj.

Again on August 28th a similar successful reconnaissance was made towards Waht.

In September, reports indicated that the Turks were preparing to retire from Lahaj; a column under Lieutenant-Colonel A. M. S. Elsmie, 56th Punjabi Rifles (Frontier Force), was therefore directed to ascertain the situation at Waht. On September 25th, this column surprised the enemy, estimated at 700 Turks with 8 guns and 1,000 Arabs, and seized and occupied Waht.

Major-General Sir G. J. Younghusband, K.C.I.E., C.B., who was commanding the Aden Brigade during a portion of the period when these operations took place, brings to notice the great assistance he received on all occasions both by sea and land from Captain Hall Thompson, R.N., H.M.S. "Philomel".

5. In October, and again in December, our cavalry have had small affairs with hostile reconnoitring parties, in which the latter were driven

off with loss and in December, friendly Arabs, supported by a small infantry detachment, drove off a hostile Turkish and Arab force which was advancing on 'Imad.

Owing to the Turks despatching troops to coerce the tribes in the East of the Aden Protectorate, a demonstration in support of these tribes was made by the Aden Moveable Column on January 12th, 1916, in the direction of Subar. The column located a Turkish force near Subar and engaged it, inflicting considerable losses on it. As a result of this action the Turkish pressure on the Arab tribes is reported to have been relieved.

OPERATIONS IN THE GULF OF 'OMAN.

6. Arab unrest, which had been growing in 'Oman for some time past, culminated on the night of 10th-11th January 1915 in an attack by some 3,000 Arab rebels against our outpost line covering Masqat and Matrah. In the early morning of the 11th January, the whole available British force under the command of Colonel S. M. Edwardes, D.S.O., 102nd King Edward's Own Grenadiers, took the offensive and defeated and drove back the rebels who fled into the interior having suffered losses estimated at over 300 killed and wounded.

Musqat.

Colonel Edwardes brings to notice the very valuable assistance rendered by Lieutenant-Colonel R. A. E. Benn, Political Agent, Masqat.

7. On the night of the 16th-17th April 1915, a raid against the British post at Jask by disaffected tribesmen was successfully repulsed by the garrison under the command of Major W. H. Lane, 95th Russell's Infantry.

Jask.

8. On the night of 2nd-3rd May 1915, a body of tribesmen made a determined attack on the British post at Chahbar commanded by Lieutenant C. M. Maltby, 95th Russell's Infantry. The attack was driven off with loss.

Chahbar.

SISTAN.

9. Owing to the activities of certain Germans and other enemy subjects in Persia during the latter half of 1915, it was found necessary to strengthen our outposts on the borders of Sistan.

Sistan.

The troops under the command of Lieutenant-Colonel J. M. Wikeley, 28th Light Cavalry, have successfully carried out their orders and co-operated effectively with the Russian forces.

OPERATIONS IN BALUCHISTAN.

10. On May 28th, 1914, reports were received that the Khan of Kalat's treasury at Khozdar, 110 miles south of Kalat, had been looted. Owing to the insubordinate attitude of Sardar Khan Muhammad, premier chief of Jhalawan, who was responsible for this outrage, it was thought that the trouble might spread. Military assistance was asked for by the Agent to the Governor General and, with the approval of His Excellency the Viceroy, I accordingly authorized the despatch of a small column consisting of the 106th Hazara Pioneers and a section of Sappers and Miners, under the command* of Lieutenant-Colonel A. LeG. Jacob, C.I.E., D.S.O., 106th Hazara Pioneers, to deal with the situation.

Baluchistan

The column reached Kalat on June 4th and subsequently visited certain neighbouring places. The presence of the troops rapidly restored order and prevented any spread of the disturbance; the rebel chief was declared outlaw by a *jirgah* of Kalat sirdars and fled. The column arrived back at Quetta on July 19th.

In reporting these operations Lieutenant-General Sir M. H. S. Grover, K.C.B., K.C.I.E., Commanding 4th Quetta Division, states that the troops made some very good marches at a trying season of the year.

NORTH-WEST FRONTIER.

The Tochi Valley and Derajat.

11. During October and November 1914, various reports were received that attempts were being made to stir up fanaticism along the frontier.

The Tochi Valley.

* Owing to Lieutenant-Colonel Jacob falling sick, the command was taken over by Major G. L. Carter, 106th Hazara Pioneers.

At the end of November 1914, certain influential *mullahs* in independent territory led a Khostwal *lashkar* of some 2,000 men to the neighbourhood of Miranshah in the Tochi Valley.

On November 29th, a portion of the North Waziristan Militia under Major G. B. Scott attacked the enemy and, in a skilfully fought action, inflicted a severe defeat on the tribesmen, who fled in a demoralised condition.

Meanwhile, on the news of the gathering being received, I had arranged for the despatch of suitable reinforcements to Bannu and Thal and had directed the General Officer Commanding, Derajat Brigade, to reinforce Tank at his discretion.

Major-General H. O'Donnell, C.B., D.S.O., Commanding the Bannu Brigade, whose services I have already brought to notice, had proceeded up the Tochi Valley with the Moveable Column and had reached Miranshah on December 3rd. At the request of the Chief Commissioner, North-West Frontier Province, the column did not proceed beyond Miranshah.

The prompt and vigorous action of the North Waziristan Militia checked what might have been a serious rising.

Further reports of hostile gatherings, which threatened the Tochi posts, necessitated the retention of additional troops on this border during December and part of January, but a march carried out by the 4th Brigade along the Bannu border, south-west of Bannu, at the end of December 1914 had a quieting effect.

On January 7th, 1915, operations were carried out by the Bannu Moveable Column and a portion of the North Waziristan Militia with a view to defeating a large Khostwal *lashkar* that had crossed into British territory and attacked Spina Khaisora post.

Of the British Forces, only the North Waziristan Militia were actually engaged with the enemy, but the operations were successful, the enemy losing some 50—60 men killed and being driven in confusion over the frontier. In his report on the above action Major-General O'Donnell states that great credit is due to the North Waziristan Militia for the dash and spirit they displayed in the action against great odds and after a long march.

For his most conspicuous bravery in this action, in attempting at the cost of his life to rescue one of his men, Captain E Jotham, 51st Sikhs (Frontier Force), was awarded the Victoria Cross.

Although some fourther gatherings were reported, I was able, on January 11th, to order the withdrawal of most of the extra troops that had been sent to this portion of the frontier, leaving sufficient to ensure its safeguarding.

Early in March 1915, reports of hostile gatherings intended to attack the Tochi posts, and the alleged presence of a Mahsud *lashkar* again compelled me to order troops to concentrate on the Derajat, Bannu and Kohat borders.

On March 26th, 1915, the Bannu Moveable Column, together with a portion of the North Waziristan Militia, the whole under the command of Brigadier-General V. B. Fane, C.B., whose services I have already brought to notice, moved out from Miranshah and attacked a large Khostwal *lashkar* estimated at 7,000 to 8,000 men, which was threatening that place.

The attack was entirely successful. The enemy's losses were estimated at 200 killed and 300 wounded and they retreated rapidly across the frontier.

Our success was largely due to the skilful manner in which a column under Major G. B. Scott, Commandant, North Waziristan Militia, by means of a night march gained a position in rear of the enemy in time to combine with the frontal attack.

Brigadier-General Fane brings to notice the name of Mr. J. A. O. Fitzpatrick, I.C.S., Political Agent, Tochi, who assisted him with sound advice and good information.

The Derajat.

12. With the exception of raiding, this portion of the frontier remained quiet until October 1915, when unrest among the Mahsuds necessitated precautions being taken in the Derajat Brigade area.

A militia piquet was attacked on November 12th and on the 18th a detachment of the 45th Rattray's Sikhs on piquetting duty near Khajuri Kach in the Gomal was fired upon by some 80—100 Mahsuds. The enemy was driven off and fled and the convoy proceeded to its destination in safety.

Brigadier-General F. J. Fowler, C.B., D.S.O., Commanding the Derajat Brigade, states that the detachment behaved very well indeed and maintained the high reputation of their regiment.

The successful operations mentioned above, combined with pressure brought to bear upon the Mahsuds by the civil authorities, has prevented any tribal outbreaks on a considerable scale, but raiding has been constant, which has necessitated constant vigilance and action on the part of the troops.

Mohmands, Swat and Buner.

Mohmands, April 1915

13. Towards the end of 1914 information was received of anti-British preaching by certain *mullahs* in the Mohmand country, but, with the exception of a raid in the neighbourhood of Shabkadar in January 1915, which was easily driven off, no serious acts of aggression were committed.

On April 13th, 1915, however, reports were received that the Mohmands were collecting with a view to raiding Shabkadar. The garrison of the Fort was strengthened and the Khaibar Moveable Column, under the command of Major-General C. F. G. Young, was ordered to proceed there forthwith. At the same time I issued orders for certain troops to be held in readiness to reinforce the 1st Peshawar Division and took other measures necessary to deal with the situation.

Reconnaissances on April 16th and 17th located no hostile gatherings, but on April 18th the tribesmen attempted to advance, and were met by the troops under Major-General Young near Hafiz Kor. In the action which ensued the hostile *lashkar* rapidly increased to some 2,400 men, but its advance was repulsed with loss and it was forced back into the hills. Darkness prevented any pursuit.

Major-General C. J. Blomfield, C.B., D.S.O., Commanding 1st Peshawar Division, was present throughout the action and comments on the keenness and excellent spirit of the troops.

In reporting these operations Major-General Blomfield records his gratitude for the benefit he received from the experience, knowledge and helpfulness of the Hon'ble Sir George Roos-Keppel, K.C.S.I., K.C.I.E., Chief Commissioner, North-West Frontier Province.

Quiet on the frontier then enabled the troops to be withdrawn from the vicinity of the border, although the attitude of the *mullahs* in Mohmand country, Buner and Bajaur necessitated constant watchfulness.

Swat

14. During May the Swatis had been engaged in inter-tribal quarrels, but on June 18th the situation in Upper Swat, where the advance of a *lashkar* to the Adinzai tract threatened the safety of the Chitral road and Chakdara post, necessitated the concentration at Chakdara of the Malakand Moveable Column, which was under the command of Brigadier-General W. G. L. Beynon, C.B., D.S.O.

The rapid concentration of the troops had an excellent effect and prevented any outbreak.

As quiet reigned in July, during which month the *Ramzan* fast was observed, I arranged for the Chitral reliefs to be carried out. These were successfully completed on August 4th, but in view of a certain amount of unrest which was reported from Buner, I ordered the returning column to remain at Chakdara with the Malakand Moveable Column, where its presence was of great value during subsequent operations.

Buner.

15. Gatherings in Buner during July had been reported, but the tribesmen remained quiet until August 15th, when information was received that a certain *mullah*, known as the Haji Sahib of Turanzai, was in the Ambela Pass with several thousand men, preparing to invade British territory. His gathering included a number of the Hindustani Fanatics, a sect inhabiting the Buner border country.

A small column from Mardan was at once moved to Rustam on the Buner border.

On August 17th, a hostile gathering of some three to four thousand tribesmen debouched from the Ambela Pass and moved towards Rustam, while a further force was reported to be in the neighbouring hills to the north-west.

Brigadier-General S. F. Crocker at once attacked the Ambela Pass gathering and routed it with loss. The 91st Battery, Royal Field Artillery, which came up during the course of the action after a forced march, did great execution.

Major-General F. Campbell, C.B., D.S.O., Commanding, 1st Peshawar Division, now concentrated a Brigade, under the Command of Brigadier-General N. G. Woodyatt, at Rustam.

Between August 21st and 31st this brigade took the offensive against the tribesmen whenever they appeared and during this period Brigadier-General Woodyatt was engaged with the enemy on three occasions, on all of which he was successful in driving them back into the hills with loss and destroying the villages in which they had harboured

16. While these operations were in progress, information was received that on August 20th a tribal gathering of some fifteen to twenty thousand men under the Sandaki *mullah* was advancing down the left bank of the Swat river to invade Lower Swat. To meet this, Brigadier-General Beynon, Commanding the Malakand Moveable Column at Chakdara, moved his column to the left bank of the river and occupied the Landakai ridge, which was well situated to arrest the hostile advance

Swat.

Our outposts were heavily attacked on the night of 28th-29th August, but the enemy were driven off with loss. The next morning the column moved out and destroyed a fort and shelled several villages, which were occupied by the enemy. As a result of these operations the tribesmen dispersed, and made no further attempts at offensive action for some time.

17. Meanwhile, during August, there had been some talk of *jihad* on the Mohmand border, where various religious leaders had been active, and large tribal gatherings led by these fanatical *mullahs* were reported to have collected on August 28th.

Mohmands, September and October 1915

Two brigades under Brigadier-General L. C. Dunsterville and Brigadier-General C. Christian, with a mounted column under Brigadier-General S. F. Crocker and Divisional Artillery, were therefore ordered up to the neighbourhood of Shabkadar between August 30th and September 2nd, while a Mobile Column under Lieutenant-Colonel A. B. Longden, 38th Dogras, was formed at Mardan and subsequently moved to Abazai.

At the same time I issued orders for reinforcements to be ready for despatch to this border at short notice, if required.

On September 3rd large bodies of tribesmen were observed moving in the foothills and preparing *sangars* in the vicinity of Hafiz Kor, but no steps were taken to prevent them collecting as it was desired to entice them out into the plain. By the evening of September 4th it was calculated that the hostile force had reached its maximum strength (it was then about ten thousand) and Major-General F. Campbell, C.B., D.S.O., Commanding 1st Peshawar Division, decided to attack.

The action was fought on the following day; the enemy resisted stoutly and displayed great bravery, tenaciously holding on to their *sangars*, but were defeated with heavy loss and driven from their position. An opportunity occurred for cavalry action and a successful charge was made against the tribesmen.

Between September 20th and 24th further hostile gatherings were reported on this border and the *mullahs* made great efforts to stir up their followers to invade British territory. No *lashkar*, however, crossed the border until early in October, when *lashkars*, numbering some 9,000 men, again collected in the neighbourhood of Hafiz Kor. Major-General Campbell, who had strengthened his force by another brigade under Brigadier-General N. G. Woodyatt, took the offensive against this gathering on October 8th from Shabkadar.

The enemy offered strong opposition, especially on our right flank, where the Mobile Column from Abazai was co-operating, but were defeated and forced back into the hills. A detachment of the Khaibar Rifles from Fort Michni took part in the fight.

In this operation armoured cars were used for the first time in action in India and proved of great value.

These successful operations brought the unrest among the Mohmands to an end.

Swat, October 1915.

18. Although further gatherings were reported in Swat, there was no actual outbreak until October, when the tribesmen again became active. Their *lashkars* rapidly increased, and on October 26th some 3,000 Bajauris advanced towards Chakdara, with a view to arousing the tribes of Dir and Swat to attack the fort at that place.

Lieutenant-Colonel C. C. Luard, 1st Battalion, Durham Light Infantry, temporarily commanding the Malakand Moveable Column, at once decided to attack; and moving out from Chakdara Camp on October 27th, he engaged, routed, and pursued the enemy, who were severely handled and lost a standard. As a result of this action there has been no further gathering on this border.

General.

19. In reporting these operations on the Swat, Buner, and Mohmand borders, Major-General Campbell states that he cannot speak too highly of the endurance and conduct of the troops, both British and Indian. The temperature, which is always extremely trying in the Peshawar Valley during the hot weather, was nearly ten degrees above normal; but, in spite of these severe climatic conditions, the troops showed a fine spirit and great cheerfulness and were eager and ready at all times to march and fight. The working of the administrative services was also entirely satisfactory, in spite of the many difficulties that had to be contended with.

Mechanical transport was used for the first time on the Indian frontier and proved to be invaluable; as, without it, the maintenance of the forces in the field could not have been effectively accomplished.

Major-General Campbell cordially acknowledges the ready assistance afforded to him by the Hon'ble Sir George Roos-Keppel, K.C.S.I., K.C.I.E., Chief Commissioner, North-West Frontier Province, who kept him informed, frequently by personal interview, of the changes in the political situation and other matters, enabling him to make the necessary dispositions in time to meet each situation as it arose. Sir George Roos-Keppel was present throughout the action at Hafiz Kor on September 5th.

General Campbell also gratefully acknowledges the valuable assistance given to military commanders throughout the operations by the following Political Officers in their respective areas:—

H. N. Bolton, Esq., I.C.S., Deputy Commissioner, Peshawar.

Major W. J. Keen, I.A., Political Agent, Dir, Swat and Chitral.

Captain J. A. Brett, I.A., Assistant Commissioner, Mardan.

Captain R. E. H. Griffith, I.A., Assistant Political Agent, Mohmand.

In conclusion, General Campbell records his thanks to R. C. Boyle, Esq., Commandant, Frontier Constabulary, and E C. Handyside, Esq., District Officer, Frontier Constabulary, who, with their officers and corps, at all times closely and usefully associated themselves with the military throughout the operations.

I wish to bring Major-General Campbell's own services to notice.

Black Mountain.

Black Mountain.

20. In January 1915, unrest among the Chagarzais on the British border at the Black Mountain necessitated the temporary reinforcement of Oghi post by regular troops.

Quiet prevailed until August, when emissaries from Buner endeavoured to stir up the Black Mountain tribes in the cause of *jihad*.

As a precautionary measure a small column, consisting mainly of a detachment of the troops, whose services had been lent to the Government of India by the Nepal Durbar, was ordered to Oghi and the neighbouring posts, where they remained throughout September. Conditions became normal again in October.

BURMA.

Operations in the Kachin Hills, January and February 1915.

Kachins.

21. Unrest, which had been brewing for some time among the Kachins came to a head in December 1914 and January 1915, when punitive operations were undertaken.

The columns originally consisted of Burma Military Police, but as the disturbance appeared more general and likely to spread, regular troops were ordered up to Myitkyina

Lieutenant-Colonel C. T. Swan, 64th Pioneers, was placed in command of all operations north of Myitkyina, and Lieutenant-Colonel A. W. H. Lee, 1st-7th Gurkha Rifles, Burma Military Police, was detailed to command all troops and control all operations in the Kamaing and Mogaung Jurisdictions. In February, Major-General H. Raitt, C.B., Commanding Burma Division, proceeded to Myitkyina to direct operations.

In the Kamaing and Mogaung Jurisdictions, and the adjoining unadministered territory, six columns operated during January and February. The sight opposition encountered was in all cases successfully overcome, the rebel stockades captured, and the implicated villages destroyed.

In the country north of Myitkyina two columns were employed during the latter end of January and throughout February, and these were equally successful in punishing the recalcitrant tribesmen.

The country in which these operations were carried out is of a particularly dense and difficult nature. Major-General Raitt especially commends a night march carried out by a detachment of the 64th Pioneers over intricate country, followed by a successful attack on a rebel village.

In reporting these operations, Major-General Raitt brings to notice Mr. W. Scott, Assistant Superintendent, Kachin Hills, and Major W. B. T. Abbey, I.A., whose local knowledge was of the greatest value; and adds that his special thanks are due to Lieutenant-Colonel S. L. Aplin, I.A., Commissioner, Mandalay Division, whose unfailing tact secured the requisite co-operation between the civil and military officers employed.

MADRAS.

Madras

22. The German cruiser "Emden" appeared in the Bay of Bengal in September 1914, and on the night of 22nd-23rd September, this vessel opened fire on the port of Madras. The troops in garrison promptly turned out and engaged the "Emden," the guns causing her to cease fire at once and to sheer off. She made no further attempts on the coasts of India.

In reporting this incident, the Officer Commanding Madras, states that he was afforded great assistance by the Madras Artillery Volunteers, under the command of Major H. H. G. Mitchell. There were also in Madras the Madras Volunteer Guards, commanded by Lieutenant-Colonel F. D. Bird, I.S.O., V.D., the Madras and Southern Mahratta Railway Rifles, under the command of Lieutenant-Colonel P. G. Porteous, V.D., and "G" Troop, Southern Provinces Mounted Rifles, commanded by Lieutenant W. J. U. Turnbull. These units, together with His Excellency the Governor's Body-Guard, are reported to have been most prompt in getting to their posts.

He also comments on the good work of Commander W. B. Huddlestone, R.I.M.

PREVENTIVE MEASURES.

23. In August 1915, owing to the activity of Germans in the Far East, certain preventive measures were instituted to safeguard the Indian coasts and to prevent the smuggling into the country of arms and ammunition. These measures were arranged by the General Officers Commanding Karachi Presidency and Rangoon Brigades; His Excellency the Naval Commander-in-Chief, China Station, subsequently taking over control of those in the Bay of Bengal.

Navy.

24. I desire to take this opportunity of placing on record my sense of obligation to His Excellency Vice-Admiral Sir R. H. Peirse, K.C.B., M.V.O., Naval Commander-in-Chief, East Indies Station, as also to His Excellency Vice-Admiral Sir T. H. M. Jerram, K.C.B., and Vice-Admiral W. L. Grant, C.B., Naval Commanders-in Chief, China Station.

To these officers and to all under their command I am greatly indebted for the very cordial co-operation that I have at all times received from them.

Local Governments and Civil Departments

25. Throughout the period dealt with in this despatch all Local Governments have met my requests promptly and in such a manner as to facilitate greatly the maintenance of the forces in the field. I have also received the greatest assistance

from all departments of the Government of India, and I am especially indebted to the officers of the Foreign and Political, Financial and Home Departments, who have spared no pains to give me all the help in their power.

In the many and varied situations, with which I have been called upon to deal, the Marine, Railway, Police, Telegraph, Postal and Port Trust authorities, also Shipping Companies and Chambers of Commerce, have afforded me and those under my command their whole-hearted assistance and have greatly contributed to the bringing to a successful conclusion the various operations.

The Railway Board, and under them the North-Western Railway, carried out the troop movements necessary for the frontier operations efficiently and quickly.

To the Survey of India my thanks are especially due for the never failing supply of maps and topographical information.

Volunteers

26. The Volunteer forces in this country have cordially responded to all calls upon them and commercial firms have patriotically assisted in releasing many of their men for employment in the Indian Army Reserve of Officers. To all the above I desire to express my grateful thanks for the assistance rendered.

Recommendations

27. In conclusion, I attach a list of officers and men, whose names I desire to bring to notice for gallantry or good service in connection with the operations dealt with above.

I have the honour to be,

Sir,

Your obedient servant,

(Sd.) BEAUCHAMP DUFF, *General*,

Commander-in-Chief, India.

B. HOLLOWAY, *Major-General,*
Secy. to the Govt. of India.

The following notification, issued by the Government of India in the Home Department, published in the *Gazette of India*, dated the 8th July 1916, is republished for general information.

J. H. KERR,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

JUDICIAL.

Simla, the 6th July 1916.

No. 627.—Whereas it is expedient to prescribe conditions subject to which motor vehicles from Native States may be brought temporarily into British India, and there used and driven:

Now, therefore, in exercise of the power conferred by section 14 of the Indian Motor Vehicles Act, 1914 (VIII of 1914), the Governor-General in Council is pleased to make the following rules:—

1. These rules may be called the Motor Vehicles (Native States) Rules, 1916.

2. In these rules "Magistrate" means the District Magistrate or in a Presidency Town, or Rangoon, the Commissioner of Police.

3. No motor vehicle owned by a person ordinarily resident in a Native State, which is not duly registered under the said Act, shall be used or driven by any person in British India unless such motor vehicle bears such mark of identification as may be prescribed by the Political Officer for the territory in which the owner thereof ordinarily resides.

4. (1) Where any such motor vehicle is kept in British India for a period exceeding ten days at any one time, no person shall use or drive the same unless authorised to do so under a permit issued in this behalf by the Magistrate.

(2) The owner or person in charge may apply to the Magistrate for a permit under these rules and shall furnish him with a description of the motor vehicle and such other particulars as may be required by the said Magistrate.

(3) The Magistrate may thereupon issue to the applicant, in such form and for such period as the said Magistrate may deem expedient, a permit to use the said vehicle in British India.

(4) Any Magistrate empowered under these rules may, from time to time, extend the period of any such permit, or, for reasons to be recorded, cancel the same.

5. Nothing in these rules shall affect any of the provisions of the Motor Vehicles International Circulation Rules, 1915, or apply to any motor vehicle covered by an International Travelling Pass.

6. Nothing in these rules shall apply to Rulers of Native States or to motor vehicles owned by them.

S. R. HIGNELL,

Offg. Secy. to the Govt. of India.

The following notifications, issued by the Government of India in the Department of Commerce and Industry, published in the *Gazette of India*, dated the 8th July 1916, are republished for general information.

Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

Dinajpur.

No. 1841M.—The 10th July 1916.—In exercise of the powers conferred on the Local Government by clause (3), section 53 of the Calcutta Hackney Carriage Act, 1891 (Bengal Act II of 1891), the Governor in Council is pleased to confirm the following by-laws which have been framed by the Commissioners of the Dinajpur Municipality under clause (1) of the said section :—

BY-LAWS FRAMED BY THE COMMISSIONERS OF THE DINAJPUR MUNICIPALITY UNDER SECTION 53 OF THE CALCUTTA HACKNEY CARRIAGE ACT, II OF 1891.

2ND CLASS CARRIAGE.

1. No carriage shall receive a second class license unless it is in good condition and has sufficient accommodation for 4 persons, the minimum inside measurement of length and breadth being 4′ 10″×2′ 10″, and if it is of the kind known as " Palki-gharry " or " Brownbery " it shall conform to the following dimensions :—

Breadth of carriage inside	...	...	36 inches.
Depth of seat ...	...	...	18 „
Width of well of carriage between cushions		...	24 „
Height of roof from seat	...	...	40 „

2. The springs, axles and wheels must be sound, and the carriage must have a good pair of lamps, with the number of the carriage painted thereon.

3. The harness must be of strong leather, and no string fastening will be permitted.

4. All carriages taking a second class license shall be drawn either by a horse not under 14 hands or a pair of horses not under 13 hands.

5. All carriages taking a second class license must be of a dark green colour, with the name of the owner and the figure 2 in Roman numerals painted on both sides.

6. No carriage shall have a tin roof.

3RD CLASS CARRIAGE.

7. No carriage shall receive a third class license unless it has strong wheels, axles and springs. It must have also a pair of lamps, with the number of the carriage painted thereon, provided that a carriage of the kind known as "Tum-tum" or dog-cart containing two seats may receive a third class license if it otherwise satisfies the conditions laid down in the rule.

8. The harness and straps must be of strong leather. Ropes and iron chains will be permitted if they are covered with leather.

9. All third class carriages must be of yellow colour, with the owner's name and the Roman numeral 3 painted on the sides.

GENERAL.

10. No sickly, blind, lame or otherwise incapacitated horse or pony, and no horse or pony with sores or wounds, shall be allowed to work or draw vehicles.

11. All carriages shall be clean and either upholstered in leather or covered with removable washing materials, and second class carriages must be provided with leather slings for hand rests.

12. Every place where any hackney carriage, horse or pony is kept shall be open to inspection by the Municipal Commissioners and the Registering Officer or any other officers authorised by the Municipal Commissioners in their behalf at all hours of the day from sunrise to sunset.

13. It shall be obligatory on the owner of any horse or carriage licensed under the Act to produce before the Registering Officer within 24 hours any horse or vehicle required for inspection.

14. A list of fares shall be prepared and printed under the authority of the Municipal Commissioners showing distances and fares from various centres. A copy of this list shall be given to the owner of a hackney carriage with license and shall be hung up inside the carriage for the inspection of the passengers.

DRIVER'S QUALIFICATIONS.

15. Every person applying for a driver's license must be acquainted with the principal places and streets and must have a knowledge of the rates and fares prescribed by the Municipal Commissioners.

16. No license shall be issued to any person as a driver unless he has been examined by the Registering Officer as to his capacity and fitness for such employment.

17. Every driver shall be decently clad while acting as a driver.

11. This cancels Eastern Bengal and Assam Government Notification No. 5168M., dated the 2nd August 1911.

No. 1843M.—The 10th July 1916.—In exercise of the power conferred by section 221 of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), and upon the application of the Commissioners of the Bankura Municipality, in the district of Bankura, made in pursuance of a resolution passed at a meeting specially convened to consider the question, the Governor in Council is pleased to extend all the provisions of Part VII of that Act to the said Municipality.

Bankura.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Assam-Bengal Railway, in the district of Tippera, will be put up to sale at 1 o'clock on 20th July of the year 1916, corresponding with the 4th Sraban 1323 Fusli, at Kamalasagar Railway station.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Commissioner confirming the sale.

LIST OF BUSINESS—ITEM No. 2.

The President then addressed the Council.

His Excellency the President said :—

"I am glad to welcome you here. I congratulate each and all of you on having attained, in some cases for the first time, in others once more, to a position which will afford you frequent opportunities of doing good work for Bengal; and I congratulate myself, as well as you, because I believe you will make good use of those opportunities. I know from past experience how willing many of you have shown yourselves to do anything which you think will further the objects which the Legislative Council is meant to promote, and I feel sure those of you who are new to the Council will prove yourselves no less willing.

The making of long speeches, by the President at least, is not one of those objects, so I shall not say much. I believe I am expected to say something about the modification in the membership of this Council, as compared with the last, which has been brought about by the way in which I have exercised my power of nomination. I have only asked three instead of five Secretaries to Government to serve on this Council and I have not nominated the Vice-Chairman of the Port Commissioners. I quite appreciate the good work which all the Secretaries and the Vice-Chairman did in the last Council. I know their absence may sometimes, perhaps often, be of inconvenience to Government. I know how valuable to Government even a single safe vote in a division may be and I know that my action has made it more easy for the non-officials to defeat Government whenever they wish to do so. I know all these things, and I know too that it will not be easy for my successor, if he should wish it, to raise the number of officials to what it was. But I made the modification deliberately. It is true that legislation will always affect the officials. It is true in any country, and especially in this country, that Government officials, if they are worth their salt, must often have a correcter view than almost any other class as to the probable effect of legislation—that I grant—but a Governor, I am glad to think, can at all times have frank advice and criticism from his officers; what he can't always get so easily is frank advice and criticism from those who look at things from an unofficial point of view. People tell me we get criticism from the public press. We do, and I am thankful for it. We cannot have too much of it—if only we have time to read it; and if our critics take the trouble to be accurate as to facts, and, what is perhaps even more important, not to suppress any facts, they can help Government very much indeed. But newspaper editors and Government officials have this in common: they must both, if they are to perform their function well, be to a great extent collectors of voices, they must think of those whom they serve, and they must therefore often—though from different points of view—underrate the importance of some point to an individual or to a group of individuals; for this reason, it seems to me, a Governor will always wish to have on his Council as many gentlemen as possible who, he believes, will not shrink from pointing out where the executive may be liable to make mistakes; and if he can, in choosing those gentlemen choose men who, from personal experience or interest, are not likely to overlook matters to which Government may, however unintentionally, not give due weight, a Governor will be wise to choose them.

As to future legislation I must tell you frankly that I fear that there can be little in which I shall have to ask you to help me. I hope my successor will be able to get your help in carrying out important work in that line. But in view of the policy which has been deliberately laid down for India of not dealing with controversial matters, while the war goes on, we cannot take up the matters which you probably are most interested in. As many of you know, I was very anxious to see an Act passed, while I was here, to improve the Calcutta Corporation. I had hoped that that would have kept you pretty fully occupied during the next nine months. But such a measure

must be controversial. We may possibly be able to introduce a Bill—perhaps even we may be able to refer it to a Select Committee, but there is no chance of my seeing it passed. One Bill you may rely on my doing my best to bring in and pass, though it is not ready yet—a Bill to give the control of their own small local affairs to people resident in the country districts, in a way which I believe will promote a feeling of common responsibility. Those of you who have taken the trouble to read (and I hope many of you have done so) the report of the Bengal District Administration Committee will know the lines on which I believe very real progress towards self-government may be made. I hope a Bill may soon be ready and I hope it may turn out to be sufficiently acceptable to avoid the necessity of our putting it on one side as too controversial. Of course that is not for me to determine.. Everyone is entitled to his own opinion, but I shall be very sorry if we cannot take a step which it seems to me will do a very great deal to help Bengal to help itself.

Now I am all but done ; but unfortunately before I sit down I must refer to a matter about which I have more than once spoken in this room. The murder committed a few days ago in Calcutta has given one more proof of the courage and devotion to duty of our Bengali Police officers ; but it shows us that Government have not yet succeeded in overcoming the organization which many of our people were quite naturally and quite properly so unwilling to believe existed, in spite of evidence, and which is doing so much harm to Bengal.

Last April I told you briefly what Government were doing and of the steps which we were taking—steps which we were only able to take because of the exceptional and temporary legislation which the Government of India have passed. Fifty-one cases were then pending ; there were 51 men about whom Government had not at that moment received full enough information to determine how to deal with them : two of those men were released, the other 49 were compulsorily domiciled. Up to this moment the total number of men, whom Government have compulsorily domiciled because we felt that it was our duty to the people under our charge not to leave those men, in view of the evidence against them, to go and come as they like, is 190. Those 190 men are actually in the places assigned to them ; there are orders out against 12 more men who are absconding ; and the fact that they are absconding does not lead me to think that in issuing our orders we have been unduly rigorous.

In addition to this, action has, up to the present time, been taken against 21 other men under Regulation 3 of 1818.

On the 4th April last, I told my Council that 4 persons had been expelled from the Province. Since then 3 others have been expelled.

I can assure you that Government believe they have been fully justified in all they have done. We may of course have made mistakes in some cases, but we have interfered with the liberty of no one against whom we did not feel that there is evidence—though we admit it is not evidence which ought to lead to conviction in an ordinary court of law.

One other point I must impress on you, for a wrong impression prevails about it ; it is not the case that we have dealt with these men only because we believe they have all been concerned in a German conspiracy. In many cases—in the vast majority of cases of those who are compulsorily domiciled—we do not think these men were plotting to help Germany. We have acted as the Defence of India Act empowered us to act, and we have used the power which the Government of India when passing that Act expressly said was needed in Bengal.

We shall go on using that power as long as we believe it is necessary to use it. This last week has clearly shown that the time has not yet come when we can say it is no longer necessary. Other and greater powers might have been more effective, but we have to use the powers we have got, and we shall continue to use them—not harshly I hope, but justly. I honestly

believe that those powers have been of real use to us. It is my firm conviction that if we had not had them, Bengal would just now have been in a far worse plight than she is.

But we must not forget that the powers which we can exercise now are only temporary, and we must remember that the disaffection which led to crime existed before the war, and may continue to exist long after the war ends. Government must face facts. Government must aim at removing, where they can, the disaffection ; that is the most important thing, and it is in that that I particularly hope my successor, if not I myself, will get very great help from you, the Members of Council ; but Government must aim too at putting down with a firm hand, if need be, the crime, one of whose worst features is that it makes it harder for us to do some things which I hope may yet go far to remove the disaffection.

How far the powers, permanent or temporary, which we have, meet our needs we are gradually learning. It is one of the plainest duties of Government to consider this, and I can promise you that if Government believe they ought to have greater powers than they have, they will try to get them, and I can promise you that meantime we shall go on making the best use we can of the powers we have."

LIST OF BUSINESS—ITEM No. 3.

THE CALCUTTA HACKNEY-CARRIAGE (AMENDMENT) BILL, 1916.

The Hon'ble Nawab Sir Syed Shams-ul-Huda moved for leave to introduce a Bill to amend the Calcutta Hackney-carriage Act, 1891.

He said :—

"My Lord, the present Act is Bengal Act II of 1891. It originally extended to Calcutta but has been extended under section 1, sub-section (3), to almost every town in Bengal where carriages and palanquins are in general use. Twenty-five years' experience of the working of the Act has brought out many defects which the present Bill is intended to remove. I shall only mention three of the more important provisions here. The first that came to our notice is that one of the defects of the existing Act is its inelasticity. Under section 5, the classes of hackney-carriages are rigidly fixed and so also the fares under section 31. The present Bill omits both these provisions from the Act and allows them to be regulated by by-laws framed under section 53. The second matter is one of considerable importance. Section 10 of the Act provides for annual registration. Experience has shown that after registration carriages are allowed to fall into a state of disrepair, notwithstanding the provisions of section 11 giving power to the Registering Officer to suspend or cancel licenses. To enable this power to be effectually exercised, the Bill provides for compulsory production of carriages with horses and harness used therewith within a week after expiration of six months from the date of annual registration.

Under the present Act, in the absence of any means of identifying horses, the same animals are brought up over and over again harnessed to different carriages. When the registration is over, other animals are substituted which would have probably not been passed by the Registering Officer if they had been produced before him. To prevent this a new chapter 11A has been introduced by clause 8 of the Bill in order to facilitate identification of horses. The means of identification will be prescribed by by-laws.

Besides the above, the following important provisions have been made in the Act. Provision has been made for effective check on carriages plying for hire after the registration of such carriages or the licenses of the drivers have been suspended under section 11.

Owners of carriages who allow a driver who has not obtained a license or whose license has expired or has been cancelled or suspended to drive a carriage in violation of such an order have been penalised.

To prevent a driver's license being granted to unsuitable persons, the age-limit has been raised from 16 to 18, competency to drive the carriage, a knowledge of the locality, sober habits and want of previous conviction for offence, which in the opinion of the Registering Officer is a disqualification, have been insisted upon as necessary conditions for the grant of a driver's license.

When a driver is convicted, warned or reprimanded for an offence under the Hackney-carriage Act, it has been made compulsory on Magistrates to endorse such convictions, warnings and reprimands on the license. It is optional under the existing law.

Power has been given to frame by-laws under section 53 preventing hackney-carriages and palanquins being used for purposes of advertisement.

Certain improvements in case of palanquins have been aimed at."

The motion was put and agreed to.

LIST OF BUISNESS ITEM No. 4.

The Hon'ble Nawab Sir Syed Shams-ul-Huda moved that the said Bill be referred to a Select Committee consisting of the Hon'ble Mr. Payne, the Hon'ble Mr. Panton, the Hon'ble Rai Priya Nath Mukharji Bahadur, the Hon'ble Rai Debendra Chandra Ghosh Bahadur, the Hon'ble Mr. Bray, the Hon'ble Mr. Z. R. Zahid Suhrawardy, the Hon'ble Babu Mahendra Nath Ray and the Mover, with instructions to submit their report in time for its presentation in Council at the meeting to be held in August next.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

"My Lord, I wish to make a few observations with regard to the principles and the general provisions of the Bill which has just been introduced and for which a motion has just been made to refer it to a Select Committee. With a view to improve the hackney-carriages of this city and to secure a more effective control over them, the Bill provides that there should be every six months an inspection by the Registering Officer of every hackney-carriage and its horses and harness. A new chapter (IIA) has been added which provides for the identification of the horses and harness which have been approved for every hackney-carriage at its registration. The provision of the Bill for the identification of the horses, if the process of marking could be made without causing much bodily pain to the animals, is no doubt likely to prove a useful and effective safeguard against deceptions and malpractices. But, my Lord, the provision made in the Bill for levying a fee for the identification of each horse, not only at the first instance but also at every subsequent renewal of such mark when it may become indistinct or obliterated seems to me to be rather hard and inequitable. When a carriage is registered, a tax is paid for its registration ; this tax evidently includes the carriage, the horses, the harness and everything. I do not understand on what principle this additional tax is to be imposed upon a horse simply for its receiving a hall-mark of the Municipal Corporation. A carriage cannot be registered without a horse, and I do not see how a horse can come in for further consideration for its decoration with a cross or a star.

Then, my Lord, it seems to me that the provision for imposing a further additional tax upon the horse every time the mark becomes indistinct or obliterated seems to be extremely hard. The badge may be obliterated through no fault either of the horse or of the owner of the horse. It may be due to some defect in the process of marking ; it may be due to the inefficiency of the men who may put the mark, or it may be due to some natural causes, over which none of us, not even the Hon'ble Member in charge of the Bill, may have any control. Then, my Lord, it seems to me that if we are to impose an additional burden upon the owners of hackney-carriages they will not be slow to use it as a pretext for raising their charges against the public for their services. Upon these grounds, I object to the imposition of the tax proposed in this Bill. Then, my Lord, there is the question of a longstanding public grievance which I expected this Bill to

meet. It is widely known that the existing rates of fares prescribed for hackney-carriages, both by distance as well as by time, are practically a dead letter, honoured more in their breach than in their observance. A third-class carriage is never available either at the distance rate or at the hour rate, while a second-class carriage will seldom go at either of these rates beyond St. Paul's Cathedral. The fact that exorbitant charges are often made from passengers travelling beyond the limits of the old town of Job Charnock is a great hardship which calls for a remedy. My Lord, the Jehus positively refuse to recognise the definition of Calcutta, as given in the successive Municipal enactments and notifications, as not having received their sanction. I submit that it is high time that measures were taken strictly to enforce the penalties on the subject and remove these public grievances.

My Lord, the carts represent the heaviest traffic of this city, and they are left to be dealt with only by two sections of the Municipal Act which simply provide for their registration and the levying of a fee for their registration. If the palanquins can be brought under the operation of the Hackney-carriage Act, I do not see why the carts should be left out of it. If the horses of hackney-carriages are to be marked for their identification, I do not understand why the bullocks and buffaloes of carts should be exempted from the operation. I do not think that it is all intended to mark the same distinction between them as is sometimes observed between the official and non-official members of your Excellency's Legislative Council. I would like to see some improvement effected in the construction of these primitive vehicles with their tails, describing semicircles of nearly 20 feet in diameter when rounding a corner of a street and causing obstruction to other traffic which may sometimes require ten to fifteen minutes to clear. I think, my Lord, that the present opportunity should be availed of to effect some improvement in the cart traffic of Calcutta and remove the public inconveniences occasioned by them under the present system."

The Hon'ble NAWAB SIR SYED SHAMS-UL-HUDA said :—

"My Lord, I have heard with great interest all that has been said by my friend the Hon'ble Babu Ambika Charan Mazumdar in discussing the general principles of the Bill. He has made no proposal that the Bill should not be referred to a Select Committee. He has only taken this opportunity to discuss some of the provisions of the Bill and I can only say that all these can be considered in the Select Committee and afterwards when the Bill is brought up for discussion in the Council before it is finally passed. I, therefore, do not think it necessary to enter into the merits of the questions raised. My friend has practically supported the general provisions of the Bill but considers that though the provisions for identification are useful the scale of fee is somewhat unreasonable. These are questions which as I have said may well be considered either in the Select Committee or in the Council afterwards. As regards the rates, I think the Bill has really effected an improvement. The rates are now fixed at one uniform scale. They cannot be increased or decreased. We have taken the rates out of the Act and allowed them to be provided by by-laws. If at any time it is necessary to raise or to reduce the rates, that can now be done under by-laws to be framed under section 53 of the Act. I can assure my Hon'ble friend that all these matters will be dealt with in the Select Committee and that all that he has said will receive due consideration there."

The motion was put and agreed to.

The Council was adjourned to Monday, the 7th August, 1916, at 11 A.M., at new Government House, Dacca.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Simla, the 27th June, 1916.

AN

ORDINANCE

TO

Prohibit or control trading by hostile foreigners and hostile firms and for other purposes.

WHEREAS an emergency has arisen which makes it necessary to take powers further to prohibit or control trading by hostile foreigners and hostile firms and for other purposes;

Now, therefore, in exercise of the power conferred by section 72 of the Government of India Act, 1915, the Governor General is pleased to make and promulgate the following Ordinance:—

5 & 6 Geo. V, Ch. 61.

ORDINANCE No. V OF 1916.

1. This Ordinance may be called the Enemy Trading Ordinance, 1916.

Short title.

Definitions.

2. In this Ordinance—

"Company" means any company, firm or association, or body of individuals whether incorporated or not;

"Hostile foreigner" means a subject of a State for the time being at war with His Majesty, and includes any company constituted according to the laws of such State, and the ruler or government of any such State; and

"Hostile firm" means any of the following, namely:—

(*a*) any hostile foreigner who has, or at any date subsequent to the 3rd day of August, 1914, had an office, agency or place of business in British India;

(*b*) any company of which any member or officer is a hostile foreigner, or of which a hostile foreigner was a member or officer on the 3rd day of August, 1914, and which has or has had since that date an office, agency or place of business in British India;

(*c*) any person, or company whose or which has, at any time since the 3rd day of August, 1914, carried on business in British India, and whose business is, or was, in the opinion of the Governor General in Council, either by reason of its nature or of the persons who carry or carried it on, or for any other cause whatsoever, carried on either under the control whether direct or indirect of any hostile foreigner, or carried on wholly or mainly for the benefit of hostile foreigners generally, or any class of hostile foreigners or any individual hostile foreigner.

Power to appoint Inspectors.

3. (*1*) The Governor General in Council may, by general or special order, appoint Inspectors for the purpose of determining whether any business is or was carried on by a hostile firm within the meaning of this Ordinance.

(2) The Inspector may summon before him any person whom he believes to be capable of giving information concerning the trade, dealings, affairs or property of such business, and of the antecedents and nationality of those by whom it is or was carried on or controlled.

(3) The Inspector may examine such person on oath concerning the same, and may reduce his answers to writing, and require him to sign them.

(4) The Inspector may require such person to produce any documents in his custody or power in any way relating to such business or to the persons by whom it is or was carried on or controlled.

(5) If any person so summoned refuses to come before the Inspector at the time appointed, the Inspector may cause him to be apprehended and brought before him for examination.

(6) If any person refuses to answer any question or to produce any document, which under this section the Inspector is empowered to ask or require production of, such person shall be punishable with imprisonment which may extend to six months, or with fine which may extend to one thousand rupees, or with both.

Power to prohibit or restrict, or wind up hostile firms.

4. (1) The Governor General in Council may make an order either—

(a) prohibiting any hostile firm from carrying on business except for the purposes and subject to the conditions, if any, specified in the order; or

(b) requiring the business of such firm to be wound up; and may in any case where he has made an order prohibiting or limiting the carrying on of the business, at any time, if he thinks it expedient, substitute for that order an order requiring the business to be wound up.

(2) Every order made under sub-section (1) shall be published by notification in the Gazette of India.

(3) If any person contravenes the provisions of any order made under this section, he shall be punishable with imprisonment which may extend to one year, and shall also be liable to fine.

(4) An order made under this section shall continue in force, notwithstanding the termination of the present war, until determined by order of the Governor General in Council.

Winding up order.

5. (1) Where the Governor General in Council makes an order under this Ordinance requiring a business to be wound up, the order shall, on notification in the Gazette of India, have effect as if it were a winding up order made by a Court under the Indian Companies Act, 1913, and the provisions of that Act relating to winding up by the Court and the rules made thereunder subject to such exceptions, restrictions, extensions, modifications and adaptations as the Governor General in Council may, by general or special order, prescribe, or such other rules as may be prescribed by him, shall apply to the winding up of the business:

VII of 1913.

Provided that, for the purposes of any winding up order under this Ordinance, all powers exercisable by the Court under the said Act shall be exercisable by the Governor General in Council or by such other authority as he may appoint either generally or specially in that behalf:

Provided also that the assets of the business and any money resulting from the realization of any part thereof shall be dealt with in accordance with such rules as the Governor General in Council may make in that behalf.

(2) Where an order has been made under this Ordinance directing the winding up of the business of a hostile firm, the hostile firm shall not, nor shall any other person, commence or initiate, whilst that order remains in force, any other proceedings of a like nature or calculated in any way to interfere with the carrying out of such order.

Contracts or transfers against the public interest.

6. Where it appears to the Governor General in Council that a contract entered into before or during the war, or a transfer of property, moveable or immoveable, made during the war, with or by a hostile foreigner or a hostile firm is injurious to the public interest, or was made with the object of evading any provision of the law, the Governor General in Council may by order cancel or determine such contract, either unconditionally or upon such conditions as he thinks fit, or declare such transfer to be void either in whole or in part, or may impose such conditions on the transferee as he thinks fit.

Power of the Governor General in Council to vest property in Custodian under the Enemy Trading Act, 1915.

7. (1) The Governor General in Council in any case where it appears to him to be expedient to do so may by order vest in any Custodian appointed under the Enemy Trading Act, 1915, any property, moveable or immoveable, belonging to or managed or held whether in trust or otherwise, for, or on behalf of, a hostile foreigner, a hostile firm, or any person or company residing in, or carrying on business in the dominions of, a State at war with His Majesty, or the right to transfer that property, and may by any such order or any subsequent order confer on the Custodian such powers of selling, managing and otherwise dealing with the property as to the Governor General in Council may seem proper.

XIV of 1915.

(2) A vesting order under this section shall, notwithstanding the provisions of any other law to the contrary, be sufficient to vest in the Custodian any property or the right to transfer any property as provided by the order without the necessity of any further document.

(3) Where, in the exercise of the powers conferred on him by the Governor General in Council, the Custodian proposes to sell any shares or stock forming part of the capital of any company or any securities issued by the company in respect of which a vesting order under this Ordinance has been made, the company may, with the consent of the Governor General in Council, purchase the shares, stock or securities, notwithstanding anything to the contrary in any law or in any regulation of the company, and any shares, stock or securities so purchased may, from time to time, be re-issued by the company.

(4) The transfer by the Custodian of any property shall be conclusive evidence in favour of the transferee and of the Custodian that the requirements of this section have been complied with.

(5) All property vested in the Custodian under this section and the proceeds of the sale of, or money arising from, any such property, shall be dealt with by him in accordance with such directions as he may receive from the Governor General in Council; and no such property or money shall be liable to be attached or otherwise taken in execution.

Validity of vesting orders.

8. Where a vesting order has been made under this Ordinance as respects any property belonging to, or held or managed for, or on behalf of, a person who appeared to the Governor General in Council to be a person to whom the provisions of section 7 were applicable, the order shall not, nor shall any proceedings thereunder or in consequence thereof, be invalidated or affected by reason only of such person having, prior to the date of the order, died or ceased to be a person to whom the said provisions were applicable, or subsequently dying or ceasing to be such a person or by reason of its being subsequently ascertained that he was not such a person, as the case may be.

Registration of transfer without production of certificates, etc.

9. Where the Custodian executes a transfer of any shares, stock or securities which he is empowered to transfer by a vesting order made under this Ordinance, the company in whose books the shares, stock or securities are registered shall, upon the receipt of the transfer so executed by the Custodian, and upon being required by him so to do, register the shares, stock or securities in the name of the Custodian or other transferee, notwithstanding any regulation or stipulation of the company, and notwithstanding that the Custodian is not in possession of the certificate, scrip or other document of title relating to the shares, stock or securities transferred; but such registration shall be without prejudice to any lien or charge in favour of the company or to any other lien or charge of which the Custodian has express notice.

Power to make rules.

10. (1) The Governor General in Council may make rules for all or any of the following purposes, namely:—

(a) providing for the distribution or disposal of any assets, or any money resulting from the realization of any part thereof, of any business in respect of which a winding up order has been made under this Ordinance;

(b) prescribing that hostile foreigners and hostile firms or any class of hostile foreigners or hostile firms shall, when required by the Custodian, furnish to him such particulars as he may require of all or any moveable or immoveable property in their possession, or under their control whether direct or indirect;

(c) requiring persons in British India to furnish to the Custodian such particulars as he may require of all or any class of debts or other property due by them to any person to whom the provisions of section 7 are or may be applicable;

(d) prescribing the remuneration payable to the Custodian in respect of his duties under this Ordinance; the fund from which it shall be paid, and the method of collecting the same; and

(e) generally for carrying out the purposes of this Ordinance.

(2) In making any rule under this section, the Governor General in Council may direct that a breach of it shall be punishable with imprisonment which may extend to a term not exceeding six months, or with fine which may extend to one thousand rupees, or with both.

Certain licenses under the Hostile Foreigners (Trading) Order to be deemed to be orders issued under section 4 (1) (a).

11 Every license for the time being in force granted under the Hostile Foreigners (Trading) Order permitting the licensee to trade or carry on business subject to conditions or restrictions shall be deemed to be an order made under section 4 (1) (a) of this Ordinance, and this Ordinance shall have effect accordingly.

Power to deal with non-trading companies.

12. (1) The Governor General in Council may, by notification in the Gazette of India, declare that the powers conferred by section 7 in regard to the property, moveable or immoveable, of the persons referred to therein shall extend to the property, moveable or immoveable, in British India, of any company specified in such notification of which any member is a hostile foreigner or of which a hostile foreigner was a member or officer on the 3rd day of August, 1914, notwithstanding that such company is not a company trading in British India

(2) On the publication of a notification under sub-section (1), the company shall be deemed to be a person referred to in section 7 of this Ordinance, and this Ordinance shall have effect accordingly.

Validation of past action.

13. Any act done after the 3rd day of August, 1914, by, or under the orders of, any officer of Government in respect of the property, moveable or immoveable, of any hostile foreigner or hostile firm which, if this Ordinance had been in force, could have been validly done in the exercise of the powers conferred thereby, or which could have been conferred thereunder, is hereby validated.

In consequence of this change of channels, the buoyage of the entrance to the Min River between the sea and the Eme Rock Buoy has been altered and is now as follows :—

A *red* Buoy, surmounted by a spherical day-mark, to be known as the Entrance Buoy, has been moored in 23 feet of water on the northern side of the entrance to the Outer Bar North Channel. From the Buoy, Rees Rock bears S. 65° W., distant 4·2 miles.

A *red* Buoy, surmounted by a frustrum day-mark, to be known as the Central Buoy. has been moored in 23 feet of water about 1 mile inside the Outer Bar North Channel. From the Buoy, Rees Rock bears S. 36° W., distant 2 miles.

A *red* Buoy, surmounted by a spherical day-mark, to be known as the Inner Buoy, has been moored in 18 feet of water on the northern side of the channel in the eastern approach to the Inner Bar. From the Buoy, Rees Rock bears S. 13° E., distant 2 miles

All bearings given are magnetic, and depths are those of low water of spring tides.

Bar Channel—Alterations in aids to Navigation—Inner buoy established.

No. 186 (third publication).—The following particulars, etc., relative to the above, issued by the Coast Inspector, Shanghai, in Notice to Mariners (No. 620 of 1916), are republished :—

Notice is hereby given that the following alterations and addition have been made to the Aids to Navigation marking the channel across the Bar in the approach to the port of Lungkow.

The Lungkow Bar Leading Marks have been moved and are now situated to the southward of the town of Lungkow. The high, or rear, mark is a white pole, 60 feet high, and surmounted by an inverted triangular shape. From this mark the Custom House Flagstaff bears N. 29° W., distant 5·74 cables. The front, or low, mark is a white pole, 50 feet high, and surmounted by a triangular shape. It is situated 2 cables N. 89° 30′ W. from the high, or rear, mark.

The Entrance Buoy has been moved, and from its new position the Custom House Flagstaff bears N. 76° E., distant 1·87 miles. Its characteristics remain unchanged.

The Bar Buoy has been moved, and from its new position the Custom House Flagstaff bears N. 66° E., distant 1·2 miles. Its characteristics remain unchanged.

A *black* Spar Buoy, to be known as the Inner Buoy, has been moored on the inner side of the Bar. From the Buoy the Custom House Flagstaff bears N. 63° E., distant 1·01 miles.

All bearings given are magnetic.

SOUTH AUSTRALIA.

Adelaide—Wireless Time-signals established.

No. 187 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 461 of 1916), are republished :—

Position.—Adelaide Observatory, lat. 34° 55½′ S., long. 138° 35¼′ E.

Details.—Wireless time-signals, in accordance with the system adopted by the International Time Convention, have been established at Adelaide.

The signals are made at 00h. 00m. and 12h. 00m. Standard Time, corresponding to 14h. 30m. and 2h. 30m. G.M.T., respectively, as follows :—

Preparative signals.—A series of the letter "X" of the Morse code from 23h. 57m 00s. and 11h. 57m. 00s., followed by three *dashes* ending at 23h. 58m. 00s. and 11h. 58m. 00s.

First series of time-signals.—From 23h. 58m. 08s. and 11h. 58m. 08s., the letter "N" of the Morse code, repeated every 10 seconds, the *dot* being made at each even 10 seconds; followed by three *dashes* ending at 23h. 59m. 00s. and 11h. 59m. 00s.

Second series of time-signals.—From 23h. 59m. 06s. and 11h. 59m. 06s., the letter "G" of the Morse code repeated every 10 seconds, the *dot* being made at each even 10 seconds; followed by three *dashes* ending at 00h. 00m. 00s. and 12h. 00m. 00s.

The *dashes* are of about one second and the *dots* of about a quarter of a second duration, each sign being separated from the one which immediately follows in the same group by an interval of about one second duration.

The attached diagram represents graphically the foregoing system.

Remarks.—It is estimated that the night signals have a range of about 2,000 miles.

REPORT ON FAMINE AND SCARCITY IN THE DISTRICTS OF BANKURA AND TIPPERA FOR THE WEEK ENDING 1ST JULY 1916.

IN the Bankura district the state of affairs in affected areas is generally unchanged. Transplantation and sowing are progressing well. Prospects of standing crops are fair. The condition of people on works is generally good. The relief measures are adequate. Loans to weavers are being advanced. The distribution of agricultural loans is almost completed. Prices are stationary. The price of rice was 8 seers per rupee. The number of persons on relief-works was 11,406, and in receipt of gratuitous

relief 23,492, total 34.898. The decrease in the number of persons was due to the commencement of agricultural operations. Two thousands nine hundred and fifty-seven persons were relieved on private works.

In the Tippera district the rainfall during the week improved the prospects of standing crops. Harvesting of autumn rice crop is proceeding. Public health is good. There was no emaciation. The price of rice was 7 seers per rupee. The number of persons on test-works was 2,162, and in receipt of gratuitous relief 8,464, total 10.626. The decrease in the number of persons on test-works was due to the gradual closing down of test-works in the Brahmanbaria subdivision, and the increase in the number of persons in receipt of gratuitous relief was due to the closure of relief operations at the Sadar subdivision on account of rain.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 10th July 1916.

Summary.—During the week under report moderate rain fell throughout the province. In some of the northern districts the fall was heavy. Ploughing for winter rice and transplantation of seedlings are proceeding. The weeding of jute and *aus* rice is almost finished. Harvesting of *aus* rice and jute continues in the Eastern Bengal districts. Some damage to low land crops by the sudden rise of water is reported from Jessore, Pabna and Faridpur. Cattle-disease is reported from ten districts. The average price of common rice for the province has risen by about 0·5 per cent., as compared with that of the previous week.

The decrease during the week in Coaching is mainly in Military passengers and baggage.

The increase during the week in Goods is mainly in Rice, Flour and Tea.

The earnings to the end of June are better than the corresponding period of last year and it is now expected that the total earnings for the half-year will reach Rs. 6,30,000 instead of Rs. 6,21,000 as estimated last month. The decrease in Coaching is mainly due to the smaller number of troops moved and the increase in Goods is mainly under Rice, Flour and Tea traffic (which yielded about Rs. 20,000 extra.) There was, however, a set off about Rs. 16,000 as the traffic in Iron and Cement for building has fallen off considerably.

THE Government of India have had under their consideration for some time past a scheme for the constitution of a Zoological Survey of India on the basis of the Zoological and Anthropological Section of the Indian Museum, Calcutta. The scheme has recently been approved by the Secretary of State for India and His Excellency the Governor General in Council is pleased to publish the details for the information of local Governments and Administrations and the general public. The Survey will come into force on July 1st, 1916.

2. In March 1913 the Chairman of the Trustees of the Indian Museum forwarded a representation from the Superintendent of the Zoological and Anthropological Section of the Museum regarding the recognition of the Zoological Section as a Zoological Survey. The Government of India who had already under consideration the desirability of establishing on a sound basis a Zoological Survey of India informed the Trustees of the Museum that they would be prepared to consider a scheme for such a survey on lines somewhat similar to the existing Botanical Survey and asked to be furnished with the necessary details. The Trustees accordingly submitted their proposals at the end of September 1913. They represented that, though it had been definitely recognized in the past that field-work and zoological research formed an important part of the official duties of the scientific officers of the Zoological and Anthropological Section of the Museum, both branches of work had been necessarily undertaken in a somewhat haphazard manner. Different officers had taken up the investigation of different groups of animals and had visited various parts of India and Burma in connection with their investigation without there being a definite programme drawn up each year or a comprehensive scheme of research instituted In short, this part of the duties of the section had been in an experimental stage. They thought accordingly that the time had come to pass to further developments and suggested the establishment of a Zoological Survey. The detailed proposals of the Trustees were approved by the Board of Scientific Advice to whom they were submitted and the Government of India in recommending them to the Secretary of State in their Financial despatch No. 366, dated the 11th December 1915 urged the following additional considerations in support of the scheme:—"In the first place" they stated "since medicine, more specially tropical medicine, is intimately connected with certain branches of zoology, it is obvious that anything that furthers the interests of zoological research in this country will indirectly benefit medicine and sanitation materially. Secondly, outside interest in Indian zoology has increased in recent years and more attention is now devoted to it by individuals and societies in India. In the publication entitled Records of the Indian Museum 35 original papers on zoology have been published since March 1914, of which 14 have been written in India. Ten contributors of notes or papers have been zoologists resident in this country, who are not members of the Museum staff, while not less than five contributors have been Indians. Moreover, at the present time a survey of mammals is being carried on by the Bombay Natural History Society to which we have recently given a grant of Rs 7,500."

3. The proposals as finally sanctioned by the Secretary of State are as follows:—

(*a*) The head-quarters of the Survey will be the Indian Museum. The reports in recent years of the Zoological and Anthropological Section of the Indian Museum show that a good deal of zoological research work is already being done by the staff of the Section. The Museum has an excellent library and new and

completely equipped laboratories. It also contains and preserves comprehensive zoological collections both from India and from other countries in Asia and issues two series of publications, viz., "Records of the Indian Museum" and "Memoirs of the Indian Museum" in which is embodied the zoological work already accomplished. It also provides facilities for students of superior scientific status to work at advanced zoology.

(*b*) The scheme regarding the Zoological Survey entails the breaking up of the organization now known as the Zoological and Anthropological Section of the Indian Museum into two parts, one of which will become a Government department under the title of the Zoological Survey of India and will be primarily concerned with zoological investigation and exercise such advisory functions as may be assigned to it by Government, while the other part will remain as the office of the Trustees of the Indian Museum and will be organized for the present on the lines laid down in the existing bye-laws of the Museum. One effect of the proposals will be that the Zoological and Anthropological Section will be brought into line with the Geological, Archaeological and Industrial Sections which are in the charge of the Director of the Geological Survey of India, the Director-General of Archaeology in India and the Director of the Botanical Survey of India, respectively.

(*c*) The whole of the staff, office establishment and menials of the Zoological and Anthropological Section of the Museum with the exception of those employés of the Section who are engaged solely in connection with the maintenance of discipline, cleanliness, etc., in the Museum as a whole and the chaprasis employed by the Trustees, will be transferred to the Zoological Survey. The Superintendent of the present Zoological and Anthropological Section will become the Director of the Zoological Survey, with his head-quarters at the Indian Museum. He will however continue to be *ex-officio* Secretary to the Trustees but the Government of India do not consider it desirable to lay down the condition that this combination of posts shall continue indefinitely, provided that if a separate Secretary is at any time appointed no increased cost to Government is thereby involved. He will also continue for the present to perform the duties of Superintendent of the Indian Museum. The Director of the Zoological Survey will be regarded for the purposes of the Indian Museum Act as Superintendent of the Zoological and Anthropological Section of the Museum.

The superior staff of the Zoological Survey will be as follows:—

1 Director, Zoological Survey of India. The first Director will be Dr Annandale, B.A., D.Sc., C.M.Z.S., F.L.S., F.A.S.B., the present Superintendent of the Zoological and Anthropological Section.

1 Superintendent, Zoological Survey of India.

2 Assistant Superintendents, Zoological Survey of India.

Besides the above, the Surgeon Naturalist to the Indian Marine Survey will be considered an officer of the Zoological Survey and be styled *ex-officio* Assistant Superintendent of the Survey. He will carry out his work in direct connection with the Zoological Survey, but he will be liable to military duty in case of emergency and will be subject to naval discipline while on board the "Investigator."

(*d*) The Zoological Survey will be a scientific department of the Government of India under the direct control of the Department of Education just as the Botanical Survey is under that of the Department of Revenue and Agriculture.

The relations between the new Survey and the Trustees will be regulated by clause 7 (*c*) of the Indian Museum Act (X of 1910) and will be identical with those that at present exist between the Archaeological Survey and the Trustees except that the

Director of the Zoological Survey, as stated in paragraph 3 (*c*) above, will be *ex-officio* Secretary to the Trust. The Trustees will lend to the Director of the Zoological Survey their zoological collections, retaining visiting powers in the Zoological Section as in the others in which a similar loan has been effected. They will, however, retain full control of their Secretary's office.

(*e*) It will be the duty of the Zoological Survey to act as guardians of the standard zoological collection of the Indian Empire and as such to give every assistance in their power both to officials and to others in the identification of zoological specimens submitted to them, arranging, if requested to do so, to send collections to specialists abroad for identification in cases in which no specialist is available in India. The Survey will also obtain the fullest possible information about the systematic and geographical zoology of the Indian Empire and will place this information at the disposal of inquirers. It will not, however, interfere in any way with private enterprise in zoological matters or with the scientific work of other Imperial or Provincial Government departments.

The Forest and Agricultural Departments subordinate to the Government of India have agreed to collaborate in the Zoological Survey on the same condition of co-operation as exists between the Botanical Survey and other Government departments, *i.e.*, collaboration without subordination. Local Governments and Administrations will, it is hoped, similarly allow their officers to co-operate with the Zoological Survey without being in any way subordinate to its Director. Their co-operation will be most welcome and valuable.

(*f*) The Director of the Zoological Survey will act as Zoological Adviser to the Government of India in the same way as the Director of the Botanical Survey acts as Botanical and the Director General of Archaeology as Archaeological Adviser. He will be treated as a head of a department and will be empowered, subject to the usual conditions, to reappropriate funds within his budget grants from one head to another and to create temporary appointments up to Rs. 50 a month.

Just as the Director-General of Archaeology is in charge of the archaeological collection of the Indian Museum, so the Director of the Zoological Survey will be in charge of the zoological and anthropological collections.

(*g*) The zoological publications of the Indian Museum will be continued in their present form and under their present titles, but will be edited by the Director of the Zoological Survey instead of by the Superintendent of the Indian Museum. The great bibliographical inconvenience involved in any change of name will thus be avoided and any break of continuity rendered unnecessary.

(*h*) The personal allowance of Rs. 200 a month at present given to the Senior Assistant Superintendent, who will be styled Superintendent, Zoological Survey of India, shall be made a regular part of the pay of his post. The effect of this change is as shown below:—

Present.	*Future.*
1 Superintendent, Zoological and Anthropological Section, Indian Museum, Rs. 1,000—80—1,400 with free quarters.	1 Director, Zoological Survey of India, Rs. 1,000—80—1,400 with free quarters.
1 Senior Assistant Superintendent Rs. 500—40*—700 with free quarters.	1 Superintendent, Zoological Survey of India, Rs. 700—40*—900 with free quarters.
Personal allowance Rs. 200.	

* (Biennially)

Present.	*Future.*
1 Assistant Superintendent, † Rs. 500—40*—700.	1 Assistant Superintendent,† Zoological Survey of India. Rs. 500—40*—700.
1 Assistant Superintendent,† Rs. 500—40*—700.	1 Assistant Superintendent,† Zoological Survey of India, Rs 500—40*—700.

* (Biennially)
† Admitted to the benefits of the Calcutta house allowance scheme

(*i*) The income of the Trustees of the Indian Museum from private sources, viz., gate money (average Rs. 1,300) and sale of publications (average Rs. 800), which are of a fluctuating nature, shall be credited to Government and in their place an annual fixed grant of Rs. 10,708 shall be given to them to meet their charges.

4. The financial effect of the scheme is as shown below :—

The details of the income, which at present ordinarily suffices to meet the normal annual expenditure of the Zoological and Anthropological Section, were in 1913-14 as follows :—

	Rs.
(1) Grants from Government on account of (*a*) non-gazetted establishment including the special Entomological Assistant whose pay (Rs. 100—15—250) is met from the special educational grant, (*b*) maintenance, and (*c*) acquisition of specimens	61,970
(2) Receipts from gate money (average Rs. 1.300), sale of publications (average Rs. 800) and savings on non-gazetted establishment and on gazetted staff (average Rs. 1,200)	3,300
(3) Average cost of superior staff (*i.e.*, 1 Superintendent and 3 Assistant Superintendents) paid by Government	41,090
Total ...	1,06,360

The funds of the Section will be distributed as follows :—

Museum.

(1) Grant to the Trustees of the Museum for general Museum work, viz., (1) Rs. 8,708 on account of establishment as now revised, and (2) Rs. 2,000 on account of petty expenditure	10,708

Zoological Survey.

(1) Gazetted staff	41.090
(2) Non-gazetted establishment	22,132
(3) Grant for contingencies and travelling allowances of gazetted and non-gazetted establishment	34,000
(4) Ethnological gallery	529
(3) Special Entomological Assistant	2,430
Total ...	1,10,889
Deduct—Rs. 1,200 on account of probable savings on non-gazetted and gazetted establishment ...	1,200
	1,09,689

It will be observed that taking the expenditure as a whole the scheme involves at present an extra cost of about Rs. 3,300 a year. Financially the main effect of this scheme is that Government will in future make a grant of Rs. 10,708 only to the Museum instead of its present grants, but will accept responsibility for the whole of the expenditure of the Zoological Survey.

5. In conclusion, the Governor General in Council trusts that the co-ordination and systematisation of zoological work throughout India, which will be a necessary consequence of the establishment of a Zoological Survey, in such a manner as will avoid overlapping and assist in the filling up of gaps will be of considerable value to this country.

Order.—Ordered that a copy of this resolution be forwarded to the Local Governments and Administrations noted on the margin* for information and necessary action.

IN supersession of the orders contained in the Resolution of the Government of India in the Home Department, Nos. 2831-2842, dated the 8th December 1899, the Governor-General in Council is pleased to issue the following instructions with regard to certificates of identity.

2. Every Native of India who contemplates proceeding out of India to foreign countries is strongly urged before leaving to furnish himself with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency town and in the town of Rangoon, the Commissioner of Police) in the case of residents of British India, and by the Political Officer in that of residents of Native States. In the case of a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency town and in the town of Rangoon, the Commissioner of Police) or Political Officer, as the case may be.

Appeals for assistance by destitute Indians who desire repatriation and by students who, owing to embarrassed circumstances, are unable to complete their course of education, cannot be dealt with satisfactorily unless the parties are in a position to produce evidence of identity. The possession of a certificate of identity will be specially useful to young men of good family, as it may enable the Secretary of State to obtain for them social and other attentions.

Those who are desirous, however, of travelling in countries where a passport will be necessary are advised to furnish themselves with such a document also before leaving India, in lieu of, or in addition to, a certificate of identity. It should be remembered that no person is entitled to a passport, as of right, on the ground that he is a British subject, and the production before authorities outside India of a certificate of identity, unless

supplemented by documentary evidence of respectability, is not sufficient to ensure that a passport will be granted.

* i.e., whether a British subject by birth, or by naturalization (or a subject of a Native State)

† Countersignature of the District or Political Officer should be obtained on certificates signed by heads of schools or colleges.

NOTE.—Holders of certificates of identity intending to apply subsequently in England or elsewhere for a passport to visit a foreign country are warned that no person is entitled to a passport as of right on the sole ground that he is a British subject. The production of a certificate of identity, therefore, will not ordinarily be sufficient to secure the grant of a passport, unless it is supplemented by documentary evidence of respectability, endorsed by a local Government or other authority competent to issue passports in India, certifying that the holder is a fit and proper person to receive a passport.

No. 1946P.D.—The 14th July 1916.—In supersession of notification dated the 23rd June 1874, published in the *Calcutta Gazette* of the 1st July 1874, the Governor in Council is pleased to declare that the eastern boundary of Hill Tippera shall be as follows:—

The eastern boundary of Hill Tippera, from the triple junction on districts of Sylhet and Lushai Hills, shall run south along the Lungai river (flowing between the Jampai and Hachik-Chutterchura ranges) to its source in the Betteing-Sib peak; and thence following the watershed of hills to the junction of the Louk Thorai and Sardeng ranges and thence south-west and south along the Sardeng range to Surdaing peak, and on by the boundary as shown on the maps of Hill Tippera and Chittagong by J. H. O'Donnel, Esq., Revenue Surveyor, to and along the Feeny river as far as the village of Ramghur.

LONDON GAZETTE.

No. 758.—The following is published for general information :—

Third Supplement, dated the 29th May 1916, to the "London Gazette" of the 26th May 1916, pages 5311 to 5316.

War Office,
London, S.W.,
29th May 1916.

The following despatch has been received by the Secretary of State for War from General Sir Douglas Haig, G.C.B., Commander-in-Chief, the British Forces in France :—

General Headquarters,
19th May 1916.

MY LORD,

1. I have the honour to report the operations of the British Forces serving in France and Belgium since 19th December, 1915, on which date,

in accordance with the orders of His Majesty's Government, I assumed the Chief Command.

During this period, the only offensive effort made by the enemy on a great scale was directed against our French Allies near Verdun. The fighting in that area has been prolonged and severe. The results have been worthy of the high traditions of the French Army and of great service to the cause of the Allies. The efforts made by the enemy have cost him heavy losses both in men and in prestige, and he has made these sacrifices without gaining any advantage to counterbalance them.

During this struggle my troops have been in readiness to co-operate as they might be needed, but the only assistance asked for by our Allies was of an indirect nature—viz., the relief of the French troop on a portion of their defensive front. This relief I was glad to be able to afford.

Its execution on a considerable front, everywhere in close touch with the enemy, was a somewhat delicate operation, but it was carried out with complete success, thanks to the cordial co-operation and goodwill of all ranks concerned and to the lack of enterprise shown by the enemy during the relief.

2. On the British front no action on a great scale, such as that at Verdun, has been fought during the past five months, nevertheless our troops have been far from idle or inactive. Although the struggle, in a general sense, has not been intense, it has been everywhere continuous, and there have been many sharp local actions.

The maintenance and repair of our defences alone, especially in winter, entail constant heavy work. Bad weather and the enemy combine to flood and destroy trenches, dug-outs and communications; all such damages must be repaired promptly, under fire, and almost entirely by night.

Artillery and snipers are practically never silent, patrols are out in front of the lines every night, and heavy bombardments by the artillery of one or both sides take place daily in various parts of the line Below ground there is continual mining and counter-mining, which, by the ever-present threat of sudden explosion and the uncertainty as to when and where it will take place, causes perhaps a more constant strain than any other form of warfare. In the air there is seldom a day, however bad the weather, when aircraft are not busy reconnoitring, photographing, and observing fire. All this is taking place constantly at any hour of the day or night, and any part of the line.

3. In short, although there has been no great incident of historic importance to record on the British front during the period under review, a steady and continuous fight has gone on, day and night, above ground and below it. The comparative monotony of this struggle has been relieved at short intervals by sharp local actions, some of which, although individually almost insignificant in a war on such an immense scale, would have been thought worthy of a separate despatch under different conditions, while their cumulative effect, though difficult to appraise at its true value now, will doubtless prove hereafter to have been considerable.

One form of minor activity deserves special mention, namely, the raids or "cutting out parties" which are made at least twice or three times a week against the enemy's line. They consist of a brief attack, with some special object, on a section of the opposing trenches, usually carried out at night by a small body of men. The character of these operations—the preparation of a road through our own and the enemy's wire—the crossing of the open ground unseen—the penetration of the enemy's trenches—the hand-to-hand fighting in the darkness and the uncertainty as to the strength of the opposing force—give peculiar scope to the gallantry, dash and quickness of decision of the troops engaged; and much skill and daring are frequently displayed in these operations.

The initiative in these minor operations was taken, and on the whole has been held, by us; but the Germans have recently attempted some bold and well-conceived raids against our lines, many of which have been driven back, although some have succeeded in penetrating, as has been reported by me from time to time.

4. Of the numerous local actions alluded to, the total number, omitting the more minor raids, amounts to over 60 since December 19th, of which the most important have been:—

The operations at The Bluff, the Hohenzollern Redoubt, and at St. Eloi; the mining operations and crater fighting in the Loos salient and on the

Vimy Ridge; and the hostile gas attacks north of Ypres in December, and opposite Hulluch and Messines in April.

The most recent local operations worthy of mention are the capture of some 500 yards of our trenches by the Germans at the Kink, on the 11th May, and the capture by us of 250 yards of their trenches near Cabaret Rouge, on the night of the 15th-16th May.

5. As an illustration of the nature of these local operations, it will suffice to describe two or three of the most important.

Ypres Salient and The Bluff, 8th February to 2nd March, 1916.

During the period 8th to 19th February the enemy displayed increased activity in the Ypres salient, and carried out a series of infantry attacks, preceded, as a rule, by intense bombardment, and by the explosion of mines. These attacks may, no doubt, be regarded as a subsidiary operation, designed partly to secure local points of vantage, but probably also to distract attention from the impending operations near Verdun, which began on the 21st February.

After several days' heavy shelling over the whole of our line in this area, the first attack took place on 12th February at the extreme left of our line to the north of Ypres. A bombing attack was launched by the Germans in the early morning, and they succeeded in capturing our trenches. Our counter-attack, however, which was immediately organised, enabled us to clear our trenches of the enemy, and to pursue him to his own. After a period of further bombardment on both sides, the German fire again increased in intensity against our trenches and the French line beyond them; and in the evening a second attempt was made to rush our extreme left—this time entirely without success. Smaller attempts against other trenches in the neighbourhood were made at the same time, but were immediately repulsed by rifle and machine-gun fire Throughout the operations our position in this part of the line remained intact, except that two isolated trenches of no tactical importance were captured by the enemy a day or two later; they were subsequently obliterated by our artillery fire. Throughout this fighting the French on our immediate left rendered us the prompt and valuable assistance which we have at all times received from them.

Another series of German attacks was launched about the same time in the neighbourhood of Hooge to the east of Ypres. The enemy had pushed out several saps in front of his trenches, and connected them up into a firing line some 150 yards from our lines. During the whole of the 13th February he heavily bombarded our front-line trenches in this neighbourhood, and completely destroyed them. On the following afternoon an intense bombardment of our line began, and the enemy exploded a series of mines in front of our trenches, simultaneously launching infantry attacks against Hooge and the northern and southern ends of Sanctuary Wood. Each of these attacks was repulsed by artillery, machine-gun and rifle fire.

Further to the south, however, the enemy was more successful. On the northern bank of the Ypres Comines Canal there is a narrow ridge, 30 to 40 feet high, covered with trees—probably the heap formed by excavation when the canal was dug—which forms a feature of the flat-wooded country at the southern bend of the Ypres salient. It runs outward through our territory almost into the German area, so that our trenches pass over the eastern point of it, which is known as The Bluff. Here also our trenches were almost obliterated by the bombardment on the afternoon of the 14th, following which a sudden rush of hostile infantry was successful in capturing these and other front-line trenches immediately north of The Bluff—some 600 yards in all. Two of these trenches were at once regained, but the others were held by the enemy, in the face of several counter-attacks. On the night of the 15th-16th we made an unsuccessful counter-attack, with the object of regaining the lost trenches. An advance was begun across the open on the north side of the canal, combined with grenade attacks along the communication trenches immediately north of The Bluff. The night was very dark, and heavy rain had turned the ground into a quagmire, so that progress was difficult for the attacking force, which was unable to consolidate its position in the face of heavy machine-gun and rifle fire. After the failure of this attack it was decided to adopt slower and more methodical methods of re-capturing the lost trenches, and nothing of special importance occurred in the Ypres salient during the rest of the month, although both sides displayed rather more than the usual activity.

The re-capture of The Bluff took place after the enemy had held it for seventeen days. After several days' preliminary bombardment by our artillery, the assault was carried out at 4-29 A.M. on the 2nd March. Measures taken to deceive the enemy were successful, and our infantry effected a complete surprise, finding the enemy with their bayonets unfixed, and many of them without rifles or equipment. About 50 Germans took refuge in a crater at the eastern end of The Bluff, and these put up a brief resistance before taking refuge in the tunnels they had constructed, in which they were captured at leisure. Otherwise our right-hand attacking party, whose objective was The Bluff, met with little opposition

The front line of the centre attack, reaching its assigned objective without much opposition, swept on past it and seized the German Third Line at the eastern side of the salient. This line was not suitable to hold permanently, but it proved useful as a temporary covering position while the captured trenches in rear were being consolidated, and at nightfall the covering party was withdrawn unmolested. The later waves of our centre attack met and captured, after some fighting, several Germans coming out of their dug-outs.

The left attacking party, at the first attempt, failed to reach the German trenches, but those who had penetrated to the German line on the right realised the situation and brought a Lewis gun to bear on the enemy's line of resistance, completely enfilading his trenches, and thus enabling the left company to reach its goal.

Thus our objective, which included a party of the German line, as well as the whole of the front lost by us on the 14th February, was captured, and is still held by us. Several counter-attacks were destroyed by our fire. The enemy's trenches were found full of dead as a result of our bombardment, and five officers and 251 other ranks were captured.

The support of the Heavy and Field Artillery, and a number of trench mortars, contributed largely to the success of the operation.

St. Eloi.

6. On the 27th March our troops made an attack with the object of straightening out the line at St. Eloi, and cutting away the small German salient which encroached on the semi-circle of our line in the Ypres salient to a depth of about 100 yards over a front of some 600 yards. The operation was begun by the firing of six very large mines; the charge was so heavy that the explosion was felt in towns several miles behind the lines, and large numbers of the enemy were killed. Half a minute after the explosion our infantry attack was launched aiming at the German Second Line. The right attack met with little opposition, and captured its assigned objective; but the left attack was not so successful, and a gap was left in possession of the Germans, through which they entered one of the craters. The following days were spent by both sides in heavy bombardment and in unsuccessful attacks, intended on our part to capture the remaining trenches, and on the part of the Germans to drive us from the positions we had occupied. In the very early morning of April 3rd we succeeded in recapturing the crater and the trenches still held by the enemy, thereby securing the whole of our original objective. We had, moreover, captured five officers and 195 men in the first attack on March 27th, and five officers and 80 men in the attack on April 3rd. The work of consolidating our new position, however, proved extremely difficult, owing to the wet soil, heavy shelling and mine explosions; though pumps were brought up and efforts at draining were instituted, the result achieved was comparatively small. By dint of much heavy work the Brigade holding these trenches succeeded in reducing the water in the trenches by 2 feet by the morning of the 5th. This state of affairs could not, even so, be regarded as satisfactory; and during the 5th the enemy's bombardment increased in intensity, and the new trenches practically ceased to exist. On the morning of the 6th the enemy attacked with one battalion supported by another; he penetrated our new line, and gained the two westernmost craters. It is difficult to follow in detail the fighting of the next three weeks, which consisted in repeated attacks by both sides on more or less isolated mine craters, the trench lines having been destroyed by shell fire. Great efforts were made to maintain communication with the garrisons of these advanced posts, and with considerable success. But there were periods of uncertainty, and some misconception as to the state of affairs arose. On the 11th it was reported to

me that we had recaptured all that remained of the position won by us on the 27th March and 3rd April. This report, probably due to old craters having been mistaken for new ones, was subsequently found to be incorrect. The new craters, being exposed to the enemy's view and to the full weight of his artillery fire, have proved untenable and at the present time our troops are occupying trenches roughly in the general line which was held by them before the 27th.

German Gas Attacks, 27th-30th April.

7. On the night of the 29th-30th April the enemy carried out a gas attack on a considerable scale near Wulverghem, on a front of 3,500 yards. The operation was opened by heavy rifle and machine-gun fire under cover of which the gas was released. Immediately afterwards a heavy "barrage", or curtain of artillery fire, was placed on three parts of this area, and eight infantry attacks were launched. Of these attacks only two penetrated our trenches; one was immediately repelled, while the other was driven out by a counter-attack after about 40 minutes' occupation. The enemy's object would appear to have been the destruction of mine shafts, as a charge of guncotton was found unexploded in a disused shaft, to which the enemy had penetrated. But if this was his object he was completely unsuccessful

Similar attacks were made by the Germans in front of Vermelles, to the south of La Bassee, on the 27th and 29th April, the discharge of a highly-concentrated gas being accompanied by bombardment with lachrymatory and other shells and the explosion of a mine. On the first occasion two minor infantry attacks penetrated our trenches, but were driven out almost immediately; on the second occasion a small attack was repulsed, but the more serious advance which appears to have been intended was probably rendered impossible by the fact that a part of the enemy's gas broke back over his own lines, to the visible confusion of his troops, who were massing for the attack.

9. The activity described above has its counterpart in rear of our lines in the training which is carried out continuously. During the periods of relief all formations, and especially the newly-created ones, are instructed and practised in all classes of the present and other phases of warfare. A large number of schools also exist for the instruction of individuals especially in the use and theory of the less familiar weapons, such as bombs and grenades.

There are schools for young staff officers and regimental officers, for candidates for commissions, etc. In short, every effort is made to take advantage of the closer contact with actual warfare, and to put the finishing touches, often after actual experience in the trenches, to the training received at home.

10. During the period under review the forces under my command have been considerably augmented by the arrival of new formations from home, and the transfer of others released from service in the Near East. This increase has made possible the relief of a French Army, to which I have already referred, at the time of the Battle of Verdun. Among the newly-arrived forces is the "Anzac" Corps. With them the Canadians, and a portion of the South African Overseas Force which has also arrived, the Dominions now furnish a valuable part of the Imperial Forces in France.

Since the date of the last Despatch, but before I assumed command, the Indian Army Corps left this country for service in the East. They had given a year's valuable and gallant service under conditions of warfare which they had not dreamt of, and in a climate peculiarly difficult for them to endure. I regret their departure, but I do not doubt that they will continue to render gallant and effective service elsewhere, as they have already done in this country.

11. I take this opportunity to bring to notice the admirable work which the Royal Flying Corps has continued to perform, in spite of much unfavourable weather, in carrying out reconnaissance duties, in taking photographs—and important aid to reconnaissance which has been brought to a high pitch of perfection—and in assisting the work of our Artillery by registering targets and locating hostile batteries. In the performance of this work they have flown in weather when no hostile aeroplane ventured out, and they have not hesitated to fly low, under fire of the enemy's guns, when their duties made it necessary to do so. They have also carried out a series of bombing raids on hostile aerodromes and points of military importance. A feature of the period under review has been the increased activity of the enemy's aircraft, in suitable weather. But the enemy's activity has been mainly on his own side of the line, and has aimed chiefly at interrupting the work carried out by our machines. In order to carry on the work in spite of this opposition, which was for a time rendered more effective by the appearance in December of a new and more powerful type of enemy machine, it has been necessary to provide an escort to accompany our reconnaissance aeroplanes, and fighting in the air, which was formerly exceptional, has now become an everyday occurrence.

The observers, no less than the pilots, have done excellent service, and many fine feats have been performed by both. Developments on the technical side of the Air Service have been no less remarkable and satisfactory than the progress made on the purely military side. Much inventive genius has been displayed; and our equipment for photography, wireless telegraphy, bomb-dropping and offensive action generally has been immensely improved, while great skill has been shown in keeping the flying machines themselves in good flying condition.

12. The continuance of siege warfare has entailed for the Royal Engineers work of a particularly arduous and important kind extending from the front trenches to the Base Ports.

In the performance of this work the Officers, Non-Commissioned Officers and men of the Field Companies and other units of the Corps have continued to exhibit a very high standard of skill, courage, and devotion to duty.

13. The work of the Tunnelling Companies calls for special mention. Increased mining activity on the part of the enemy has invariably been answered with enterprise combined with untiring energy on the part of our miners, who, in carrying out duties always full of danger, have shown

that they possess in the highest decree the qualities of courage, perseverance, and self-sacrifice. Their importance in the present phase of warfare is very great.

14. The excellent work done by the Corps of Military Police is worthy of mention. This Corps is inspired by a high sense of duty, and in the performance of its share in the maintenance of discipline it has shown both zeal and discretion.

15. All branches of the Medical Services deserve the highest commendation for the successful work done by them, both at the Front and on the Lines of Communication. The sick rate has been consistently low; there has been no serious epidemic, and enteric fever, the bane of armies in the past, has almost completely disappeared owing to preventive measures energetically carried out.

The results of exposure incidental to trench warfare during the winter months were to a very great extent kept in check by careful application of the precautions recommended and taught by regimental Medical Officers.

The wounded have been promptly and efficiently dealt with, and their evacuation to the Base has been rapidly accomplished.

The close co-operation which has existed between the officers of the Regular Medical Service of the Army and those members of the civil medical profession, who have patriotically given their valuable services to the Army, has largely contributed to the prevention of disease and to the successful treatment and comfort of the sick and wounded.

As part of the Medical Services, the Canadian Army Medical Corps has displayed marked efficiency and devotion to duty.

16. The Commission of Graves Registration and Enquiries has, since it first undertook this work eighteen months ago, registered and marked over 50,000 graves. Without its labours many would have remained unidentified. It has answered several thousand enquiries from relatives and supplied them with photographs. Flowers and shrubs have been planted in most of the cemeteries which are sufficiently far removed from the firing line, and all cemeteries which it is possible to work in during the daytime are now being looked after by non-commissioned officers and men of this unit.

17. The valuable nature of the work performed by the officers of the Central Laboratory and the Chemical Advisers with the Armies in investigations into the nature of the gases and other new substances used in hostile attacks, and in devising and perfecting means of protecting our troops against them, is deserving of recognition. The efforts of these officers materially contributed to the failure of the Germans in their attack of 19th December 1915, as well as in the various gas attacks since made.

18. The stream of additional personnel and material arriving from England, and the move of complete formations to and from the East during the period under review, have thrown a great deal of work on our Base Ports and on the Advanced Base. The staff and personnel at these stations have coped most ably with the work of forwarding and equipping the various units passing through their hands, and I desire to bring their good work to notice.

19. The large increases made to our forces have necessitated a great expansion in the resources of our Lines of Communication, and I have been greatly struck by the forethought shown by the Administrative Services in anticipating the requirements of the Armies in the Field and in the provision made to satisfy these requirements.

The Base Ports have been developed to the utmost possible extent, advanced Dépôts have been provided, and communications have been improved to ensure punctual distribution to the troops.

Labour has been organised in order to develop local resources, especially in the matter of timber for defences and hutting, and stone for road maintenance, whereby considerable reductions have been made possible in the shipments from over sea.

Economy has attended the good methods adopted, and the greatest credit is due to all concerned for the results obtained.

20. I desire to acknowledge here the valuable assistance rendered by the naval transport officers on the Lines of Communication. They have worked with and for the Army most untiringly, efficiently, and with the utmost harmony.

I also desire to acknowledge the indebtedness of the Army to the Royal Navy for their unceasing and uniformly successful care in securing the safety of our transport service on the seas.

21. I wish to acknowledge the work done in the reproduction of maps by the Ordnance Survey Department. Over 90 per cent. of the maps used in this country are reproduced and printed in England by the Ordnance Survey, and the satisfactory supply is largely due to the foresight and initiative displayed by this Department. I can now count on obtaining an issue of as many as 10,000 copies of any map within one week of sending it home for reproduction.

22. I have forwarded under a separate letter the names of the Officers, Non-Commissioned Officers and Men whom I wish to bring to notice for gallant and distinguished service.

23. I cannot close this Despatch without some reference to the work of my predecessor in Command, Field-Marshal Viscount French. The Field-Marshal, starting the war with our small Expeditionary Force, faced an enemy far superior in numbers and fully prepared for this great campaign. During the long and anxious time needed for the improvisation of the comparatively large force now serving in this country, he overcame all difficulties, and before laying down his responsibilities he had the satisfaction of seeing the balance of advantage swing steadily in our favour. Those who have served under him appreciate the greatness of his achievement.

I have the honour to be,

Your Lordship's most obedient Servant,

D. HAIG, *General*,
Commander-in-Chief, The British Forces in France.

Simla, the 14th July 1916.

No. 34.—The following Statute is published for general information:—

THE ARMY (ANNUAL) ACT, 1916.

[6 GEO. 5, CH. 5.]

AN ACT TO PROVIDE DURING TWELVE MONTHS FOR THE DISCIPLINE AND REGULATION OF THE ARMY.

[*19th April 1916.*]

Whereas the raising or keeping of a standing army within the United Kingdom of Great Britain and Ireland in time of peace, unless it be with the consent of Parliament, is against law:

And whereas it is adjudged necessary by His Majesty and this present Parliament that a body of forces should be continued for the safety of the United Kingdom and the defence of the possessions of His Majesty's Crown, and that the whole number of such forces should consist of four million including those to be employed at the depôts in the United Kingdom of Great Britain and Ireland for the training of recruits for service at home and abroad, but exclusive of the numbers actually serving within His Majesty's Indian possessions:

And whereas it is also judged necessary for the safety of the United Kingdom, and the defence of the possessions of this realm, that a body of Royal Marine forces should be employed in His Majesty's fleet and naval service, under the direction of the Lord High Admiral of the United Kingdom, or the Commissioners for executing the office of Lord High Admiral aforesaid:

And whereas the said marine forces may frequently be quartered or be on shore, or sent to do duty or be on board transport ships or vessels, merchant ships or vessels, or other ships or vessels or they may be under other circumstances in which they will not be subject to the laws relating to the government of His Majesty's forces by sea:

And whereas no man can be forejudged of life or limb, or subjected in time of peace to any kind of punishment within this realm, by martial law, or in any other manner than by the judgment of his peers and according to the known and established laws of this realm; yet, nevertheless, it being requisite, for the retaining all the before-mentioned forces, and other persons subject to military law, in their duty, that an exact discipline be observed, and that persons belonging to the said forces who mutiny or stir up sedition, or desert His Majesty's service, or are guilty of crimes and offences to the prejudice of good order and military discipline, be brought to a more exemplary and speedy punishment than the usual forms of the law will allow:

And whereas the Army Act will expire in the year one thousand nine hundred and sixteen on the following days:— 44 & 45 Vict. c. 58.

(*a*) In the United Kingdom, the Channel Islands, and the Isle of Man, on the thirtieth day of April; and

(*b*) Elsewhere, whether within or without His Majesty's dominions, on the thirty-first day of July:

Be it therefore enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

Short title

1. This Act may be cited as the Army (Annual) Act, 1916.

Army Act to be in force for specified times.

2. (1) The Army Act shall be and remain in force during the periods hereinafter mentioned, and no longer, unless otherwise provided by Parliament (that is to say):—

(*a*) Within the United Kingdom, the Channel Islands, and the Isle of Man, from the thirtieth day of April one thousand nine hundred and sixteen to the thirtieth day of April one thousand nine hundred and seventeen, both inclusive; and

(*b*) Elsewhere, whether within or without His Majesty's dominions, from the thirty-first day of July one thousand nine hundred and sixteen to the thirty-first day of July one thousand nine hundred and seventeen, both inclusive.

(2) The Army Act, while in force, shall apply to persons subject to military law, whether within or without His Majesty's dominions.

(3) A person subject to military law shall not be exempted from the provisions of the Army Act by reason only that the number of the forces for the time being in the service of His Majesty, exclusive of the marine forces, is either greater or less than the number hereinbefore mentioned.

Prices in respect of billeting.

3. There shall be paid to the keeper of a victualling house for the accommodation provided by him in pursuance of the Army Act the prices specified in the Schedule to this Act.

AMENDMENTS OF THE ARMY ACT.

Amendment of ss. 163 (1) (*d*) and 190 (27) of Army Act.

4. In paragraph (*d*) of sub-section (1) of section one hundred and sixty-three of the Army Act which relates to evidence, the words "or the Governor of any presidency in India" shall be omitted, and in paragraph (27) of section one hundred ninety of the Army Act the words "as respects any presidency in India, means the Governor in Council of the presidency and" shall be omitted.

NOTICE.

IT is hereby notified for general information that the following subjects have been selected by the Hon'ble the Vice-Chancellor and Syndicate of the Calcutta University for the Jubilee Research Prizes for 1918 :—

LITERARY SUBJECT.

To find the necessary and sufficient conditions that a product of two square Matrices of the same order shall be commutative.

SCIENTIFIC SUBJECT.

The Bacteriology and Chemistry of the tobacco ordinarily used in the Indian hookah.

The prizes will be open to all persons who have at any time been admitted to a degree in this University.

The theses for the above prizes for 1918 are to be sent privately to the undersigned not later than the 30th June 1918. Every thesis must bear a motto, but not the name of the candidate, and must be accompanied by a sealed envelope bearing the same motto outside and containing inside the name and address of the candidate.

Every candidate is required to indicate generally in a preface to his thesis, and specially in notes, the sources from which his information is taken, the extent to which he has availed himself of the work of others, and the portions of the thesis which he claims as original. He is further required to state whether his research has been conducted independently, under advice, or in co-operation with others, and in what respects his investigations appear to him to tend to the advancement of knowledge.

Every candidate will be at liberty to publish his thesis, and the thesis of every successful candidate will be published by the University. The Syndicate may also, at their discretion, publish any thesis which has been specially commended.

CALCUTTA UNIVERSITY.

NOTICE.

IN accordance with Rule 12 of the Revised Rules for the recruitment of the Provincial Civil Service, the Syndicate of the Calcutta University will proceed to nominate two graduates of high character and of great academical distinction, who are natives of Bengal or have definitely settled in it. From amongst these or from amongst graduates previously nominated by the Syndicate and who have not passed the age of 25 years, the Governor in Council will, after enquiry, select one person to be a Probationary Deputy Magistrate.

The indispensable qualifications for a candidate for appointment by recruitment are (1) that he is a natural-born subject of His Majesty or of a Native State, (2) that he will not be under 20 or over 25 years of age on the 31st of December 1916, (3) that he is of good character, (4) that he is a graduate and (5) that he is of sound health, good physique and active habits, and free from organic defect or bodily infirmity.

Applications for nomination by the Syndicate are hereby invited from graduates of the University of Calcutta, who have passed the B.A. or B.Sc. Examination with Honours or the M.A. or M Sc. Examination or any other higher Examination in the Faculties of Arts, Science, or Law. Such applications are to reach the University on or before the 23rd August, 1916.

Each application must contain information on the following points and must be accompanied by certificates mentioned below :—

(1) Name of candidate and address in full.

(2) Father's name, profession or occupation, and address in full.

(3) Religion and caste or race.

(4) Date of birth, day and month to be given.

(5) The date of passing the Entrance or Matriculation Examination and the candidate's subsequent academical career.

(6) Educational qualifications and places of education during the preceding four years with dates. Certificates of moral character from the Principal and Professors of the Institution in which the candidate last studied for not less than one year to be submitted. A certificate showing that the candidate possesses a thorough knowledge of Bengali and has passed some recognised examination in the subject should also be submitted.

(7) A medical certificate showing that the candidate is of sound health, good physique and active habits and that he is free from any organic defect or bodily infirmity.

Chittagong, the 19th June 1916. A. H. CLAYTON, Collector.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Assam-Bengal Railway, in the district of Tippera, will be put up to sale at 1 o'clock on 20th July of the year 1916, corresponding with the 4th Sraban 1323 Fusli, at Kamalasagar Railway station.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Commissioner confirming the sale.

High Court, Original Side, Sheriff's Office, the 13th July 1916. (1738—1)

Sheriff's Proclamation of Sale.

TO be peremptorily sold pursuant to an order of the Calcutta High Court in Suit No. 695 of 1911 (wherein Sreemutty Suruth Coomari Dabee is plaintiff and Sreemutty Dakhina Kally Dabee and another are defendants) and dated the 30th day of March 1916 by the Sheriff of Calcutta in his sale-room in the Court-house on Friday, the 18th day of August 1916, at 12 o'clock noon, the undermentioned property belonging to the estate of the deceased defendant Sreemutty Dakhina Kally Dabee, now in the possession of Sasti Dass Mukhopadhya and Kali Charan Mukhopadhya :—

All that sixteen annas share of a piece of a tenanted land measuring two and-a-half cottahs, situate, lying and being premises No. 110 Balaram Dey Street in Sootanooty in the north division of the town of Calcutta, and bounded on the north by Roop Chand Karmokar's dwelling-house, on the south by Balaram Dey Street, on the west by Raman Lall Sett's house and on the east by common passage.

That it appears from searches made in the office of the Registrar of Assurances at Calcutta that there are no encumbrances affecting the above-mentioned premises, but the following is the result of searches made in the office of the said Registrar of Assurances at Calcutta :—

(1) A Bengali Deed of settlement dated 22nd June 1894 executed by Sreemutty Dakhina Kally Dabee whereby she dedicated the house and premises No. 118 Balaram Dey Street and the land and premises formerly No 117 and now No 110 Balaram Dey Street for the worship of one Bunlinga Siva established by her and she desired that she should remain shebait of the same for life and on her death her sister's son, Thakur Charan Chattapadhya, would be appointed shebait for the said worship and her nephews Sasti Dass Mukhopadhya, Narahari Mukhopadhya and Kali Charan Mukhopadhya would also be appointed to the said shebaitship

(2) Agreement bearing date 1st Agrayan 1309 B.S. executed by Raman Lall Sett in favour of Sreemutty Dakhina Kally Dabee whereby the said Raman Lall Sett agreed to close and shut up the windows and door which were opened by him on the eastern wall of his house No. 113 Balaram Dey Street overlooking the land and premises No. 110 Balaram Dey Street whenever he would be called upon to do so by the said Sreemutty Dakhina Kally Dabee.

The sum for which the sale has been ordered is Rs. 624-4 due by the estate of the said deceased defendant Sreemutty Dakhina Kally Dabee to her attorney Babu Nalin Chandra Gupta.

The conditions of sale may be seen at the office of the Sheriff of Calcutta on any day before the sale and will be produced at the sale.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries Imperial Secretariat Buildings, Calcutta.

The Commissioners for the Port of Calcutta.

Saigon Approach—Traffic Regulations.

No. 219 (first publication).—The following particulars, etc. relative to the above, issued by the British Admiralty (No. 567 of 1916), are republished :—

Mariners are hereby warned that the following regulations are in force for vessels approaching Saigon :—

1. By day, from 6 a.m. to 6 p.m., merchant vessels are permitted to enter Cocoanut bay after signalling their names; they must remain in this bay, and anchor if necessary, for examination. Vessels are not permitted to proceed to Saigon without permission from the officer in charge of the Examination service.
2. By night, from 6 p.m. to 6 a.m., merchant vessels are not permitted to approach within 6 miles of the coast; vessels arriving during the night must therefore keep outside a line drawn 6 miles from the coast, the only exception to this rule being French merchant vessels in charge of the Postal service.

   Vessels entering the prohibited area without permission are exposed to great danger.
3. All vessels must comply immediately with orders received from men-of-war, Examination service vessels, or from the semaphore or signal station, whether the orders are given verbally, signalled in the International code, or by the firing of a blank charge.

   Vessels must immediately stop on being signalled to do so by a blank charge being fired, if the order is disregarded a shot will be fired; vessels are warned accordingly.

Authority.—French Commodore, Saigon. (*H. 3113/16.*)

RESOLUTION No. 9054P.

READ—

The Annual Report on the Police Administration of the Town of Calcutta and its Suburbs for the year 1915.

SIR FREDERICK HALLIDAY held charge of the office of Commissioner of Police until the 31st March 1915, when he proceeded on two years' leave.

Mr. R. Clarke officiated as Commissioner for the remainder of the year. Twenty-nine Sergeants resigned on rejoining the army to proceed on active service, and owing to the war it has been found impossible to replace them. By the death of Captain A. P. Wolehouse at the Battle of Ctesiphon in Mesopotamia, the Calcutta Police have lost the services of a very efficient officer whose untimely death is much regretted by the Governor in Council.

2. During the year the Commissioner of Police was empowered to grant rewards up to Rs. 500 in any one case for the apprehension of offenders and for intelligence leading to the discovery of crime. There has been a considerable increase in the total amount of the rewards granted, a sum of Rs. 18,857 having been disbursed against Rs. 8,612 in 1914. Owing to the financial situation it has unfortunately been found impossible to proceed with several important building schemes which are still pending for allotment of funds. The problem of housing the police force in Calcutta is becoming very serious, and a sum exceeding two lakhs of rupees was spent during the year in renting houses for the accommodation of officers and men.

3. The total number of cognizable cases reported to the police and to the Magistrates in 1915 was 95,583 against 96.488 in 1914 and 107,871 in 1913. The decrease was mainly in cases of public nuisance and road obstruction and appears to be due partly to a reduction in cart traffic owing to the war and partly to the absence of the hawkers who formerly sold cheap German goods on the footpaths. There was also a marked decrease in the number of non-cognizable cases, in spite of the fact that cases under the Indian Motor Vehicles Act are now treated as non-cognizable. This decrease was due to a reduction in the number of prosecutions under the Municipal Act and the Hackney Carriage Act. It is satisfactory to note in connection with cases of cruelty to animals that there has been an increase in the number of horses sent to Belgachia for treatment. The attention of Magistrates in Calcutta and Alipore has recently been drawn to the remedy, both penal and preventive, provided by section 5B of Bengal Act I of 1869, as amended by Bengal Act III of 1900, and the Governor in Council trusts that Magistrates will make a more extended use of their powers to order the treatment at an infirmary, at the owner's expense, of animals suffering from cruelty. The Committee appointed by Government in March 1915 to consider certain questions relating to the administration of the Cruelty to Animals Act have submitted their report, and their recommendations are now being dealt with by Government.

4. Of the 73 cases tried at the High Court Sessions 62 ended in conviction. Fifteen convictions were obtained at the Alipore Sessions out of 16 cases committed. Of the cases brought to trial in other Courts, 98 per cent. ended in conviction, or omitting minor cases of nuisance and petty offences under local laws, 82 per cent. Property valued at nearly Rs. 7½ lakhs was stolen during the year. The value of the property recovered was only a little over a lakh, but of the total amount of property stolen nearly 2½ lakhs consisted of coin or unidentifiable currency notes.

5. More than 1,000 juvenile offenders were brought to trial during the year. Most of them were tried in the special court in the House of Detention, and it is satisfactory to find that only 14 were actually sent to jail, the remainder being dealt with in other ways. Two probation officers have been appointed to supervise the conduct of juvenile offenders released from the House of Detention. They attend the Juvenile Court daily and receive instructions from the trying Magistrates as to the treatment of juvenile offenders.

6. The year was unfortunately marked by the occurrence of several political outrages in the city. In February, two dacoities, in which motor cars and pistols were used, were committed, one at Garden Reach and the other at Belliaghata. One of the persons concerned in the Garden Reach case was eventually convicted and sentenced to seven years' rigorous imprisonment. In the other case, a band of 15 Bengali youths, armed with revolvers and pistols, attacked the house of a banker and looted Rs. 19,000 in currency notes. The dacoits wounded a cashier by a revolver shot and

subsequently shot dead the driver of the taxi-cab in which some of them had arrived at the scene of the occurrence. The bystanders were unable to identify any of the dacoits, but subsequent enquiries led to the discovery of the gang responsible for the outrage, and some of the members of the gang have been interned under the Defence of India Act. On the 24th February, a man was shot in Pathuriaghata Street by Jatindra Nath Mukherji, a well-known revolutionary, who mistook him for a police spy. Four days later, Sub-Inspector Suresh Chandra Mukherji was shot dead in Cornwallis Street by some Bengali youths belonging to Jatindra's gang, whose arrest he was endeavouring to effect. There is good reason to believe that three of the men concerned in this outrage belonged to the gang which was captured later in the year by the Balasore Police, after offering a desperate resistance, in the course of which Jatindra and another man were killed. The two others were subsequently hanged. In October Sub-Inspector Girindra Nath Banerji of the Bengal Police was shot dead in a house in Masjidbari Street by a number of Bengalis who appeared suddenly at the door and opened fire with pistols. No clue has been obtained to the perpetrators of this outrage. In November, a constable on guard duty in Serpentine Lane was shot by two Bengali youths, and subsequently died from his injuries. Four more dacoities and one case of robbery took place in November and December. In four of these cases no evidence of identification was forthcoming, but in the remaining case, the recovery of part of the stolen property led to a clue being obtained, and certain persons will shortly be placed on their trial in connection with this case.

7. Vigorous action has been taken to cope with the new form of crime known as motor-dacoities. Alarms and traffic barriers have been erected in suitable localities, and patrols by armed motor cars have been established. These measures, together with the action which has been taken in other directions to break up the revolutionary gangs and to segregate and restrain the movements of the most dangerous leaders, led temporarily to a perceptible improvement in the situation, but recent outrages in Calcutta and elsewhere show that the evil has not yet been eradicated. The Government of Bengal have had to deplore the loss of many brave police officers during the past ten years, but the spirit of those members of the force who are engaged in the dangerous work of combating revolutionary crime has seldom wavered and their pluck and devotion to duty are beyond all praise. Liberal provision has been made for the maintenance of the families of the police officers and constables who have lost their lives in the service of Government, and steps are being taken to improve the conditions of service of those who are employed on exceptionally dangerous work, and to afford them more efficient protection against their relentless assailants.

8. Among the miscellaneous duties of the Calcutta Police force may be mentioned the administration of the revised motor car rules, which came into force on the 1st April 1915. There was at first some opposition to the new regulations among a section of the taxi-cab drivers, who struck work for a few days, but the trouble was speedily overcome. The work of supervising hostile aliens was materially reduced by the repatriation of a considerable number in November 1915. The Governor in Council is greatly indebted to Mr. V. H MacCaw, Mr. T. Curtis Hayward and Mr. J. Mackenzie for the assistance they have given as special constables in looking after these people.

9. The working of the Calcutta Fire Brigade under its Chief Officer Mr. B. A. Westbrook shows continued improvement. The Brigade was called up on 272 occasions during the year, and the average loss per call was only Rs. 1,273 as compared with Rs. 4,656 in the previous year, and an average of Rs. 5,735 during the preceding five years. This satisfactory result must be attributed not merely to the increased efficiency of the Brigade but also to the growing confidence of the public, who now realize the importance of giving the earliest information of the outbreak of fire. His Excellency in Council regrets to notice that three Indian firemen lost their lives by suffocation at a fire which occurred at Belliaghata on the 24th December.

10. The Governor in Council has read with pleasure the list of officers who have been commended by the Commissioner of Police for good work done during the year. The discipline of the force shows steady improvement, and all ranks deserve credit for the results achieved. The thanks of Government are especially due to Mr Clarke for his efficient administration of the department.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Commissioner of Police, Calcutta, for information.

Ordered also that a copy of the Resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

J. H. KERR,
Chief Secy. to the Govt. of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Preliminary forecast of the Jute Crop for 1916.

(Note.—On an average of five years ending 1913-14 the area under jute to which the forecast relates represents 87·1 per cent. of the total area under jute in British India.)

THE present forecast is confined to the estimates of area sown and to a general survey of the prospects and condition of the crop. No attempt is made to estimate the outturn. The estimates are based on figures obtained through the agency of panchayats, as in previous years.

Area sown.—Last year's report showed a large decrease in the area sown in consequence of the sudden drop in prices soon after the declaration of war. The subsequent recovery of prices however has, to a certain extent, restored confidence amongst the growers, and where practicable a larger area has been sown in jute. Sowing in many of the districts, however, has been interfered with through want of sufficient moisture at seeding time. For the same reason sowings were unduly delayed in the western districts and the returns from this part of the province will probably prove below the mark, as some sowing was done after the panchayat figures had been submitted. On the other hand, it is quite possible that these extra late sowings may not mature if the weather is unfavourable.

Character of the season.—In *February and March* the rainfall was generally below normal; consequently sowings were delayed in the eastern and northern districts, where the season is generally about six weeks earlier than in the western part of the province. Rainfall in *April*, however, considerably improved the situation.

In *May* the rainfall was again defective, and this, combined with high temperatures, retarded growth considerably. In the western districts the land was still much too dry for sowing.

The *June* rainfall did an enormous amount of good to standing crops and allowed the western districts to get a considerable area sown.

Prospects.—On the whole, the present condition of the crop is fairly good, except in the late-sown tracts (mostly under the *deshi* crop), where the situation is still doubtful. The absence of excessive rainfall during the current month would, however, greatly improve prospects in this area.

Consolidated acreage figures.—The acreage figures for the three provinces, as compared with the figures returned for the *final* forecast last year, are shown as follows :—

NAME OF PROVINCE	ESTIMATED ACREAGE UNDER JUTE.		Increase.	Decrease.
	1916	1916.		
Bengal—				
Western	325,858	315,842	.....	10,016
Northern	601,614	661,131	59,517	.....
Eastern	1,158,798	1,305.105	146,307	.....
Cooch Behar	27,556	31,741	4,185	... ..
Bihar and Orissa	188,090	226,047	37,957	.....
Assam	75,400	73,100	.....	2,300
Total ...	2,377,316	2,612,966	247,966	12,316

The following are therefore the percentages of increase or decrease in acreage :—

	Percentage of increase.	Percentage of decrease.
Western Bengal ...	... ...	3
Northern „ ...	... 10	...
Eastern „ ...	... 13	...
Cooch Behar ...	... 15	...
Bihar and Orissa ...	... 20	...
Assam	... ...	3

The total increase in acreage over that of last year (Final Jute Forecast) is 235,650 or about 10 per cent.

Stocks.—From the District Officers' reports (Appendix I) it appears that very little jute is left over from last year's crop in the districts. There seems to be, however, a fair amount in Calcutta.

S. MILLIGAN,

Offg. Director of Agriculture, Bengal.

APPENDIX I.

Preliminary Jute Forecast of 1916.

District.	Estimated area under jute—		Whether much, little or no jute remains in the district from the crop of 1915.	Date by which the sowing of the crop generally commenced this year, and whether the date was early, normal or late.	Remarks by District Officers.
	Last year.	This year.			
1	2	3	4	5	6
	Acres.	Acres.			
24-Parganas	69,791	62,867	Little	In Diamond Harbour Subdivision—Middle of May; late. In Sadar Subdivision—June; late. Sowing was normal in other subdivisions.	The decrease in area as compared with last year is due to want of rainfall at sowing time. The weather conditions have, however, been favourable since June.
Nadia	53,008	67,278	Little	End of May; late ...	The increase in area is due to the comparatively high price of jute last year. The rainfall was late at sowing time; otherwise the season has been favourable.
Murshidabad	30,403	27,931	Little	From May to June; late.	The increase in area is due to the fairly good price obtained last year. Character of weather has been unfavourable throughout. At first there was a prolonged drought which delayed sowing, then continuous rainfall rendered weeding difficult. The condition of the crop has, however, improved at present.
Jessore	85,087	77,401	Very little	Middle of April ...	Weather was unfavourable at sowing time for want of rain but it is favourable now. In some parts the crop did not grow owing to drought. The present condition of the crop is good.
Khulna	20,586	22,082	Little	Beginning of April; normal.	The increase in area as compared with that of the last year is due to the rise in the price of jute during the latter part of last year. The season was unfavourable at sowing time for want of rain, but it is favourable now. The present condition of the crop is fair.
Burdwan	8,363	6,400	No jute remains ...	Latter part of April to first week of June; a little late in many places.	The decrease in area sown is due to continued drought. The soil was much too dry to enable sowing on a large scale. The weather at sowing time and up till now has been unfavourable. The present condition of the crop is not good except in Katwa, where it is hopeful. The plants have suffered materially from untimely sowing and want of moisture at the start.
Midnapore	12,976	9,520	No jute remains ...	Beginning of June; late	Decrease in area sown is due to want of timely rainfall. There has been no jute cultivation in Ghatal Subdivision up to the time of submission of this report, but some sowing is still expected. Want of rain at sowing time and subsequent heavy rainfall in June adversely affected the growth of the crop. The present weather conditions are, however, favourable.
Hooghly	39,531	32,585	Little	Last week of May; late.	The decrease in the area sown this year is due to want of timely rainfall. The character of weather was unfavourable at sowing time but it has turned favourable now. The present condition of the crop is good.
Howrah	16,013	10,078	No jute remains ...	Beginning of June; late.	The decrease in the area sown this year is due to want of timely rainfall. Want of rain at the beginning of the season and subsequent constant rains impeded the growth of the plants. The present condition of the crop is not good.
Rajshahi	63,100	72,300	Little	March and April; normal.	The increase in area sown is due to the better prices realised last year. Weather was not quite favourable at sowing time, as there was no rain. It is, however, favourable now. Some damage is reported from the Naogaon Subdivision owing to the insufficient rainfall after the crop was sown. Present condition of the crop is on the whole good.
Dinajpur	66,500	67,200	Little	April; normal ...	Weather was not favourable after the sowing was over. The present condition of the crop is fairly good.
Jalpaiguri	50,870	48,240	Little	Middle of April; normal.	Weather was unfavourable owing to irregular and heavy rains. Excessive growth of weeds due to heavy rains was very much unfavourable to the crop. The present condition of the crop is not good.
Darjeeling	2,351	2,945	No jute remains ...	First week of April; normal.	The increase in area sown is due to the prospects of fetching a better price. Weather at sowing time and up till now has been favourable. The present condition of the crop is good.
Rangpur	238,216	242,000	Little	Middle of March; normal.	The increase in area sown is due to the rise in the price obtained last year. Weather was favourable at sowing time but continued rainfall in April somewhat interfered with the weeding operations. The growth of the crop was also retarded owing to scanty rainfall in May. The present condition is, however, very favourable.

DISTRICT.	ESTIMATED AREA UNDER JUTE— Last year.	This year.	Whether much, little or no jute remains in the district from the crop of 1915.	Date by which the sowing of the crop generally commenced this year, and whether the date was early, normal or late.	REMARKS BY DISTRICT OFFICERS.
1	2	3	4	5	6
	Acres.	Acres.			
Bogra	62,800	63,121	Little	Middle of March to middle of May; normal.	Want of rain at sowing time and thereafter retarded the growth of the crop. The present condition of the crop is fair.
Pabna	101,777	134,435	Little	First week of April; a little late.	The increase in area is due to high price of jute obtained last year. There was not sufficient rainfall in March to enable the sowings to be done in usual time. The operations, therefore, had to be postponed till the first week of April, when good rain fell. The young plants were damaged to some extent by the excessively hot and dry climatic conditions in May. The break of monsoon in June, however, relieved the situation. The present outlook is favourable.
Malda	25,000	31,000	Little	End of April; normal	The increase in area is due to rise in price in 1915 as compared with that in 1914. Weather was not good at sowing time but since middle of June up till now it has been favourable. Owing to drought in May, cultivation was delayed and growth of the crop was impeded.
Dacca	232,075	256,285	Little	March; normal ...	The increase in area sown is due to the rise in price of jute to its former pitch. The weather was not very favourable at sowing time. Rainfall during the latter part of May and in the beginning of June improved the condition of the crop. The outlook at present is hopeful.
Mymensingh ...	484,321	582,912	Little	End of March ...	The increase in area is due to the high price of jute obtained last year. Absence of rain in April and May interfered with the growth of the early sown crop. Since then weather has been favourable. The condition of the crop sown somewhat late in the season is so far excellent.
Faridpur	196,800	214,300	No jute remains ...	Beginning of April; normal.	The increase in area as compared with that of last year is about 15 per cent. and is mainly due to the rise in the price of jute last year. Insufficient rainfall at sowing time and drought till the end of May affected the growth of the crop. Weather is, however, favourable now. The present condition of the crop it promising.
Bakarganj ...	47,000	45,000	Nil	First part of April; late.	The decrease in area is due to absence of rain at sowing time. Weather has been unfavourable at the beginning but turned favourable afterwards. The condition of the crop sown a little late is more favourable than the crop sown early.
Chittagong .	200	20	Nil	Middle of April; normal.	
Tippera	180,861	179,533	Very little ...	March; normal ...	The weather was abnormally dry at sowing time; afterwards it was very wet in April. A dry spell followed in May which caused some premature flowering in Brahmanbaria Subdivision. The condition of the crop was improved by the break of monsoon in June.
Noakhali	26,941	27,075	No jute remains ...	Latter part of March; normal.	Weather was unfavourable at sowing time as it was abnormally dry. Rain fell in April. The season has been favourable since then. The present condition of the crop is good.
Total for Bengal ...	2,086,270	2,282,078			
Add for Cooch Behar ...	27,556	31,741	Little	March and April; normal.	The increase in area sown is due to the high price of jute realised during the latter part of last year. Weather was favourable at the time of sowing, but it was not so afterwards. Excessive rain during the weeding time retarded the operations, which resulted in the stunted growth of the crop. The crop was also destroyed over an extensive area by the accumulation of water. The present condition of the crop is not good.

NOTE.—The figures given above are the averages for all the rainfall registering stations in each district.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

Preliminary Forecast of the Jute Crop of Bihar and Orissa, 1916.

(NOTE.—On an average of the five years ending 1913-14 the area under jute to which the Bihar and Orissa forecast relates represents about 9·8 per cent. of the total area under jute in British India.)

THE present forecast deals only with the estimated area sown. It gives also a general survey of prospects but makes no reference to the probable outturn either in percentage figures or in bales.

2. Acreage.—The estimated area sown during the current and four preceding years in round numbers is given below :—

Year.	Acreage.
1912	298,300
1913	318,400
1914	330,100
1915	188,100
1916	226,000

3. Weather conditions.—In March there was practically no rain. In April the rainfall was above the normal in the jute-growing districts, except in Cuttack and Balasore, where it was below the normal. In May it was defective everywhere. The absence of rain early in the season retarded sowings in the important jute districts. The rainfall in June was in excess of the normal in all the jute districts, except in Champaran, where it was slightly below the normal. The rainfall facilitated sowings and improved prospects of the crop to a great extent. In Cuttack, however, the fall was excessive and further retarded the sowings.

4. District returns.—The total area under jute, as reported by the District Officers, is estimated in round numbers at 226,000 acres as compared with 188,100 acres of last year. Sowings are, however, still incomplete in Muzaffarpur and Cuttack. The increase in area is due to the effect of favourable prices realized in 1915. For Purnea, which is the most important jute-growing district in this Province, the figure for acreage has been arrived at by a census of jute fields taken by the panchayats under the supervision of Special Officers.

5. Condition and prospects.—The area under jute this year is greater than that of last year; but a considerable part of this area has been sown late, and the growth of the late-sown crop has been somewhat retarded by the subsequent heavy rains. The condition of the crop, however, is reported on the whole to be promising.

6. General.—Little jute from the crop of 1915 remains in the districts.

JOHN R. DAIN,
Offg. Director of Agriculture,
Bihar and Orissa.

APPENDIX I.

First Forecast of the Jute Crop of Bihar and Orissa, 1916.

DIVISION.	District.	Total area of the district.	Estimated total area under cultivation.	Estimated normal area under jute. (This figure has been arrived at by taking the average of 10 years immediately preceding the year to which this forecast relates.)	ESTIMATED AREA UNDER JUTE.		Whether much, little or no jute remains in the district from the crop of 1915.	Date by which the sowing of the crop generally commenced this year and whether that date was early, normal or late.	REMARKS BY DISTRICT OFFICER.
					Last year (1915).	This year (1916).			
1	2	3	4	5	6	7	8	9	10
		Acres.	Acres.	Acres.	Acres.	Acres.			
Tirhut ...	Champaran ...	2,259,840	1,447,600	2,200*	1,500	2,000	No jute remained in the district from the crop of last year.	End of March ...	The weather and rainfall have been favourable. The present condition of the crop is good. The sowing was normal and is almost complete. The crop is expected to be better than that of last year.
	Muzaffarpur...	1,942,324	1,627,000	1,900*	1,000	1,600	Little	March	The early monsoon commenced late and so the sowing continues still in the subdivision of Hajipur. The standing crop is promising.
Bhagalpur ...	Bhagalpur ...	2,661,020	1,684,100	4,500	2,560	1,920	Little	April to May ...	Only 75 per cent. of the last year's area has been sown this year. The decrease is due to the want of timely rainfall. The condition of the crop was bad before but is now improving.
	Purnea ...	3,196,153	1,694,400	239,400	158,830	197,027	Very little ...	Sowings commenced from beginning of March in Kishanganj and eastern part of Sadr and Araria, which is the normal time, but in the western parts of Sadr and Araria sowings commenced in middle of May, which is late.	Season was favourable in Kishanganj and in parts of Sadr and Araria. A large area now under jute in Sadr was sown after 31st May. This late-sown crop has been subjected to early monsoon rains which have retarded its growth. The expansion in area under jute in 1916 is due to the effect of favourable prices realized in 1915.
	Santal Parganas.	3,466,100	1,698,200	4,100	1,500	1,100	Little	Middle of May ...	Owing to an almost complete absence of rain for the first two months of the year the sowings have been much less than those of last year. The general condition of the crops is now favourable as reported by the Subdivisional Officers, Rajmahal and Pakour.
Orissa ...	Cuttack ...	2,340,307	1,223,300	14,800	20,200	19,700	No jute remained in the district from the crop of 1915.	First week of May. (The date of sowing was late this year.)	Scarcity of rain at the sowing season retarded the sowing of the crop. Subsequent excessive rain affected the growth. The present condition of the crop is fair. Sowings are still going on. The decrease in area as compared with the first and final forecast of last year is due to the fact that on account of recent excessive rain certain areas could not be sown. They may possibly be sown if weather permits.
	Balasore ...	1,332,621	932,200	3,500	2,500	2,700	Very little ...	Last week of May. (The sowing was late this year.)	Weather is now favourable to the crop. The plants have in some places grown from 9 inches to 18 inches high. In Baliapal thana a larger area has been sown than in the previous year and hence the increase.
	Total ...	17,198,365	10,307,000	270,400	188,090 or in round numbers 188,100.	226,047 or in round numbers 226,000.			

* The average of nine years immediately preceding has been taken, as earlier figures are not available.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

First Forecast of the Jute Crop in Assam, 1916.

[*NOTE.—On the average of the five years ending 1913-14 the area under jute in Assam represents some 2·9 per cent. of the total area under jute in British India.*]

Character of the season.—The rainfall in February was somewhat light, but it was rather in excess in March and continued to be so in April in most districts. On the other hand, May and June were drier than usual and the total rainfall of these months was below normal. The weather was not favourable at the time of sowing, with the result that there was a tendency for the area that would have been put under jute to diminish, particularly in the districts of Sylhet and Goalpara. Conditions are, however, reported to have improved since and the crop is expected generally to be better than that of last year.

Area sown.—According to the estimates of the Deputy Commissioners the total area under the crop amounts to 73,100 acres or some 12 per cent. less than that shown in the preliminary forecast of last year which was 83,100 acres. The area sown this year has decreased in every district except Darrang, Nowgong and the Garo Hills; in the last two districts the increases are about 27 and 32 per cent., respectively. In Goalpara and Sylhet, the two most important districts in the Province from the point of view of jute, decreases of 9,700 and 1,200 acres, respectively, are reported. Unfavourable conditions of weather and the low prices obtained for last year's crop are said to be responsible for the decrease.

Stocks.—According to the Deputy Commissioners' reports, little jute remains from last year.

Director of Land Records and Agriculture, Assam.

APPENDIX I.

First Forecast of Jute Crop, 1916.

DISTRICT.	Normal area under jute.	ESTIMATED AREA UNDER JUTE.		Whether much, little or no jute remains in the district from the crop of 1915.	Date by which the sowing of the crop generally commenced this year and whether that date was early, normal or late.	REMARKS BY DEPUTY COMMISSIONERS.
		Last year.	This year.			
1	2	3	4	5	6	7
	Acres.	Acres.	Acres.			
Cachar ...	400	300	200	None	First part of April; normal.	The weather and rainfall were favourable to the crop. The condition of the crop is good. The sowings were normal as regards time and have been completed. The crop is expected to be better than that of last year. The area sown was restricted, owing to excessive rainfall at the time of sowing.
Sylhet ...	16,000	12,700	11,500	Little	First week of April; late.	The weather was not favourable at the beginning of the season. Subsequent fall of rain in April improved the conditions, which are now fair. The sowings were rather late this year and have been completed. The crop is expected to be better than that of last year. The decrease in area is due to the low prices of last year, to cattle mortality and to want of rain in March, as well as to great demand for food crops.
Goalpara ...	30,000	45,700	36,000	Little	Middle of March-April; normal.	At the beginning of the season the weather and rainfall were not favourable, but since sowing, weather conditions have improved. The condition of the crop is fair. The sowings were generally in normal time, but retarded for want of timely rain. The crop is expected to be better than last year. There has been a decrease in the area sown this year owing to want of seasonable rainfall, and the fall and uncertainty in the price of the crop.
Kamrup	5,500	8,000	7,600	Little	1st April; normal.	Weather and rainfall have been favourable. The condition of the crop is fairly good. The sowings were in normal time and have been completed. The crop of this year is expected to be better than that of last. The decrease in area is due to the fall in the price of jute last year.
Darrang	1,000	7,500	8,000	Little	End of April in the Sadar Subdivision late. Middle of April in the Mangaldai Subdivision; normal.	The weather and rainfall were on the whole favourable. The condition of the crop is good, except in the Tezpur circle, where it is reported to be poor. Sowings were in normal time in the Mangaldai Subdivision and have been completed, but are late in the Sadar Subdivision where sowing is still going on in places. The crop is expected to be somewhat better than last year, except in the Tezpur circle, where it is worse on account of damage by insects. The increase in area is small and may be attributed to ordinary fluctuation.
Nowgong	500	3,700	4,700	Very little ...	1st April; early ...	The weather and rainfall were not favourable. The condition of the crop is fair. The sowings were early and have been completed. The crop is expected to be better than in last year.
Sibsagar ...	300	600	500	Nil	First week of April; normal.	The weather was not favourable owing to excessive rain in May. The condition of the crop is fair. The sowings were in normal time and have been completed. The crop is expected to be worse on the whole than that of last year. The small decrease in area compared with that of last year may be put down to ordinary fluctuations.
Lakhimpur ...	200	300	100	None in Sadar, but a little in North Lakhimpur Subdivision.	1st April; normal	The weather and rainfall were seasonable. The condition of the crop is fair. Sowings were normal and have been completed. The crop is expected to be better than that of last year. In the Sadar Subdivision the decrease in area is due to the fact that some people gave up jute cultivation, owing to loss on it last year, and took to paddy cultivation, while the decrease in the North Lakhimpur Subdivision is due to the prevalence of cholera in that Subdivision at the sowing season.
Garo Hills ...	4,000	3,400	4,500	Nil ...	Begun in middle of January and completed by first week of April; late.	The weather and rainfall were not favourable when the sowing commenced, but they became much better later on and are so still. The present condition of the crop is good. Sowing was generally late, as it was retarted in the beginning for want of rain. The sowings have been completed. The crop of this year is expected to be better than that of the last.
Total ...	57,900	82,100	73,100

REPORT ON THE ADMINISTRATION OF THE SALT DEPARTMENT IN BENGAL DURING THE YEAR 1915-16.

NOTIFICATION

No 1438S.R—The 11th July 1916.—The following extracts from the Report of the Commissioner of Excise and Salt, Bengal, on the administration of the Salt Department in the Presidency of Bengal during the year 1915-16, are published for general information.

J. DONALD,
Secy. to the Govt. of Bengal.

No. 2000E., dated Calcutta, the 27th June 1916.

From—A. N. MOBERLY, ESQ., I.C.S., Commissioner of Excise and Salt, Bengal,

To—The Secretary to the Government of Bengal, Financial Dept.

I HAVE the honour to submit the following consolidated report on the administration of the Salt Department for the year 1915-16. The report deals with preventive operations in the saliferous districts of the Presidency, which were under the control of the Commissioner of Excise and Salt and with the importation and issues of salt under the control of the Customs authorities.

2. **Charge of the Department.**—I was in charge of the department throughout the year.

CHAPTER I.

General.

* * * * * *

4. **Credit system of payment of duty.**—From the statement furnished by the Collector of Customs, Calcutta, it appears that securities to the extent of Rs. 45,58,800 were deposited during the year as compared with Rs. 43,34,500 in 1914-15. The amount of duty debited during the year under the system was Rs. 87,57,960¼ against Rs. 92,20,683½ in the previous year. There were 44 depositors during the year, four of whom closed their accounts, leaving a balance of 40.

5. **Extension of the salt-bonding accommodation and replacement of turn-tables at Sulkea.**—In the year under review, the East Indian Railway completed the replacement of the four small railway turn-tables at the *golas* by two larger ones and also removed one from the south to the north end siding at a sanctioned cost of Rs. 3,192, thereby saving the cost of a new turn-table. This greatly expedited the work of placing wagons for loading purposes. Two new gangways supplied to No. 6 pontoon and shore connections renewed together with new brick-on-edge footpaths completed the requirements for bonding operations for the year.

6. **Salt *Golas* at Chittagong.**—Notwithstanding the rush of imports between the latter half of June and the end of October, the storage capacity was sufficient owing to the fact that all the new *golas* at Moheshkhal were available for storage as well as the old *golas* at Sadarghat and in the Custom House compound. Considerable repairs to the *kutcha golas* were undertaken to provide the necessary storage space, and a special allotment on this account was made by Government. At Moheshkhal the floors were raised in all the compartments save one, and the result has so far proved satisfactory in

curtailing the abnormal wastage of the previous year. The nine *golas* used for storage before the floors were raised gave an average wastage of 2·17 per cent., whereas the wastage in the four *golas* loaded and cleared after the work had been carried out was ·85 per cent. only.

The workshop at the new *golas* was completed during the year and all the tools, stores, etc., removed there. The Inspector and the Assistant Inspector also took up their quarters in the *gola* compound.

7. **Consumption of duty-free salt for Commercial purposes.**—The quantity of salt delivered free of duty for commercial purposes or on which a drawback of duty was subsequently allowed for the same reason amounted to 13,750 maunds as compared with 7,900 maunds in 1914-15.

8. **Enhancement of the duty on salt.**—The duty to be paid on salt manufactured in or imported into British India was raised from Re. 1 to Re. 1-4 per maund with effect from the 1st March 1916 by India Government Notification No. 1545 Exc. of that date and by the Indian Tariff (Amendment) Act IV of 1916.

CHAPTER II.

Stocks, Imports and clearances.

9. **Accounts of stocks and issues.**—The stocks, imports and clearances of salt in and from the ports of Calcutta and Chittagong for the years 1914-15 and 1915-16 are shown below :—

Stocks, imports, etc.	1914-15. Mds.	1915-16. Mds.
Total of all stocks at the commencement of the year	31,63,664	6,48,173
Total quantity imported during the year	1,19,66,504	1,41,91,910
Excess found in the *golas*	6,071	5,972
Total ...	1,51,36,239	1,48,46,055
Quantity on which duty was paid during the year	1,38,65,658	1,23,04,167
Quantity which passed free of duty for the manufacture of glazed stoneware, etc.	4,352	7,273
Quantity of non-duty-paid salt removed under bond to all inland warehouses ...	5,20,322	5,88,052
Quantity written off during the year for wastage or otherwise	97,734	75,775
Total ...	1,44,88,066	1,29,75,267
Balance at the close of the year ...	6,48,173	18,70,788

The import figures show an increase of 22¼ lakhs of maunds, though there was a decrease of over 15½ lakhs of maunds in clearances.

10. **Imports.**— * * * * The total imports into Calcutta increased by 14·5 per cent. There was an increase in imports from the United Kingdom, Spain, Port Said and Massowah, due to the demand for salt and the low stocks at the close of the year 1914-15. The decrease in imports from Aden was due to the unsettled state of the country owing to the war, and that from Bombay to the want of tonnage. There was no import from Salif during the year.

There was an increase of nearly 6½ lakhs of maunds or 59·5 per cent. in the imports into the port of Chittagong. While imports from Aden decreased by 82·9 per cent., there was an increase of 176·7 per cent. in imports from Port Said. Eight lakhs sixty thousand and seventy-two maunds of salt were imported from Spain against *nil* in the previous year.

Out of the total importation of 1,24,65,788 maunds into the port of Calcutta, 79,86,432 maunds or 64 per cent. were bonded in the Sulkea *golas* during the year as against a percentage of 66 in the previous year. The decrease in percentage was due to large clearances from boardship during the last quarter of the year in anticipation of a heavy rise in the rate of duty.

11. **Sales of imported salt from shipboard and bond.**— * *

In Calcutta the sales direct from shipboard show an increase of 22·7 per cent., and those from bond a decrease of 21 per cent. In Chittagong the sales direct from shipboard exhibit an increase of 46·3 per cent., and those from bond a decrease of 33·5 per cent. The decrease in clearances from bond was due to the restriction placed on deliveries from bond in February by the ordinance issued by the Government of India. There was a decrease of 11 per cent. in the total sales of imported salt. All the vessels carrying salt to Calcutta were steamers.

12. **Transactions in the *golas*.**—The total transactions at the *golas* in Calcutta and Chittagong for the past five years are given below :—

Year.	Calcutta.	Chittagong.
	Mds.	Mds.
1911-12	1,89,16,765	14,60,568
1912-13	1,89,70,290	23,01,492
1913-14	2,01,32,936	19,52,207
1914-15	1,58,60,486	15,95,103
1915-16	1,55,57,771	17,35,807

* * * * * *

14. **Inland bonded warehouses.**—There were 9 private bonded warehouses in this Presidency against 8 in the previous year, viz., 2 at Narayanganj (Dacca), 1 at Bhairab Bazar (Mymensingh), 1 at Madaripur (Faridpur), 4 at Jhalakati (Bakarganj), and 1 at Chandpur (Tippera). A new *gola* was opened at Narayanganj during the year. The quantity of salt despatched to the 9 inland warehouses from shipboard and *golas* in the ports of Calcutta and Chittagong was 5,22,052 maunds as compared with 3,91,336 maunds in 1914-15, showing an increase of 33·4 per cent. The quantity of salt despatched from shipboard to the bonded warehouses at Chandbali in Bihar and Orissa and at Ajmiriganj in Assam was 36,000 maunds and 30,000 maunds, respectively, against 81,986 maunds and 47,000 maunds in the previous year, showing an aggregate decrease of 62,986 maunds or 48·8 per cent.

* * * * * *

CHAPTER III.

Consumption and prices.

17. **Consumption.**—The total quantity of salt which passed into consumption in this Presidency during the year 1915-16 was 78,55,974 maunds. This is exclusive of 47,82,859 maunds, the net export by rail, road or river, but inclusive of 60 maunds educed from saltpetre.

18. **Prices of salt in Bengal generally.**— * * * *

There was an increase of 9 annas 10 pies in the average as compared with the previous year, which is attributed to the rise in the price of imported salt and to the enhancement of the salt duty

The retail prices in the saliferous districts showed an increase, the price per seer ranging from 1 anna to 2 annas. The average wholesale price per 100 maunds of Liverpool salt, as sold from the ship's side in the port of Calcutta, exclusive of duty, was Rs. 142-8-9 against Rs. 77-4-9 in the previous year. The Collector of Customs, Calcutta, reports that prices in the salt market ruled high throughout the year. A temporary fall during the second quarter was due to the increased stocks at the *golas* consequent on larger importations. The year closed with abnormal prices on account of very high freights and the anticipated enhancement of the salt duty. In the port of Chittagong the abnormal rise at the end of the year was probably due more to anxiety as to obtaining tonnage for further supplies from abroad than to the restriction of issues.

* * * * * *

CHAPTER IV.

Preventive Measures.

* * * * * *

CHAPTER V.

Financial Results.

22. **Receipts and charges.**— * * * * As compared with 1914-15 receipts show a decrease of Rs. 16,58.113 or 11·8 per cent., and charges a decrease of Rs. 52,251 or 14·1 per cent. The net revenue was Rs. 1,20,50,450, which was less than that of the previous year by Rs. 16,05,862 or 11·7 per cent. The decrease in the receipts occurred mainly under the head "Import duty on Salt." The charges do not include any share of the cost of the Customs Preventive Service, which is largely employed in safe guarding the salt revenue.

* * * * * *

CHAPTER VI.

Miscellaneous.

23. **Saltpetre refineries and soda factories.**—There were 2 licensed saltpetre refineries at Kakurgachi and Maniktola as compared with 3 in the previous year. There were also 2 factories for the manufacture of sulphate of soda by artificial heat at Tangra and Pagladanga against 1 in the year 1914-15. Work in the refinery at Kakurgachi was stopped owing to * * want of funds, although a license was taken out.

The quantity of refined saltpetre produced during the year was 3,139 maunds against 1,824 maunds in the previous year. The increase was due to greater demand on account of the European war. The quantity of salt educed in the process of refinement of saltpetre was 40 maunds as compared with 24 maunds in 1914-15, and the quantity of *sitta* (impure salt) left in the course of refinement was 8 maunds against 41 maunds. Sixty maunds of educed salt were sold during the year against 80 maunds in the previous year, the duty realized being Rs. 60 against Rs. 80 in 1914-15. The license fees realized from the two saltpetre refineries and the factories for the manufacture of sulphate of soda were Rs. 100 and Rs. 4, respectively.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR JUNE 1916.

I. *Character of the season.*—The rainfall during the month was in excess of the normal throughout the province excepting in Bogra, Pabna, Dacca and Tippera. The usual rainfall statement is appended.

II *Progress of agricultural operations.*—The sowing of autumn paddy was finished, but that of jute was still going on in some western districts where the operation was late. The jute fields were being weeded in the northern and western parts of the province. Ploughings for winter rice and sowings of rice in seed-beds were proceeding briskly. Transplanting commenced in places.

III. *State of standing crops.*—The standing crops were in a fairly satisfactory condition excepting jute in the western districts, owing to insufficiency of rainfall at sowing time.

IV. *Prospects and probable outturn.*—The prospects of jute and other autumn crops were reported to be fair.

V. *Condition of agricultural stock.*—The condition of agricultural stock was fairly good. The number of districts from which cattle-disease was reported varied from four to seven.

VI. *Failure of pasturage and fodder.*—The rainfall during the month greatly relieved the fodder scarcity in some of the districts of the Burdwan Division.

VII. *Prices of food-grains.*—During the second fortnight of the month under review the prices of common rice rose in 3 districts, fell in 6 and remained stationary in the rest. It varied from 6 seers 14 chitaks a rupee at Comilla to 9 seers a rupee at Jalpaiguri.

VIII. *Condition of agricultural people.*—The condition of agricultural people in Bankura and Tippera slightly improved owing to the resumption of agricultural operations. Some amount of distress was also prevailing amongst *Jhumias* of Chakma and Bohmong circles. Relief measures were being taken.

REPORT ON FAMINE AND SCARCITY IN THE DISTRICTS OF BANKURA AND TIPPERA DURING THE WEEK ENDING 8TH JULY 1916.

In the Bankura district the state of affairs in the affected areas is generally unchanged. The rainfall was general but insufficient. The agricultural operations are continuing. The relief measures are adequate. Condition of people on relief works is generally good. Private charitable funds are giving relief. Loans to weavers are being advanced. Prices are stationary. The price of rice is 8 seers per rupee. The number of persons on relief works was 9,098 and in receipt of gratuitous relief 22,624, total 31,722. The decrease in the number of persons was due to the continuance of agricultural operations. Two thousand three-hundred ten and persons were relieved on private works.

In the Tippera district rain fell during the week but more rain is wanted. Harvesting of autumn rice crop is progressing and the cutting of jute has begun. No emaciation. Public health is good. Distress slightly increased in the Sadar subdivision owing to partial failure of early autumn rice crop for want of seasonable rain. Loans are being advanced. The price of rice is 7¼ seers per rupee. The number of persons on test works was 1,489 and in receipt of gratuitous relief 9,155, total 10,644. The decrease in the number of persons on test works was due to the gradual closing down of works in Brahmanbaria subdivision owing to earthwork being impossible and agricultural employment being available.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 17th July 1916.

Summary.—During the week under report heavy showers fell in places of Northern Bengal. The fall in the rest of the province was light to moderate. More rain is wanted in Nadia, Murshidabad and Burdwan for transplanting of winter paddy. Harvesting of jute and autumn paddy is going on in Eastern Bengal. The prospects of standing crops are reported to be fairly good. Cattle-disease exists in eight districts. The average price of common rice for the province has fallen by about 0·4 per cent., as compared with that of the previous week. Some distress still prevails among certain tribes of the Chittagong Hill Tracts.
